CITY GOVERNMENT.

CITY ENGINEER DEPARTMENT'S UN-AUTHORIZED EXPENDITURE IS FLOWED UPON BUT GOES THROUGH-HIGHWAY COMMITTEE TO INVESTIGATE STREET COMMISSIONER ROSS' POSITION—WEST ROXBURY AND NEWTON STREET RAILWAY GRANTED OAK HILL LOCATION—AUBURN AND LEXINGTON STREETS TO BE WIDENED—UNUSUAL AMOUNT OF BUSINESS.

A large variety of important business demanded the board of aldermen's consideration at Monday evening's meeting. President White presided, and Aldermen Van Tassel and Lowell were absent.

Just before eight o'clock hearings were opened and speakers heard jointly on the widening of Boylston, Dedham, Parker and Walnut streets. In opposition to the Dedham street widening a communication from W. S. Appleton was read. In remonstrance to the Parker street widening appeared Messrs. Hamill and Burke. The Boylston street widening was not opposed. The Walnut street plan was opposed by Mr. Schwarz, Mrs. Blood, Mrs. Lovering and Mrs. Eliza B. Crowell. Several aldermen inquired of the city engineer the amount of land to be taken from their lots. The hearing was then closed.

A hearing for sewers in private land and Grasmere street was opened, but as no one appeared, immediately closed.

The next hearing was on the petition of the Newton & Boston street railway for location of turnout on Walnut street. There appeared in opposition Messrs. King, Dumphy, McGinnis, T. Sullivan, Clifford, Furden, Coogan and Tierney. Their remonstrance was based on the grounds that the street was too narrow, and also that as the condition of the west side walk made it impossible for use by pedestrians in winter and children going to school, were obliged to cross and recross the street railway tracks, endangering their lives, it would be inadvisable to grant the petition.

The hearing was closed.

To serve as jurors at the supreme judicial court these jurors were drawn: W. R. Davis, Park street, Newton, and Benjamin F. Butler, Jr., Erie avenue, Newton Highlands. To serve as traverse jurors at the superior court Joseph Lombard of Concord street, Lower Falls, and Nathan E. Chapman of Henshaw street, West Newton, were drawn.

The city solicitor presented a communication in which he gave it as his opinion that the failure of the city to complete the Bulbough's Pond improvement at this time would make it liable to suit for damages.

This was received and placed on file. The city solicitor also gave his opinion in regard to the Felton claim. The city in his opinion had the right to accept a less sum than the total, that the claim might be settled. This was also received and placed on file.

The claims committee was instructed to consider the claim of Fred C. Chadwick for damages on account of injuries received in the caving in of a sewer trench at Newton Lower Falls.

PETITIONS.

The Telephone and Gas Light Companies petitioned for new locations, joint use of poles, removals, etc., on Park, Eldridge, Walnut, Church, Washington, Hartford, Lexington and Rand streets. Referred to the street light committee.

Residents of Wards 1 and 7 were referred to the highway committee on their petition for the resurfacing of Church street from Centre street to Washington street. Also to the same body on their request that a flight of stairs be constructed from Centre street bridge to the depot platform at Newton.

For two street lights on Bailey place the petitioners were referred to the street light committee.

For laying out, grading and acceptance of Charlesbank road a petition was presented and referred to the highway committee.

Abraham Randall's petition for license as private drain layer was referred to the license committee.

Rev. W. H. Williams and others asked for a concrete crossing on Beacon street. Referred. A. W. Vose and others requested a plank walk on Chestnut street. Highway committee.

Petitions for sidewalks and crossings on nonantum street, Hunnewell avenue, Clark street, Grasmere street, Hartford street and Montfort road were referred to the highway committee.

Ward street residents petitioned in regard to remedying damages caused by overflow of water. N. Lutz was granted a common victualler's license. Messrs. Blaney, Cutter and others asked that Bristol road be laid out, graded and accepted. Highway committee. F. E. McLaughlin was granted permission for one pool table.

F. H. Fisher's common victualler's petition was referred to the license committee with M. S. Williams petition for an auctioneer's permit.

A petition for one incandescent light on Bacon place was referred to the street light committee.

The petition of Staples, Pratt and others for laying out, grading and acceptance of Forest street from Otis to Valentine was referred to the highway committee.

The Governor's proclamation establishing Massachusetts Home for Consumptives was read and received.

G. B. Neal asked to have a tree removed from in front of his house on Washington street.

A hearing was ordered for Oct. 17, on the Gas Company's petition for relocations on Parker street.

Commissioner of Buildings Elder in a communication to the board notified of the intention of Sarah Davis to erect a wooden building on Watertown street near Edden avenue. Referred to the license committee.

COMMITTEE REPORTS.

The session of the evening was sprung by Alderman Knowlton of Ward 4, speaking for the finance committee, in a report on an order appropriating \$3,650 for expenses of the city engineer's department. He recommended the passage of the order, and added that the sum wanted had already been expended, although such expenditure was unauthorized. For the committee he further notified heads of departments and committees of the board that hereafter the finance committee would refuse to recommend appropriations to cover unauthorized expenditures.

The finance committee reported that it was inexpedient at this time to purchase land on Richardson street for a site for the new Bigelow school house. On its recommendation a hearing was granted the school board and the public Oct. 17.

The committee on highways reported recommending laying out, etc., Regent street, Ward 3; recommending widening of Auburn street, Ward 4; Lexington street (Melrose street); recommending completion of widening, etc., of Lexington street Ward 4; recommending leave to withdraw on petitions of Benjamin Dickerman for sidewalk and street watering abatement; recommending construction of concrete sidewalk, Melrose street, Ward 4, Hunnewell avenue and edgestones, Adams and Middle streets, Ward 1; recommending change of name of Hale road to Irvington street, Ward 5; recommending rounding corner of Centre and Jefferson streets, Ward 7; recommending that certain re-

ceipts from N. E. Tel. & Tel. Co. be credited to general repairs.

The journal committee reported, recommending approval of records of September 19, 1898.

The committee on licenses reported, recommending granting of license to Benjamin Glin; recommending granting leave to withdraw on petitions of Dora Wingersky for common victualler's license, Ellen R. Miller for common victualler's license, James Murrahgan for junk license, Max Meilman for junk license.

The committee on ordinances reported, recommending in expedient on proposed ordinance for suppression of noise.

The public parks and grounds committee reported, recommending additional appropriation of \$1,200 for parks and squares.

The sewer committee reported, recommending taking land for sewers in private land near Wales street, Ward 4; recommending taking land for sewer in Manet road, Ward 6.

The committee on street lights and poles reported, recommending granting petitions of N. E. Tel. & Tel. Co., pole locations, Grasmere street and Hunnewell street, Ward 7; N. E. Tel. & Tel. Co., pole locations, Lexington street, Ward 5, and Homer street, Ward 6; N. E. Tel. & Tel. Co., pole locations, Lincoln street, Ward 5; N. E. Tel. & Tel. Co., attachments to poles on Mt. Ida street, Ward 1; N. & W. Gas Light Co., pole locations, Lexington street, Ward 4; recommending location of street lights on Concord street, Ward 4; Hicks street, Ward 3; Foster street, Ward 2; Farlow hill, Ward 7; Jackson road, Ward 5; widening of Dedham street, Ward 5; widening of Parker street, Ward 5; widening of Walnut street, Ward 5. Taking land for sewer in private land and Grasmere street, Ward 7.

Granting location in Walnut, Boylston, Parker and Dedham streets, Ward 5, to West Roxbury & Newton street railway company.

Appropriating \$1,200 additional for parks and squares.

Authorizing sewer construction in private land on Grasmere street.

Authorizing construction of concrete sidewalks on Melrose street, Ward 4; Hunnewell avenue, Ward 7; Adams and Middle streets, Ward 1, edgestones.

Changing name of Hale road to Irvington street, Ward 5.

Crediting highway general repairs with certain receipts.

Assigning hearings, Oct. 17, 1898, upon widening of Auburn street, Ward 4; rounding corner, Jefferson and Centre streets, Ward 7; Laying out, etc., of Regent street, Ward 3; taking land for sewer in private land near Wales street; taking land for sewer in Manet road, Ward 6.

Appropriating \$8,500 for completion of Lexington street, Ward 4.

Authorizing issue of twenty year note for \$16,500 for Auburn and Lexington streets.

LEXINGTON AND AUBURN STREETS.

It was not until the board had agreed that it should give a five year instead of a twenty year note that could cover these appropriations that Alderman Whitteley withdrew his objections. Otherwise he would have moved that it be laid over until the next meeting under the rules. He was quite emphatic in stating his position, and convinced the board by his remarks of the expediency of the change of time.

Newton Quite English You Know.

Speaking of the Newtons, we are more and more convinced every time we ride through them that there are no more beautiful suburbs anywhere in New England. They are one great garden, very English in the perfection of trimness, greenness and garniture. There are flowers everywhere, the wild more plentiful and abundant than the cultivated; and as for the trees, they are as grand, and to all appearances, enjoying as vigorous an old age as those seen in any part of old England.—Boston Herald.

High School Notes.

Newton High school opens this fall with the most favorable conditions for a successful year. The new school, with its unsurpassed facilities adapted to all branches and departments of school work, and its able corps of teachers, all speak for the generosity of Newton's citizens, to whom each school of scholars return at least his expression of thanks by earnest work. Let all support the school, first, by conscientious study, and secondly by upholding the name of the athletic and social interests, and making their standard higher than ever before.

Although the football team started under difficulties and was severely handicapped without many of its best players, it is extremely gratifying to those interested in its success that so many good men have answered to the call for candidates. Last Saturday's game with Allen's school certainly gives the men hope, but the score indicates the kind of playing the West Newton boys indulged in. 28 to 0 tells the story. Short halves though they were, Newton's men tore through the line and around ends for long gains, frequently running half the field in a single play. Leonard, Holmes and Seaver did the star ground gaining, while Moore at quarter gave a good exhibition of clever head work and excellent interference. The team is certainly light this year, but what it loses in weight it will endeavor to gain by snap. Behind the line Holmes and Leonard at full back are doing magnificent work. The halves are well filled by Capt. Seaver and Carter, with Skelton and Holmes as substitutes. There are a number of candidates for quarter: the most likely man is Moore, with a good substitute in Manager "Ban" Howes. The line is made up of men who like to see it, but it is as heavy, if not heavier, than last year's. The center trio, Stone, Barnes and Kenway, are surely to be depended upon for good work. The tackles, Clark, Sullivan, Brood and Leatherbee are inexperienced, but good, hard players. Brood and Sullivan will probably fill the positions. The ends are most looked for places. Abbott of last year's team and "Jake" Kelley, the veteran, are good men, with Kempton, Goel and Andrews not far behind them. Altogether, with proper support, Newton should win the pennant of the junior league, now that Somerville, her old antagonist, has entered the senior league.

There is no reason why the various clubs and associations of Newton High should not uphold, if not surpass the standard set for them by graded schools. The athletic association has always been successful. Donald W. Howes of '99, this year's president, will surely do his best to make the "Meet" of '99 a record breaker. Capt. Thompson of the track team will pick a good set of men from the field offered him. Daniels of last year's team, Greene a fast man, Leonard, Woodward and Seaver all men of experience and skill. The Lyceum can surely do its best with the material to select from. All the best debaters were graduated last year, so it lies with the men in the senior and lower classes to make this year's Lyceum a great success. The baseball team under Leonard as captain will surely win honor for the school.

The officers for the girls' athletic association are: President, Miss Grace Whitteley; vice-president, Miss Spaulding; secretary, Miss Lucia Proctor; treasurer, Miss Ruth Weiss; captain of the girls' basketball team, Miss Jessie Carter.

The October number of the "Review" will appear this week.

The Alpha, Phi, Kappa has held its annual business meeting and the following officers were elected: President, Miss Elsie Clark; vice-president, Miss Margaret Carter; secretary and treasurer, Miss Margaret Seaver.

A small freshman girl complains that the stairs are too long. An honorable senior begs leave to assist. Is refused, much to the consternation of both.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disorder, it requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

The Best is the Cheapest.

To the Editor of the GRAPHIC:—Among the carpets in a certain country house, one was an English Brussels at \$2.50 a yard; the other was an American Brussels at \$1.50 a yard. When the former had been in use for twenty-six years and the latter for fourteen, a large part of the former, nearly worn out, was replaced by the latter in color and wear for fourteen years more, making forty in all, and the latter did for fourteen years when it was new. To make the matter more vexatious, the American carpet, though perfectly beautiful in pattern and color, and in relation to its surroundings, not only wore badly, but quickly faded into a general dinginess and shabbiness that were doubly annoying because the happy associations with its purchase and use made good wearing qualities in fabric and color especially desirable. But apart from sentimental considerations, and looking only at economical ones, the first, with a life of forty years, cost six and a quarter cents per yard per year. The second, unfit for further use in fourteen years, cost very nearly eleven cents per year, or nearly double the former.

The best, that is suited to its proper and intended use, is the cheapest. Note the qualifying clause. Black broadcloth is not meant for use in farm or shop work, nor velvet and lace in the country, but in its right place and for its proper use. And, we might further add, for those who know enough to have principle enough to use and care for things as they ought to, the best is always the cheapest in the end.

No Trouble Now.

"I suffered from hip disease and had five running sores on one of my hips. I could not walk without crutches. I began taking Hood's Sarsaparilla and it has accomplished a perfect cure. I have had no trouble from impure blood since taking it." ANNE ROBERT, 46 Fourth Street, Fall River, Mass.

Stop! Women,

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered;

accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private ills to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. — Lydia E. Pinkham Medicine Co., Lynn, Mass.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."

NOT A CANDIDATE.

It has been understood for some time that Mayor Cobb did not desire a re-nomination, owing to business arrangements that he has made, that will not give him time to attend to the duties of mayor. He has this week stated his position to a representative of the Graphic, and wished his position to be made public. He thinks he has done his full duty as a citizen, in the past three years, and will welcome the end of his term.

No one will deny that Mayor Cobb has been a very conscientious official, even though they may have differed with him in matters of policy. He has acted for what he considered the best interests of the city, and has devoted practically his whole time to his duties. That the public appreciated his conduct of the office is shown by his receiving the unusual compliment of a third term, with no opposition of any account. He could without doubt have had the office another year if he had desired it.

During his term, many great and long-needed improvements have been made in the city, and Mayor Cobb can reflect with a good deal of pride on this. These improvements have, however, cost a good deal of money, and it is this alone that has given rise to any reasonable criticism of his course while in office. There were two sides to the question, and Mayor Cobb believed that it would be better for the city to have everything in first-class condition, that all these improvements would do more to promote its growth and attract more desirable residents, than the economical policy, so that in the end the city would be the gainer. Many people agree with him and have approved his acts, while others believe in the opposite policy, and that a low tax-rate is the one thing needful for the growth of the city. These two factions always exist in any city and always will, and outside from party politics, this is the dividing line in city affairs. The GRAPHIC believes in the strictest economy in public affairs, and that that course will have the best results, but there are others, and certainly no one disputes that Mayor Cobb deserves the greatest credit for what he has accomplished, and for his keeping the expenses down to the present limits, when the great pressure upon him from all directions for an even more liberal outlay is considered.

SUPERINTENDENT ROSS.

There was quite a flurry in the board of aldermen over the superintendent of streets, in which Mayor Cobb was very unfairly criticized by one of the aldermen. We do not know what the aldermen expected. They left the business at the beginning of the summer vacation all at loose ends, nothing was done, although they knew that Mr. Ross had been appointed a member of the state highway commission, and had it depended upon their action, the street department would have been without a head all summer. That is the irresponsible way this board of aldermen follow, and to criticize now Mayor Cobb for taking action is very cheap and silly. Something had to be done, the aldermen did not do it and the Mayor had to. As was stated some time ago, the work of the highway commission only takes two days a week, and Mr. Ross was willing to accept a cut from his salary to that extent, and give the other four days to the city, which was a very fortunate arrangement for both, as it would be difficult to find as competent a man to replace Mr. Ross, and it ought to be worth a good deal to Newton to have a member of the state highway commission in charge of its streets.

The Mayor was left with full responsibility, and he had to take some action, owing to the neglect of the aldermen. The summer has been a tided over, and if the aldermen are now ready to take action, and wish to make some other arrangement, we do not think either the Mayor or Mr. Ross will care. The latter could easily make a more profitable engagement, and the advantage is all on the side of the city. Abuse is entirely uncalled for under the circumstances, but there is a good deal of curiosity as to what candidate for street commissioner is favored, or how his chances will be helped by Monday night's demonstration.

THE DEBT MOUNTING UP.

It is interesting to see how the indebtedness of the city is piling up at every meeting of the board of aldermen, and this accounts for the feeling that is growing throughout the city that something radical should be done.

On Monday night one of the finance committee revealed a curious state of things in the city engineer's department. He reported an order for the appropriation of \$3650, and added that that amount had been expended by the engineer's department, al-

though such expenditure was entirely unauthorized. This would be a surprising state of things if it had not happened before in the various departments of the city. The finance committee also gave notice that it would hereafter refuse to recommend appropriations to cover unauthorized expenditures, which is certainly a very mild position to take. If they had had the courage to refuse to condone the case already in hand, they might have brought matters to a head, and put an effectual stop to this pernicious practice. There is a question whether they will have the courage to take such action in the future.

Another increase of the city debt was an appropriation of an extra \$5000, for finishing the Bulbough's Pond improvement, which has been a very expensive affair for the city, though it has been a very profitable investment for the land owners in the vicinity. But will this \$5000 finish up the work, is the question that is agitating the tax-payers?

Another extra appropriation was that of \$8000 for the completion of the widening of Lexington street, which seems to be another Bulbough's Pond improvement. This widening is to give a location to the Newton & Waltham street railway, which wants to reach Auburndale.

Another increase was an order adding \$1200 to the appropriation for public parks, the regular appropriation having been exhausted.

Another extra was the appropriation of \$8000 for the widening of Auburn street, provided for by a note as usual.

What the result will be of the scheme to widen Dedham, Parker, Boylston, and Walnut streets is not stated, as no order for the expenditure of money was presented, but even though that it will be generally conceded that the aldermen did pretty well in the way of running the city into debt, for one evening, and there will be a general feeling of thankfulness that the board does not meet every week.

The Republican Representative Convention will be held at G. A. R. hall, Newtonville, Oct. 18, and a warm contest is expected. It seems to be conceded that Mr. Mitchell Wing will be nominated, but the other nominee is in doubt. Ward One was clearly entitled to the nomination two years ago, but was very unfairly treated, and the ward presents the same candidate this year, and asks for the nomination of Mr. John A. Langford. The convention ought in simple fairness to nominate him, as he would be an excellent representative, and would do much to make Newton's influence felt in the next legislature. The residents of the ward claim that they have never had any recognition, which makes them more strenuous in their demands, and a very active contest is being made. Several other candidates are spoken of, Mr. N. H. Chadwick of Newtonville, Mr. Geo. A. Walton of West Newton, and others, and rumors of all sorts of combinations are in the air.

REPRESENTATIVE CHARLES F. SPRAGUE was renominated unanimously at the convention held in Boston, Wednesday, and will represent the 11th District another term. The congressional committee elected for the coming year contain these three from Newton, Robert H. Gardner of Chestnut Hill, Seward W. Jones of Newton Highlands and Frederic Johnson of Auburndale. They are popularly credited with knowing all there is to know about Newton politics.

SHERIFF CUSHING had a walk-over at the county convention in Lowell, Wednesday, having 276 votes to 55 for Mr. Parkhurst of Somerville, and 53 for Mr. Shaw of Chelmsford. The two latter made a very hot contest for the place, with very little results, and this outcome was not unexpected, as most people could see no good reason why Sheriff Cushing should be superseded. The other county officials whose terms expire this year were renominated.

POTTER-BROOKS.

SOCIETY EVENT WEDNESDAY EVENING WHICH WAS ATTENDED BY THE LEADING SOCIETY FOLKS OF NEWTON AND BOSTON.

Over a thousand guests representing the exclusive society sets of the Newtons, Boston, Brookline, Worcester and New York witnessed the wedding of Miss Florence Elizabeth, daughter of Mr. and Mrs. Henry Brooks, and Mr. Albert Bailey Potter, in Grace Episcopal church, Newton, Wednesday evening.

The church was decorated with flowers and foliage. Stately palms and rare exotics were banked upon the chancel and about the sides, while hangings of autumnal foliage, in brilliant festoons, were draped upon the pillars and walls. On the altar was a mass of pink roses. The pews were decorated with carnation pinks and laurel.

Entering the church shortly after 7:30 o'clock the bridal party passed down the centre aisle. The bride, on her father's arm, was preceded by the maid of honor and the bridesmaids. The ushers came down the side aisle and at the chancel were met by the groom and the best man, Mr. Frank Potter. Rev. Dr. Shinn officiated. The bride's principal attendant was her sister, Miss Alice Brooks. The bridesmaids were Miss Emily Eaton of Worcester, Miss Mary Fitch of Boston, Miss Helen Brooks, sister of the bride, and Miss Edith Ball of Boston.

Messrs. Lewis H. Bailey of Newton, James Bell of Boston, Richard Briggs of Boston, Charles Emerson of Newton, Elisha Flag of Boston and Henry M. Clarke of Boston acted as ushers.

The bride was gowned in white satin with lace and chiffon. She wore the conventional long tulle veil, caught up with a spray of orange blossoms. Her only jewels were a brooch of diamonds and pearls, the gift of the groom. Her bouquet was of lilies of the valley.

Miss Alice Brooks wore green tulle and carried a bunch of daybreak pinks. The bridesmaids wore d'esprit over pink and carried white pinks.

A small reception at the home of the bride's father on Sargent street followed the ceremony. Mr. and Mrs. Albert B. Potter were assisted in receiving by Mr. and Mrs. Henry Brooks and Mrs. John C. Potter.

The house was handsomely decorated with roses, carnations and laurels. Mr. and Mrs. Potter left Wednesday evening for Charlotte, Vt., where they will pass their honeymoon. Upon returning they will reside in Dedham and be at home after Jan. 1st.

very modest quarters to the present handsome building.

—Dr. Hamilton of Walnut Park is away on a three weeks' absence.

—Mr. W. Ritchie of Newtonville avenue will pass the winter months in Boston.

—Miss Minnie Sears has returned to the Hannewell after a visit of several months at Chicago.

—Daily Day at the Eliot church Sunday school, last Sunday, was attended by a large number. Rev. Dr. Davis addressed the gathering.

—Mrs. M. J. Bronson, who has been visiting Mrs. R. F. Cummings of Richardson street, has returned to her home in Providence, R. I.

—Mr. and Mrs. J. Edward Hoils, who have been guests at the Bellevue, Boston, returned to their Washington street residence this week.

—At a recent meeting of the Society of California Pioneers of New England held in Boston, Hon. G. D. Gilman was elected second vice-president.

—Prof. George K. Morris will occupy the pulpit of the Methodist church next Sunday morning. In the evening the pastor, Rev. C. E. Holmes, will preach.

—Mr. Frank Potter of Marquette, Wisconsin, formerly of Walnut Park, is here visiting relatives. Mr. Potter is a member of the firm of A. B. Turner & Co.

—The annual meeting and election of officers of the Epworth League of the Methodist church will be held next Monday evening in the church lecture room.

—The improvements at the postoffice will be continued next week when the new boxes will be installed, and changes made in the interior arrangements of the front office.

—The many friends of Miss C. Blanche Rice will be pleased to have an opportunity to see her in the charming role of Pink in "Cumberland Gap," at the Columbia Theatre, Boston, next week.

—Private C. E. MacGregor of the 6th Mass. Vols., was among those soldiers who returned last week on the hospital ship, Bay State, from Porto Rico. At present he is quite ill in Marlboro, Mass.

—Mr. Charles Breck was elected president of the Horticultural Society at its annual meeting in Boston Saturday. Mr. Cephas H. Brackett was appointed a member of the committee of vegetables.

—Mayor Cobb and Alderman Frank L. Nagle left today for Pittsburg, Penn., to attend the Knights Templars convocation in that city. They will be met by Alderman Van Tassel, who arrived there the first part of the week.

—The Women's Auxiliary to the Y. M. C. A. expect to have a fine class of small boys at their gymnasium classes the coming season. Miss Jenkins is a careful dressmaker and mothers need have no fears in trusting their small boys to her training.

—The regular meeting of the Channing church Sewing Circle will be resumed next Thursday morning. Among the charities to which the members will contribute are the poor of the city, Newton Hospital, Channing ward of the New England Hospital for Women and Children and the Children's Mission in Boston.

—Alderman Ivy and a large number of Ward 1 and 2 residents have petitioned the board of aldermen that steps from Centre street to the railroad platform be constructed. Judging from the number of influential citizens, who favor it, the plan will undoubtedly go through. It is at present under consideration of the highway committee.

Physical Training.

In these days the ladies and children come in for their share of physical training, as well as their husbands and older brothers, and here in Newton every advantage is offered for both classes. The gymnasium of our Young Men's Christian Association is one of the best equipped of any in this State. The school days each week it is open for the exclusive use of women and children. An experienced directress has been engaged to take charge of the classes, and all parents who have daughters or small boys will need physical training, and (most young people do), will do wisely in placing them under her care. Special cases will receive the care they need. The conditions for admission are to pay, and this week marks the opening of the classes, and as the terms are less than one half of the prices usually asked at other gymnasiums, there is no reason why a most flourishing season may not be expected. Tuesday and Saturday mornings and Thursday afternoons applications can be made at the gymnasium, or information regarding the classes, can be obtained by addressing Mrs. E. M. Springer, 187 Kenrick Park, chairman of the committee.

The Bigelow School Lot.

To the Editor of the GRAPHIC:—

It has been suggested in aldermanic circles that should the Eddy and Utley lot combined, prove too small to accommodate the school building, and also furnish sufficient land for a good play ground, which latter is considered by many, not only desirable, but most essential, the difficulty could be easily overcome by purchasing the Monroe house, on the corner of Centre and Lexington streets. A fair paying lot for all that land, where, may I ask, is the money coming from with which to build our school, which should and must be a perfect one in every way. Is there a sum of eighty or a hundred thousand dollars in the treasury reserved for that purpose? W.

REAL ESTATE.

Wm. Lincoln & Son and Merrill McDonald report the sale of two 12-room houses, with modern improvements, at Westbourne road, near the Commonwealth avenue boulevard, Newton Centre. One house is on a lot of 12,000 feet and the other on 7500. These houses, with five lots of vacant land, aggregating 41,000 feet, have a total assessment of \$19,500. The purchaser was Catherine F. O'Driscoll of Roxbury.

Aban, Trowbridge & Co. have rented 305 Washington street to Mr. W. F. Whittemore of Newton, 7 Morse street, to Mr. E. E. Barnes of Newton, corner of Thornton and Pearl streets to Mr. E. Johnson of Newton.

NEW IDEA IN NEWSPAPERS

TO BE BROUGHT OUT BY THE BOSTON SUNDAY JOURNAL.

The Boston Journal's habit of keeping ahead is now once again brought strongly to public attention. The Sunday Journal will appear next Sunday in a new and original form, most convenient to handle and effective in arrangement, with 48 pages, a large increase in space over former issues. The Sunday Journal is the first paper in the country to bring out this modern novel idea.

The New England Home Magazine, with its 48 pages, profusely illustrated, and illustrated Weekly, filled with photographic pictures of events of the day in New England and of the world's important doings, will be issued each Sunday with the new style Journal.

Features of special interest in next Sunday's issue will include the story of personal experiences in the war by Col. E. P. Clark of the Second Massachusetts Regiment (the initial one of a series by New England soldiers), and the first of several articles by Frederick Roy Martin, the Journal's special staff correspondent in Porto Rico, telling picturesquely of the odd and interesting events connected with the invasion of that island.

—There are letters in the postoffice for James Christie, E. Edmunds, Howard C. Myers, Miss Sadie Dune, Mrs. A. H. D. born, Mrs. R. Eddy, 35 Brookline, Miss Minnie Mansfield, corner Walnut and Watertown streets.

—A dramatic entertainment will be given by the Lend-a-Hand Society, Wednesday and Thursday evenings, Nov. 16 and 17, in the parlors of the Universalist church. "A King's Daughter" is the name of the play to be presented.

—The first regular meeting of the Newtonville Baptist Division, after their summer vacation, was held at the residence of Miss Amy L. Jones, Cabot street, Wednesday afternoon. The next meeting will be at the home of Mrs. C. F. Jones, Edinboro street, Newton Highlands, Wednesday, Oct. 12, at 2:30 p. m.

—The parish social will be held next Thursday evening at the residence of the Universalist church. Many of the guests will appear in old-fashioned costume. An old-fashioned spelling match is to be one of the leading attractions of the evening. A pleasing musical program will also be presented and a thoroughly good time is anticipated.

—Houses rented through Turner & Williams agency. Bridges house, Chaffin place, to W. L. Beverly; Estes house, Central avenue, to C. A. Sawyer; B. B. house, 65 Highland avenue, to G. W. Eames; Natick; Meagher house, Carter street, to F. L. Stockman, Newton Upper Falls; Swallow house, Highland avenue, to Dr. G. W. Field of Boston.

—Rev. Helen Van Anderson delivered the fifth in the series of lectures to mothers, Monday afternoon, at her home on Harvard street. The subject was "Choice of Influences." Children are subject from the first to three classes of influences which bear directly on their development. These are first, sounds; second, sights; and third, the mind. Soothing sounds such as lullabies, conversation and peaceful surroundings will aid the infant's dawning intelligence and give them the power of harmonious adjustment to environments. On the contrary, harsh or sadistic surroundings affect the delicate nervous system causing irritability, fear and a lack of self-control which may lead to various results. The delicate discrimination and appreciation of the beautiful which is so indispensable a factor in character building, is often marred by sights which convey unlovely mental pictures. Moods of conditions of mind of older persons will affect a child for good or bad.

—Major William Auman, who commanded the 13th United States Infantry on the memorable battle of July 1st, in the late war with Spain, is a brother-in-law of Alderman Frank L. Nagle. Major Auman's bravery and creditable work was prominent in the published newspaper despatches during the Santiago campaign. The following is taken from the Illustrated Buffalo (N. Y.) Express: "Examining the records of the campaign just completed, one alarming fact is brought forward. The Thirtieth United States Infantry lost in killed and wounded a trifle more than 24 per cent. of the force it took into action, when he fell with a terrible wound. From a private he rose to the rank of captain. Now, after 33 years of service in Indian campaigns in all parts of the west, we find him a major at the front, commanding his old regiment in the death struggle after one of the hardest campaigns ever undertaken by an American army. He is a soldier without peer. Those who saw him, calm, affable, brave as a lion, on that bloody day, can never forget it. One is lost in admiration and forgets the terrors of the

situation as he gazes. It is impossible to praise him. He is too great for praise."

—Miss Doherty's employment office removed to 70 Jefferson street, Newton.

—Dr. Charles Worcester is reported as critically ill at his home on Highland avenue.

—Mr. Hunt and family of Medford are to occupy Mr. Atkinson's house on Clarendon avenue.

—Beach street is in a state of upheaval on account of the entering the sewer main through that thoroughfare.

—Mr. and Mrs. George W. Morse of Central avenue have returned home after a delightful tour through Europe.

—The Young People's Christian Union will hold a business meeting tomorrow evening at the home of Miss Hattie Calley, Austin street.

—A mad dog scare caused considerable excitement around the square Tuesday. A small black dog was running about foaming at the mouth and showing unmistakable signs of hydrophobia. The canine was put out of his misery by the kind efforts of an officer. Several shots were fired before the deed was accomplished.

—The Newtonville Woman's Guild opened the season with a reception, Tuesday afternoon, from 3 to 5 at the home of Mrs. William T. Upham, Highland avenue. Mrs. Edward Hatch assisted Mrs. Upham to receive the guests. Chocolate was poured by Mrs. A. L. Lindsay in the dining room and Russian tea was served on the piazza by Mrs. Harriet Hackett. A most enjoyable afternoon was passed by the company.

WEST NEWTON.

—The Volunteer Aid Society of this village acknowledge the receipt of \$5.00 from Mrs. George C. Sanborn. \$3.00 from Miss Bessie Hinckley.

—The first full meeting of the Woman's Guild was held Wednesday afternoon in the parlors of the Congregational church. There was a good attendance.

—Mrs. Barrett and daughter, who were the guests of Mr. and Mrs. George K. Stacy, Watertown street, have returned to their home in Philadelphia.

—Mrs. George P. Ballard and Miss Cherry Bullard of Temple street have returned home after an extended tour in Europe. They returned on the New England.

—The regular monthly meeting of the Newton Veteran Firemen's Association was held Wednesday evening at the engine house, Watertown street. Only routine business was transacted.

—Rev. Theodore P. Prudden, who was called to Camden, Me., on account of the severe illness of his son, has returned home. The little one is now pronounced out of danger and is rapidly recovering.

—Prof. G. Percival Chick will open his fifth season of dancing in connection with the Allen school, Oct. 21, Friday, Oct. 21, at 8 p. m., in Nickerson hall. Pupils who wish to attend can apply to the Messrs. Allen.

—The first meeting of the Unitarian Sunday school teachers was held Tuesday afternoon in the parlors of the Unitarian church. The subject for study during the coming season, will be "The History of the Early Christians."

—Mr. and Mrs. Arthur F. Luke of Prince street have returned from their summer home at Beverly Farms. Mrs. Luke, whose long and severe illness has caused so much anxiety to her family and friends, returns much improved in health, and her early recovery seems assured.

—The discussion of the proposition for the consolidation of numerous Boston banks has been followed with much interest by Newton people, both those who are in the scheme. An article appeared in the Boston Herald, Monday evening and Tuesday morning, written by Mr. Arthur F. Luke of this place. He gives a clear synopsis of the situation. Mr. Luke is well known as an honest, conscientious business man, and his opinion will carry weight with the thinking public.

—The executive board of the Newton Woman's Suffrage League held a business meeting Wednesday forenoon, at the home of Mrs. E. N. L. Walton. It was voted that the annual meeting of the league should be a public meeting, and will be held early next month. It is hoped that an interesting program will be presented that evening. A communication received from the Waltham league stated that on account of the war, it was decided to hold the county convention there this season and will spend their time working for the soldiers.

—The Woman's Foreign Missionary Society held the first meeting after the summer vacation, Monday afternoon, in the parlors of the Congregational church. Mrs. J. H. Pettie, who was a missionary at Okayama, Japan, for about twenty years, gave an interesting talk on "Woman's Work for Women." She gave an outline of her work as a missionary during the two decades, and the progress of Christianity during that period. Mrs. Pettie said that the opinion people held that because Japan was a civilized country, missionaries were unnecessary, was erroneous. They are needed almost as much now as when they first went to that field. Japan is highly civilized, but it is not Christianized, and until this is accomplished our work is not complete. Much good is being done by the noble women and their teachings. The women who graduate from the Christian schools and become wives and mothers will gradually aid in bringing this to pass, as

they will wish their children to be reared in a Christian atmosphere.

—Miss Doherty's Employment office removed to 70 Jefferson street, Newton.

—Miss Baird's millinery parlors have been an attractive place to many persons during the opening.

—The work of changing the location of the tracks in front of the truck house on Washington street is nearly completed.

—Mrs. Henry L. Bixby and family of Margin street has returned from their summer home at Chatham.

—The state annual meeting of the W. C. T. U. will be held in Tremont Temple, Boston, Tuesday, Wednesday, and Thursday of next week. A number of speakers, prominent in the work, will be present. A large delegation from here expect to attend.

—The directors of the West Newton Woman's Educational Club will hold a business meeting Monday afternoon, at the residence of the president, Mrs. E. N. L. Walton, Chestnut street. Final arrangements for the coming season will be discussed.

—The residents on West Newton hill, who have telephones on one of the circuits have had much trouble during the evening hours as they are unable to converse intelligibly over the wires after the lighting of the electric lights. Apparently one of the electric light wires crosses the telephone wires, thus breaking the circuit. This conductor has been returned for about a month and telephone patrons think it about time that the trouble was remedied.

—The annual meeting of the Newton Ladies Home Circle was held Wednesday afternoon, in the parlors of the Unitarian church. The following officers were elected: Pres., Mrs. Richard Anders; 1st vice pres., Mrs. Samuel Langley; 2d vice pres., Mrs. George Keyes; rec. sec'y, Mrs. G. H. Hadfield; cor. sec'y, Mrs. G. M. Hadfield; treas., Mrs. J. M. H. Smith. The various reports were submitted, and showed the society to be in good condition. A pleasant social hour followed the business exercises, this being the tenth anniversary of the society. A Home Circle Whist will be held Wednesday afternoon at the residence of Mrs. Philip Gardiner, Melrose street, Auburndale.

—Ungrateful of the hospitality of Mrs. Patrick Keegan of Watertown street, Mrs. Mary T. Brown, when given shelter and food at the Keegan home on the night of Sept. 25th, left early the next morning with a valuable camera, pin and other articles of jewelry. Accompanying her was a five-year-old girl. The police were notified immediately, but nothing was heard until Tuesday, when Mrs. Keegan met the woman in Boston. She called at a saloon and had the woman detained until the arrival of Inspector Fletcher. She was brought to police headquarters, and Wednesday morning appeared before Judge Kennedy upon the charge of larceny from a building. She was found guilty, and the case continued until yesterday morning. In the meantime Inspector Fletcher looked over her in Boston, where she was well known, nothing good could be learned. In fact, the reputation given by the Boston police and acquaintances of the woman showed her to be unfit to care for her young child. She was sentenced to two months in the house of correction. Chief Tarbox turned the little one over to the care of the State Board of Lunacy and Charity.

—The remodeled and enlarged Franklin school will be ready for the occupancy of scholars by Nov. 1st. Contractor John Hargaden has been at work since July 16th, and since that time operations have been rapidly pushed forward. The addition, which is really four feet larger than the old building, measures 37 by 68 feet, making the entire structure now 72 by 68 feet, with two wings measuring each 1200 ft. The appropriation for the work was \$15,000 and the cost will come much within that figure. Commissioner of Buildings Elder has been carefully superintending all changes and alterations, and is satisfied with all that has been done. The most notable features are the systems of heating and ventilation. Four sets of low pressure steam heaters have been placed in the basement, and a decided improvement over the old furnace method. The supply of heat and ventilation is so regulated that the child will receive the full amount of fresh air each minute, required by the state board. On each floor has been added toilet rooms for teachers, and large rooms for the storage of books and supplies. In the hallways are wire mesh, enclosed with a high wire grating, for the scholars' garments. W. E. Scribner has been doing the mason work, and Allen & Barry the painting.

AUBURNDALE.

—For other news see seventh page.

—Miss Doherty's Employment office removed to 70 Jefferson street, Newton.

—Ladies Auxiliary of Ward Four Masonic fair committee, met at the parlors of the Woodland Park Hotel on Wednesday, Oct. 4th, at 3 p. m.

—Capt. John A. Weeks and family have taken rooms at the Woodland Park hotel for the winter. Mrs. C. L. Holbrook, who has returned from Europe, is also at the hotel.

—The office at the Woodland Park hotel has been enlarged by removing the partition between the reading room and office, and thus more space is given for the entrance to the sun parlor. Shepherd, Norwell & Co. have the contract for furnishing this parlor, which is to be handsomely fitted up.

ART IN THE HOUSE.

MADE POSSIBLE BY JOHN H. PRAY, SONS & CO.

In the matter of furnishing a house, it has in years past been common, even among people of wealth and refinement, to purchase goods simply because they were in themselves pleasing, without regard to any public relation of one room to another, and with that of the adjoining apartment.

Not only in the mansions of the rich, but in the dwellings of the people in moderate circumstances, it is possible, without increasing the expense, to make an interior which shall afford a constant unconscious education to the occupants, and impart a satisfaction impossible to estimate in dollars and cents.

Expert advice in this, as in anything else, must be consulted to secure the best results. The tinting of the ceiling, the paper for the bed room, the hangings, carpets, and upholstery must all be included in a complete design, and Messrs. John H. Pray, Sons & Co. of Boston, have established a department that exactly fills the requirement.

In placing an order with them the householder is sure of conscientious, professional attention to the original designs, and the large resources of this long established house in carrying out the plans.

The home furnished in this way will be unique, with no duplicates, and will furnish a suitable environment for an individual of taste.

At Public Auction.

The valuable estate at 86 Bridge street, near Chandler street, Nonantum, will be sold at public auction on Saturday, Oct. 22nd, at 3 p. m. The estate consists of 27,000 feet of land, well located, a good two-story dwelling house of seven rooms, and a stable that will accommodate several horses. The land is well stocked with fruit and can be divided into several house lots. S. S. Cleaves, the auctioneer, will give further particulars, and the sale is to settle the estate of the late Thomas Dalton.

In a Critical Condition.

Fred W. Goodson of High street, Newton Upper Falls, is at the Newton hospital suffering from the effects of an overdose of laudanum, and a bullet wound in his head. His physicians say his condition is critical. He is 25 years old, and has been a shoemaker. For some time past he has been melancholy and oppressed with gloomy forebodings. Wednesday afternoon, members of his family heard the report of a shot from his room, and they found him on the floor, apparently lifeless. A physician was summoned, and signs of life appearing he was taken to the hospital. His friends think it was not a case of suicide, but that he took the laudanum to relieve his mental suffering, and the shooting was accidental. He is a well known and esteemed young man, and a member of Home Lodge, L. O. F.

Lasell Notes.

On Saturday morning a large party of students, accompanied by Mr. Bragdon, left Auburndale for the White Mountains. This trip, which has become a regular thing among the Lasell fall excursions, is deservedly one of the most popular, since it affords those who go, that day a glimpse of some of the most beautiful mountain scenery in America, but of this scenery in its most regal array, for the fall foliage is then in its glory, and the crimson and gold of nature seems to be in rivalry with the snowy purity of the majestic peaks rising into the blue. The excursionists returned to the seminary on Monday evening, a little after the usual dinner hour.

On Sunday evening a small party attended a missionary meeting at Wellesley, held in the interest of Dr. Bissell of India, who is a Wellesley graduate.

The twenty-seventh annual Lasell course of demonstration lessons and practice in cooking began on the third of October, Miss Barrows of Boston being in charge of this work. The first lesson of the course was given to the third year class, and consisted in the preparation of a breakfast composed of a complete set of apples, coffee, creamed codfish, baked potatoes, and rye muffins.

IN A NEW FORM

With space much enlarged, with new features added, and with the existing departments greatly strengthened. The

BOSTON SUNDAY JOURNAL

Beginning with next Sunday, October 9th, will be planned and constructed from beginning to end to meet the present needs and desires of those who read Sunday newspapers.

THE BOSTON SUNDAY JOURNAL will be a newspaper of cleanliness and good sense, sustained and pushed forward by every adjunct of news, literature and art that properly can be applied. The pages throughout the whole paper will be of the same size as those which the illustrated Section has made familiar to our readers. It will consist of

40 Pages News and Miscellany.

8 Pages Photographic Illustrations;

48-Page Illustrated Bound Magazine.

Five years ago the Boston Sunday Journal offered itself to the most intelligent and critical newspaper readers in the United States, in a territory which was supposed to be occupied fully, and has won from them a support which justifies it now in adding heavily to its cost of production.

THE PILGRIM SHIP.

By OUTOLIFFE HYNE.

[Copyright, 1898, by the Author.]

[CONTINUED FROM LAST WEEK.]

CHAPTER II.

The sun climbed higher into the fleckless sky and lolled above the Saigon in insolent cruelty. The Red sea heat grew if anything yet more dreadful. The men's veins stood out in ropes upon their streaming bodies, and it

At first they did not flinch.

scorched them to draw in a breath. Drink, too, was scarce. The Hedaz is a region almost waterless. The desert at the back drains up all the moisture, and the Saigon had left Jeddah with her tanks only half filled. She had to depend upon her condensers, and this was small. And in the tropics condenser water must be dealt out in a sparing ration, or a dozen hours may easily see a whole ship's company down with raging dysentery.

The Saigon carried a spar deck amidships, and the pilgrims were grouped in two bodies fore and aft of this on the iron plating of the fore and main decks.

The spar deck was officially reached from these lower levels by a couple of slender iron ladders, but it was not unsalable to a fairly active climber. There was an alleyway passing beneath the spar deck, but this could easily be closed by the iron doors in the two bulkheads, which fastened inside with heavy clamping screws.

The chief engineer came into the charthouse and hitched up his grimy pyjamas and mopped his face with a wad of cotton waste. He looked meaningly at the whiskey bottle, but Kettle ignored his glance.

"Well, Mr. McDodd?" he said.

"I'm ready for the pagans, sir when you're willing to go the world."

"What are your engines like now?"

"A wee little less fit for the scrap heap than they were a dozen hours back, but not very much to boast of."

Mr. McDodd spat out into the rubbish.

"They're the rottenest engines ever I fingered," said he, "and that's what I think of them. A man ought to have double my pay to bear them. They're just heart-breaking."

"You knew she wasn't the P & O when you signed on."

"We're neither of us here, Captain Kettle, because we were offered fatter berths."

Kettle frowned. "I'll trouble you, Mr. McDodd, to attend to the matter in hand. You have those steam pipes ranged?"

"Both forward and aft."

"Commanding both ladders?"

"Just like that."

"And you've plenty of steam?"

"Ye can hear it burring through the escape this minute if ye'll use your ears. It's been a vera exhausting work toiling down yonder in that 'a' heat."

"Well, Mr. Cortolvin here assures me that the niggers will begin to play up the minute we get under weigh, so you see we know where we are and must be ready for them. I shall want you and the second engineer on deck, of course, so you must arrange for one of your crew to run the engines till we've got the business settled."

"I've a greaser down yonder who can open the throttle," said McDodd gloomily, "but he's got no notion of nursing sick engines like these, and as like as not he'll drive them off their bedpans in a score of revolutions. Ye'd better let me keep the engine room myself, captain. I'm a sick man, and I'm not fit for fighting with my throat as dry as it is now."

Captain Kettle poured out a liberal two fingers of whiskey and handed it across. "Now, Mac," said he, "wee your neck and let's have no more of this nonsense. You'll have to fight for your life inside of ten minutes, and you'll do it better sober."

The engineer eyed the whiskey and poured it slowly down his appointed path. "Mon," he said, "we've an awful poor opinion of my capacity. I'll just be off and give you coolly greaser instructions and get my 'a' arms and be with you again in 40 clock ticks."

"I pity the nigger that comes to hand grips with McDodd," said Kettle when the grimy man in the gray pyjamas had left the charthouse. "He's an ugly beggar to handle when he's sober as he is now. We'll get ready now, sir, if you please. You go to the after end of the bridge deck with McDodd and the second mate, and I'll look after the forward end with the old mate and the second engineer. When they try to rush the ladder, McDodd will give them the steam, and they'll never be able to face it. All you and the second mate have

to do is to see they don't climb up over the rail."

"I wish it could be avoided," said Cortolvin sadly. "That high pressure steam will scald some of them horribly."

"It will do more than that," said Kettle. "It will strip the meat clean off their bones."

"I have lived among those men or their sort for two solid years, and many of them have shown me kindnesses."

"You should have thought of that, sir, before you came to me here in the charthouse."

"I did think of it, but I couldn't be a renegade to my color, and so I came. But, captain, will you let me speak to them? Will you let me tell them that their scheme is known and prepared for? Will you let me explain to them what they will have to face if they start an outbreak?"

Captain Kettle frowned. "You will understand that I am not frightened of the beasts," he said.

"I quite know that," said Cortolvin. "And I am sorry to spoil a fight. But it is their lives I am begging for."

"Very well," said Kettle. "You can fire away. I don't speak their language, and it is as well they should know from some one what they have to look forward to. Here's a life preserver which you may find useful. It's the only weapon I have to offer you. My pistol is the only gun we have in the ship."

The pair of them went outside the charthouse and walked to the head of the forward ladder. A steam pipe lay on the deck planks, and the second engineer stood beside it with thumbs in his waist strap. On the deck below the pilgrims no longer squatted on their carpets, but stood together in knots and talking excitedly. Cortolvin clapped his hands, and the sea of savage faces turned toward him.

There were representatives in that mob from half the Mohammedan peoples of northern Africa. There were lean Arab camel breeders of the desert, jet black farmers from the great lakes and the upper Nile, Hausas from lower Egypt, an Egba who had served in the British police force at Lagos, merchants from the back of the Barbary States, workers in metal from Sokoto and weavers from Timbuktu. They were not all holders of the title of hadji, for, though by the Mohammedan law every male must make the Mecca pilgrimage at least once in a lifetime, unless debilitated by poverty or lameness, it may be done by deputy, and these deputies, fierce, truculent ruffians, who had lived their lives among incessant wars and travel, were perhaps the most dangerous of all the lot.

They listened to their late associate with a momentary hush of surprise. He spoke to them in fluent Arabic. He did not appeal to their better feelings. He knew his audience. He said it was written that if they tried this thing, if they attempted to capture the steamer, they should surely fall, that all things were prepared to give them battle and that a horrible death awaited those who persisted in their design, and then he tried to point out the nature of the Saigon's defenses, but there he failed. It is work to explain the properties of high pressure steam to savages. A murmur rose among them which grew to a roar of defiance, and then the great black mass of them rushed for the iron ladder.

Captain Kettle clapped a whistle to his lips and blew it shrilly. "Now then, Mr. Cortolvin," he cried, "away with you aft to help McDodd. These cattle here want something more than talk, and I'm going to give it them."

In answer to his whistle steam had been turned on from below. The second engineer unhitched his thumbs from his waist belt, took a lump of waste in each grimy hand and lifted the iron pipe. It was well pointed and moved easily, and he turned the nozzle of it to sweep the ladder. In that baking air the steam did not condense readily. It traveled three yards from the nozzle of the pipe before it became even thinly visible, and it infringed upon the black, naked bodies and burned horribly without being seen.

At first they did not flinch. With a dreadful valor they faced the torment and fought with each other to be first upon the rungs, and then when those in front would have held back the mob behind pressed them irresistibly onward. In a moment or so the first rank began to go down before that withering blast, and then others trod on them and fell also till the hill of writhing black humanity grew to half the height of the iron ladder, and in the meantime others of the pilgrims were trying to storm the bridge deck at other points, but on the port side, the gray headed old mate fighting barsark with an ax and to starboard Captain Kettle, with pistol and knuckle duster, battled like wildcats to keep the sacred planking inviolate.

What was going on at the after end of the Saigon they could not tell. From behind them came the roar of the fighting Hausa and the savage warcries of the desert just as they rose up from before their faces. But in its first flush the fight was too close for any man's thoughts to wander from his own immediate adversaries.

It seemed, however, that the battle was over first in the after part of the steamer, and whether this was because the attack there was less heartfelt or because Mr. McDodd's artillery was the more terrible cannot now be known. The question was debated much afterward without coming to a decision. But anyway, by the time Captain Kettle's adversaries had ceased to rage against him, Cortolvin was free to come and stand by his side as interpreter. The wounded lay sprawling and writhing about the iron decks below them. The survivors—and scarcely one of these was without his scald—huddled against the fore-castle, and the grimy second engineer held the steam pipe upward so that a gray pall hung between the Saigon and the sun.

"Now, sir," said Kettle, "kindly

translate for me. Tell those animals to chuck all their hardware over the side, or I'll cook the whole lot of them like so many sausages."

Cortolvin lifted up his voice in sonorous Arabic. "It was written," he cried, "that the gnomer should prevail. It is written also that those among you having wit shall cast your weapons into the sea. It is written, moreover, that those of you who do not on this instant disarm shall taste again of the scorching breath of Eblis."

A stream of weapons leaped up through the air and fell into the swells alongside with tinkling splashes.

"It would be a weariness to guard you," Cortolvin went on. "Swear by the beard of the prophet to make no further attempt against this ship, or we shall jail you fast in death."

A forest of trembling black hands shot up before him.

"We swear!" they cried.

"Then it is written that you keep your vow," said Cortolvin. "God is great. See now to your sick." He turned to Kettle and touched his ragged turban after the manner of an officer reporting. "The mutiny is ended, sir," he said.

Captain Kettle swung himself lightly on to the upper bridge and telegraphed "full speed ahead" to the engine room.

"There was none actually killed at my end," said Cortolvin.

"I dropped four," said Kettle. "I had to. It was either me or them. And my old mate axed half a dozen before they let him be. We'd a tight time here while it lasted."

"It will require a good lump of back-sheesh to explain it all satisfactorily at Kossair."

"Oh, I can't go near there now after this! No custom house for me, sir. I shall just run inshore a dozen miles short of it and put the beggars on the beach in my boats and let them get into Kossair as best they can. I suppose you'll come back with me?"

"I suppose so. Anyway I can't go on with them."

"I can imagine," said Kettle dryly. "But what about yourself? If by chance this affair gets into the newspapers inquiries will be made, and you'll very possibly find yourself in an ugly hole."

"It won't get in the papers," said Kettle thoughtfully. "The pilgrims can't tell, my officers can't tell for their own sakes, and you leave me to see my coolie. Newspapers," he repeated dreamily, "queer this hint should have come like that."

"What hint?"

"I remembered then where I'd seen your name, sir. It was in The Times of India, general news column."

"What was said?"

"Well, sir, I suppose you'd better be told, but you must hold up for a hardish knock. Will you come into the charthouse for a minute and have a peg?"

"No. Get along, man, get along!"

"I think it was about your wife, sir. Does she hunt?"

"All the season."

"Then it will be her I remember now it said Richmond, in Yorkshire, and the name was Mrs. W. H. Cortolvin. She's broken her neck, sir."

Cortolvin clutched at the white rail of the bridge. "My God," he cried, "dead! Julia dead!" He then turned away and walked to the end of the bridge and staid there for awhile, leaning against an awning stanchion, staring at the baking levels of the Red sea which were slipping past the Saigon's rusty flanks. And then he came back again and stood at Kettle's side, looking down at the pilgrims anointing their scalps below. "I have learned to be something of a fatalist, captain," he said, "when I was among those people. This is how I sum the situation: 'It was written that my wife should die while I was away. It was written also that I should live. God ordered it all. God is great.'"

Captain Kettle gripped his hand in sympathy. "I'm sorry for you, sir. Believe me, I am truly sorry. If you think a bit of poetry about the occasion would help you at all, just you say, and I'll do it. I'm in the mood for poetry now. All things put together, we've been through a pretty heavy time during these last few hours."

"Thanks, skipper, thanks," said Cortolvin. "I know you mean well. And now, if you don't mind, I'll leave you. I think I'd like to be alone for a bit."

"You do, sir. Go and lie down on my bunk. I'll have you a beautiful elegy written by the time you're back on deck again. It will comfort you."

THE END.

DR. WOOD DECLINES IT.

THE PRESIDENCY OF THE NEWTON THEOLOGICAL INSTITUTION.

A large congregation attended the morning service Sunday at the First Baptist church, Commonwealth avenue, Boston. Through the opening exercises the people seemed to have an anxious air of expectation, for it was generally felt that the pastor, the Rev. Nathan E. Wood, D. D., would make some announcement of his intentions in regard to the invitation to the presidency of the Newton Theological Institution.

Just before the offertory, he said very simply:

"I sent yesterday to the trustees of the Newton Theological Institution a declaration of their invitation to become the president. I have made the matter the subject of much prayerful consideration, and could not, in truth, to my convictions, make any other decision."

Dr. Wood then thanked his people for their kindness in not importing him to render a decision sooner, and then said he felt a kind of despair, in view of the many kind things said of him, in living up to all of them.

If everyone knew the superior quality of Hood's Pills, their gentle, easy action, their prompt effect upon the torpid liver and inactive bowels, it would be only a short time when they would be used to the exclusion of every other kind. Hood's Pills are the only pills to take with Hood's Sarsaparilla.

SPRINGER BROS. LATEST STYLES.

SOME OF THE CHARMING DESIGNS IN FALL WRAPS AND GOWNS NOW ON EXHIBITION.

An important question at this time to all womankind is what her new gown and wrap shall be, and no better answer can be given than by a visit to the house of Springer Brothers, Boston. This firm has a name for providing costumes combining style and durability. Never were fall suits more attractive than they are this year. There is quite a range of colors, as reds, browns, blues and black are shown as well as mixed goods, and each is as stylish as the other.

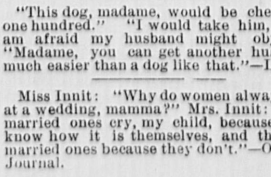

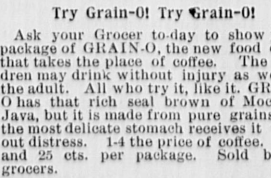

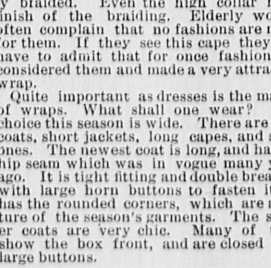

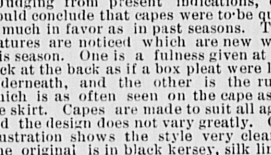

The tailor made suit continues in style. The flare flounce is the new feature of skirts, and is seen on the greater number of them. There are several ways of putting on the flounce. It may be simply a circular piece of the same depth all the way around the skirt; it may be set on to an apron front, being narrow at the front and widening to the belt in the back, or it may begin from front gore and extend around the skirt, as is shown in our illustration. This is the newest variety of flounce. Those skirts with the flounce have not the tendency to sag that made the circular skirt so exasperating.

The costume illustrated is of black cheviot, and shows two of the newest features. The flounce is put on to the skirt with a strapped seam. The skirt has a trimming of rows of stitching.

The jacket shows the dove-tailed finish. It has the vest front, the deeper sides which round to the back, and is finished with stitching for the vest and the edges of the garment. The reversers are of tuck black satin. This is a beautiful suit, especially desirable for mourning wear.

Judging from present indications, one would conclude that capes were to be quite as much in favor as in past seasons. Two features are noticed which are new with this season. One is a fulness given at the neck as if a box pleat were laid underneath, and the other is the ruffle which is as often seen on the cape as on the skirt. Capes are made to suit all ages, and the designs do not vary greatly. Our illustration shows the style very clearly. The original is in black kersey, silk lined.

BABY'S SMOOTH, FAIR SKIN

A Grateful Mother Writes this Letter—

Tells all about Her Troubles when Baby Broke out with Scrofulous Sores.

"At the age of two months, my baby began to have sores break out on his right cheek. We used all the external applications that we could think or hear of, to no avail. The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sores were gone. But to my surprise in two weeks more another scrofulous looking sore appeared on baby's arm. It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and have never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine." Mrs. S. S. WROTON, Farmington, Delaware.

—Private Quinlan is so far recovered as to be able to be out a short time each day.

—Mr. Ernest Hall led the Y. P. S. C. E. meeting last Sunday afternoon at the North Evangelical church.

—Louis Burofski, the Watertown street merchant, is to open a branch at Newton Upper Falls this week.

—Substitute Boothby of the fire department on duty at Jose's house in the absence of Driver M. Turner.

—The Silver Lake football eleven, a strong organization of athletes of this place, will line up against the Upper Falls A. A. tomorrow afternoon at Upper Falls.

—There was an interesting talk given at the North Evangelical church last Sunday evening by Mr. J. B. Stuart of Boston. The morning sermon preached by the pastor, Rev. Daniel Greene.

—The officers of the Beulah Baptist mission have decided to hold a series of revival meetings in the hall on Bridge street, every evening of next week. The speakers will be Rev. and Mrs. Lisle. There will be the usual meeting next Sunday afternoon, and hereafter meetings will be held Sunday evenings.

—Now that the order has been adopted by the city government, appropriating the necessary amount for the completion of the Boyd park improvement, it is confidently expected that the work will be resumed immediately. The residents of this place manifested much interest in the plans when they were first introduced by the late Alderman Potter, and are much pleased that it is to be carried out.

—The Kings Daughters and friends were out in large numbers Tuesday evening, to attend the social held under that society's auspices in the vestry of the North Evangelical church. A pleasing entertainment program made up of musical and literary numbers was presented, and the artists much applauded. Later refreshments were served.

—There was an important meeting of the Nonantum Club, Monday evening, when considerable important business was transacted. Dr. Stearns resigned his position as treasurer, and Mr. J. H. Bowker was appointed his successor. A committee, with Alderman Forkall as chairman, was elected to consider plans for a celebration of the peace declaration, which will take the form of a reception to the returned Santiago heroes.

—Ladies' day was celebrated by the Boston Athletic Association on the grounds of the club at Riverside, last Saturday afternoon, in a royal manner. It was the occasion of the gathering together of the members, their wives and lady friends, with a sprinkling of athletic and water events, to keep up the purpose of the club, so far as the athletic name is concerned. Crowds of interested spectators lined the banks of the river, applauding the work of the contestants.

—Mr. George Frederick Malcolm of this ward was married, Wednesday night, to Miss Grace Belle, daughter of Mr. and Mrs. Walter Wentworth of Allston. The ceremony took place at the Harvard Avenue Methodist church, and Rev. Jesse Wagner officiated. Miss Ella Vinal of Allston was maid of honor, and Mr. Andrew Wentworth, brother of the bride, best man. The bridesmaids were Miss Jessie Webster of Providence, R. I.; Miss Etta Barnes of Dorchester, and Miss Alma Tower of this place. The interior of the church was handsomely decorated with large potted plants, ferns, palms and cut flowers. Long streamers of evergreen and similar were hung from the ceiling and sides of the auditorium. The chancel rail was banked with immense clusters of roses, pinks and cut flowers, and potted plants and ferns. The bride was beautifully gowned in white satin, en train, trimmed with duchess lace. Her veil was caught up with a cluster of orange blossoms. The maid of honor wore white organdie over pink silk, and carried white roses. The bridesmaids all wore white organdie, interlaced with satin ribbon trimmings and carried pink roses. The flower girl, little M. M. Wentworth, was dressed in a similar manner. After the church service a reception followed at the home of the bride's parents, Raymond street, Allston. The ushers were Messrs. Langley, Richardson, Norcross and Wellington.

TO RECLAIM LAND IN NEWTON.

OPPORTUNITY TO GREATLY INCREASE TAXABLE VALUATION OF THE CITY.

The city government will shortly be called upon to consider the advisability of beginning one of the most important improvements which has ever been undertaken in the south side of the city. This is nothing less than the draining of the great south meadow, the largest tract of waste land in the city.

The advisability of undertaking this work has been considered for some time by the highway committee, and has been urged strongly by the assessors, who see an opportunity to greatly increase the taxable valuation of the city by reclaiming this immense tract.

In view of the prospective development of the Oak Hill district by the construction of an electric car line connecting West Roxbury and Newton Highlands, and the opening up of new streets and building lots, the present has been considered an opportune time to undertake the work, and plans have already been prepared in the rough.

The south meadow, so called, embraces more than 600 acres of the lowest land within the city limits. It is bounded by Institution hill and the range of hills which terminate in Baldpate, and extends along the east and southern borders of Newton Centre, Newton Highlands, and Newton Upper Falls.

This land is so damp and soggy that it has never been used for any purpose beyond feeding cattle, and, according to the assessors, has practically no taxable value. Moreover, its condition is such that residents on Parker street, Newton Centre, which adjoins one part, have frequently petitioned the city government for relief from continually flooded cellars. The condition of this immense tract is regarded as seriously interfering with the growth of adjoining sections.

The swamp is drained by South Meadow brook and several smaller water courses, but the flow of these is so slight as to afford no relief.

It is now proposed to widen and deepen these water courses, and to provide a complete drainage system emptying into the Charles river near the pumping station at Newton Upper Falls. This drain will be several miles in length. In constructing it is probable that it will be necessary to lower the level of the Pettes machine work pond at Upper Falls about two feet, but it is thought that this can be accomplished without serious injury to the mill privilege. The cost of this undertaking is roughly estimated at about \$80,000.

Last year the legislature authorized the city of Newton to improve existing water courses, and to assess the cost on the land benefited. It is proposed to undertake this improvement under this law, so that the city will be under little or no expense.

In this case the resulting advantage is expected to be of all proportion to the cost, as the land reclaimed, which is now nearly worthless, will be given a substantial value.

—The Missionary society of the Methodist church held its annual meeting at the home of Mrs. Moses Merrill on Beacon street.
—Mr. John Briggs is making a tour of the western part of the state. He plans to reach New York city in time to attend the Painters' Convention.
—Dr. Julia A. Plummer lectured on "Gospel for the Body," at a meeting of the Mothers and Teachers Association in the Congregational church, Wednesday afternoon.
—From the present outlook it is thought that the new Methodist church building will be ready for use the early part of February. Services will be held in Bray's small hall until that time.
—Fourteen members of the Circuit Bicycle Club went to Newburyport on the last Sunday. The second class of riders, which left at 7 a. m., made the best time, arriving at their destination one hour and a half ahead of the squad which left at 8 a. m. All those that finished received souvenir prizes.
—The first meeting of the E. E. Hale Club will be held at the parlors of the Unitarian church, Oct. 11th. Supper at 6.30, followed by a series of reminiscences of the war by men who took part. Mr. L. Newton Green of the Boston Herald, and Mr. W. H. Wood, Jr., who served at Santiago, and others will participate. A most interesting occasion may be expected.
—There are on exhibition at the central postoffice some boxes, such as are used in connection with the house to house collection system. The plan was outlined in the GRAPHIC about a year ago, and at that time it was stated that the scheme would be introduced in Newton Centre as soon as expedient. Persons desiring to purchase these boxes should consult with Postmaster Ellis.
—Mr. J. P. J. Ward is reported as recovering from the injuries he sustained by being bitten by his pet dog over two weeks ago. He is still at the Pasteur Institute, N. Y. The McDougal boy, who was sent to that institution for treatment, is reported about the same. The cattle commissioners have continued their experiments by inoculating small pigs, but as yet no symptoms of rabies have developed.
—The Newton and West Roxbury street railway company has been granted a franchise to run its cars from the Dedham line through Dedham, Parker, Boylston and Walnut streets to Newton Highlands. This will connect the Newtons with the remote Oak Hill district, for which the Newton Centre residents are very thankful. Such street railway facilities have been wanted for some time, and there was little wonder at the quick action at Monday evening's hearing at city hall.
—The exercises at the Newton Theological Institution in connection with the reopening of Farwell hall, were held yesterday afternoon, and largely attended by prominent Baptist ministers of the state. Following is the order of services in the chapel: Invocation, Rev. E. Y. Mullins, D. D.; music; report of building committee and delivery of keys to trustees by Stephen Greene; acceptance of keys and presentation of the same by Mr. George E. Merrill, sponsored by Dr. Alvah Hovey; music; prayer of dedication by Rev. George E. Merrill. An inspection of the hall was afterwards made, followed by a reception from 5 to 6 o'clock of the trustees and faculty of the Institution, held in the Hartshorn memorial room in the library.
—Though Mrs. A. M. Allen, the lady bicyclist, whose leisure time is devoted to attempting to break the record between New York and Boston by wheel, was unable to finish her trip Tuesday, there were many waiting to see her pass through this place, not knowing of her accident at Palmer, Mass. Shortly before 10 o'clock in the evening a crowd of local wheelmen gathered in the upper square awaiting her arrival. Word came soon, however, of the lady's mishap, and the disappointed watchers started for home. Before all had left an idea came to the minds of two young men of this place, which promised to furnish fun for them. The plan was outlined, and immediately put into action. One of the fellows hustled home on his wheel and donned his sister's riding skirt, waist, hat, etc. With his friend, who acted as official pacer, he rode towards Waban. Here they stopped, and turning about, started down Beacon street toward this place. Several who had been let into the joke announced about the square that the reported accident to Mrs. Allen was a mistake, and that she was coming down Beacon street. In no time there was a line-up of wheelmen, and when the masqueraders passed through, in line. At the Reservoir they passed at 10.30, (very near the schedule time.) Here was more cheering, and the crowd of followers augmented. The two young men who have both high records as fast riders, soon left their admirers in the rear. Over the route they passed, meeting with royal receptions all along the line. Not for a moment did they stop until reaching a Boston hotel, where the female impersonator changed his clothes, and after a hearty laugh, in which he was joined by his companion, returned home. Every body knows the names of the young men, although they

are modest about appearing in public print.
—James Martin has returned from his vacation trip.
—Mr. I. F. Sylvester is the guest of friends here this week.
—Mr. Philip McGuire of St. Johns is spending sometime in this place.
—Miss Sallie Delano of Merrimac is spending sometime in this place.

—Rev. E. M. Noyes, pastor of the First Congregational church, will speak at the 13th convention of the State E. U. Union to be held in Brockton, Oct. 19 and 20.
—Unitarian church—Services Sunday at 10.30 conducted by the pastor. Sunday school at 12.45. Hale Union at 7.30, conducted by the young people. Subject, "Self-Culture." All are welcome.
—William Keever reported at station 4, Tuesday evening, that some time during the day his room in the stable where he is employed, had been entered and his trunk broken open. A gold watch and \$30 in money were stolen.
—Mr. and Mrs. W. R. Dee of M street, South Boston, while riding a tandem bicycle on Beacon street late yesterday afternoon, ran into and knocked down a little child, the daughter of Patrick Collins. The little girl was uninjured.
—The first meeting of the Ladies' Social Club was held on Tuesday afternoon at the Club House hall. After a short business meeting the members of the club were entertained by a very pleasing program, consisting of piano solos by Miss Lillian Lankin and Mrs. O'Donald; recitations by Miss Shanks and Miss Reynolds, and vocal selections by Miss Middaugh of New York, Miss Gorton as accompanist. The solos by Miss Lankin and Mrs. O'Donald were greatly enjoyed by all present. The recitations by Miss Shanks were rendered in a way which well merited the applause that they received. Miss Reynolds' impersonation of the deaf mutes in "Nearer my God to Thee" was perfect. The vocal selections by Miss Middaugh were one of the pleasing features of the program. At the conclusion of the musical program the novel game of progressive peanuts was introduced, prizes being won by Mrs. Curtis, Mrs. O'Donald, and Miss Lankin. Refreshments were served at the conclusion of the entertainment. The committee in charge were Mrs. Moulton, Mrs. Gorton and Mrs. Gilbert. Much credit is due the committee, and thanks to the artists who so kindly gave their services, that the first meeting of the Ladies' Social Club might be a success.

—Mr. James Simpson and family have returned from their stay at their summer home in Wrentham.
—The engagement is announced of Mr. John Tuckerman of this place to Miss Katharine McMahon of New York.
—Mr. and Mrs. William Taylor Logan have recently announced the engagement of their daughter, Margaretta, to Mr. Frank H. Morehouse of Newtonville.
—Mr. W. G. Smith, who has occupied a house on Chester street for several years, belonging to Mr. E. H. Tarbell, has removed to Newton Centre, near the boulevard.
—Mr. H. C. Wayne, of the Rand, Wayne Rubber Works at Watertown, and who has occupied a house at Eliot terrace, belonging to Mayor Cobb, has removed to Watertown.
—The next meeting of the Monday Club will be with Miss Webster, Chester street. At the last meeting of the club, Mrs. Polard was elected treasurer in place of Mrs. Gott, resigned.
—We hear that Thomas Weston, Esq., has sold his estate at the corner of Bradford road and Endicott street, at Eliot terrace, to Mr. George E. Wilmington of Quincy, who is a bidder.
—The Rev. Dr. Gallagher, associate principal of Lasell Seminary, will preach at the Methodist church next Sunday morning. In the evening at 7.30 there will be an interesting harvest Sunday school concert.
—Mr. Parker, the owner of Stevens building, is having a one-story wooden structure erected for business purposes, fronting on Walnut street, covering a portion of the land which has been used as a passage way.
—The annual harvest supper comes next Monday evening at the Methodist church. This is always a time of generous provision with these ladies, and the patron who is not satisfied is the one who did not go. The sale of fruits and vegetables after the supper is always a feature of this gathering.
—Land has been seized on Walnut street for the widening of the street to 70 feet in order to make it possible to build a 70-foot bridge across the railroad tracks at the square, at the joint expense of the state, railway and city where the tracks are depressed. Had this action not been taken now the city would have had to pay the cost of construction above the expense of a 40-foot bridge. This land will not be used by the city at present, and the owners will

—Mrs. Hammond, who was taken to the Massachusetts General Hospital for treatment for appendicitis, is doing well, and is expected to return home in a few days.
—Mr. and Mrs. Thomas McKenzie have the sympathy of the community in the death of two of their children within a week. The funeral of the last child took place on Wednesday. Rev. Mr. Phipps officiated at both services.

—Rev. and Mrs. Phipps have been away for several days attending the centennial celebration of the Wellesley Congregational church. Mr. Phipps took part in the exercises. He was minister to that church for ten years, before he was the minister of the Congregational church here.

—The fifth anniversary of the formation of the Oak Hill Sunday school will be observed next Sunday afternoon at three o'clock, with appropriate exercises. Rally day and a harvest concert at the same time will make a combination well worth attending, and a cordial invitation is extended to the public to become familiar with the work by being present at the exercises. Mr. F. W. Emerson has been the leader of this work during the past five years, and reports everything as being in a prosperous condition.

—Rev. Wm. Safford Jones will preach next Sunday at 10.45 at All Souls Unitarian church, Highland Club hall. The Sunday school meets at noon. Mr. James Kingman is superintendent, and the teachers are Mrs. H. J. Patterson, Miss Annie Bryant, Mrs. Minerva Stone and Miss Kate Manson. All are cordially invited. The Ladies' Aid Society of All Souls has elected the following officers: Pres., Mrs. H. J. Patterson; Vice-Pres., Mrs. E. Montion; Sec. and Treas., Miss L. M. Kendrick. The Edward Everett Hale Club will meet at Newton Centre, Tuesday evening, Oct. 13th. The Spanish war will be discussed by a war correspondent and an army officer.

—Mr. Joseph Congdon of Boston has charge of the property here formerly in charge of Mr. A. T. Fisher. Mr. Congdon has made some very good sales, and still has some desirable lots left. He makes it his aim to bring only responsible and creditable parties.

Ministers' Union.

Tuesday afternoon the annual meeting of the Newton Ministers' Union was held in the chapel of the Central Congregational church, Newtonville. Some thirty ministers were present, representing all the denominations of Newton.

The exercises consisted of devotional exercises, reading of reports and an address by the president on "Spiritual Influence in a Community." Officers were elected as follows:

President, the Rev. George Wolfe Shinn; secretary, the Rev. Calvin Cutler; executive committee, the Rev. C. M. Southgate, the Rev. E. Y. Mullins, the Rev. F. B. McDaniels, the Rev. W. T. Worth, the Rev. C. T. Nickerson, the Rev. W. H. Williams.

Unequaled Bargains.

The Central Dry Goods Co. of Waltham are to inaugurate the fall season with some unequalled bargains in men's and boys ready made clothing, of which they make a special feature in one of their five stores. They have a large assortment, and the prices of men's trousers run from \$1.50 to \$3.50 per pair. These are first-class goods, and in style, make and finish, they compare well with any that are offered at greater prices. It will pay you to take a car over to Waltham and inspect these bargains. A large assortment of dress goods, men's furnishing goods, ladies dresses and wraps will be found in the other stores of this enterprising company.

club will line up against the Mergus A. A. eleven.

—Developing and printing for amateurs done by E. E. Snyder.

—Mr. Purrington is able to be out again after a several weeks' illness.

—Mr. Charles Balcomb is reported as improving in health. He is now in New York.

—The installation of the new lock boxes and fixtures at the post office was begun this week.

—Mr. W. F. Whittemore and family removed this week from Pearl to Washington street.

—Mr. J. H. Looker lead the Young People's meeting at the Immanuel Baptist church last Sunday evening.

—Private William McBride of Co. F, 3th Mass., U. S. V., is home here from Camp Meade on a 30 days furlough.

—Mr. H. I. Moses has purchased of James and A. H. Maher a piece of land off Boyd street containing 7,200 square feet.

—Miss Carrie Buswell of Franklin street entertained the teachers of the Eliot church Sunday school at her home, Tuesday evening.

—Yesterday afternoon the Ladies' Benevolent Association of the Baptist church held its annual meeting in the church parlors.

—Mr. Stinson and family, formerly of Los Angeles, California, are occupying the Walker house on Washington street until the completion of their Hunnewell avenue residence.

At the residence of Mrs. Jarome Sonicker on Oakleigh road, last Monday afternoon, the members of the Immanuel Baptist church Father Lights Society were entertained.

—Mr. Sterling Elliott of Maple street has been nominated for Chief Consul by the Massachusetts Division, L. A. W. Mr. E. P. Burdick is among the nominees for representative.

—Rev. F. B. Hornbrook will read a paper on "The Threefold Function of the Church," before the Essex Conference of Unitarian churches to be held at Gloucester next Wednesday.

The Ladies' prayer meeting at the Immanuel Baptist church, Wednesday afternoon, was observed as membership day. The topic of general discussion was "Foreign Missions."

In the parlors of the Methodist church, Monday afternoon, the regular monthly meeting of the Women's Foreign Missionary Society was held. An interesting report of the annual meeting in Malden was read.

A correspondent writes in criticism of the manner in which the waste paper is collected by the health department teams. He says that the barrels are emptied into the team carelessly, and the paper allowed to blow about, thus littering the streets.

The Newton Education Association will hold the first meeting of the season in the hall of the High school, Walnut street, Newtonville, Monday evening, Oct. 17th, at 7:30 o'clock. Miss Sarah L. Arnold, supervisor of primary schools, Boston, will speak upon Kindergarten and Child Study. Miss Arnold is a recognized authority upon this subject, which lies at the foundation of the best education of today.

In the wooden building adjoining the Elmwood stables off Elmwood street, Mr. George W. Bush, the proprietor, has fitted his new office. It is most comfortably furnished and arranged to serve as a waiting room for patrons. The interior has most attractive appearance. A new electric lighting system has been installed, and the place is heated by hot water heat. It is connected with the main building and the entrance faces on the private driveway. The demands of Mr. Bush's increasing business has made the new office a necessity, and it is with the best wishes of his friends that he opens this very desirable addition to the Elmwood stables.

Music in Eliot church next Sunday:
MORNING, 10:30.
Organ prelude, Allegretto in B minor, Guilmant
Anthem, "I will give thanks," Handel
Quartet, "We unto Him," Handel
Postlude, March in D, Ambrose

Two cars on the Mt. Auburn line of the Boston Elevated came together on Galen street about 4:50 o'clock last Saturday afternoon. The accident occurred at the end of the street, Watertown, at the foot of the hill. The car bound for Boston, it is said, was on time while the Newton bound car was a few minutes late. The former was going down the grade at a lively speed before the motorman realized that another electric was on the same track. He applied the brakes which failed to work promptly on account of the large quantities of leaves which had accumulated on the rails. The power was reversed effectually, but the cars came together with a crash that demolished both dashboards and headlights. No one was injured though several of the passengers received a bad shaking up. An old lady on the outward bound electric fainted, and was taken to her home. Some time ago the Boston Elevated applied for right of location of double tracks on this street. Newton authorities granted the permission readily, while the Watertown selectmen decided that the road should pave and widen the street. Possibly Watertown residents will now urge the granting of the

road's petition as the necessity of two tracks can be clearly seen.

—Mr. Oscar Simmons has returned from a stay of two years at Costa Rica.

—Rev. Dr. Shinn is in Summit, N. J., and Washington, D. C., this week.

—Driver J. Frank Cotton of engine 1 is enjoying his annual vacation of two weeks.

This evening at the Hunnewell Club W. Frank Knox of Troy, D. R., and Rough Riders, will relate his experiences during the war.

—Miss Maple Bush has returned from Worcester where she attended the wedding of her cousin, Mr. Charles S. Rogers, and Miss Harriet Vokes.

—The sixth annual regatta ball, under the auspices of Garden City Lodge, No. 191, I. O. F. M. U., will be held Friday evening, Nov. 18, in Armory hall.

—The leader of the Young People's Society meeting at the Congregational church, Newton Centre, last Sunday evening, was Mr. D. J. McNeil of this place.

—Mr. C. F. Farrington of Auburndale has taken the house on Hovey street formerly occupied by George Azary, Jr., which is being repaired and fitted for his occupancy.

—The Gould property on Bennington street and Ida terrace is to be sold at auction on Oct. 25th. The sale is without limit as to price, and is an annual opportunity for investors or those in search of a home.

—Residents of Bellevue street and the north side of Mt. Ida are thankful for the construction of a flight of steps running from the Lewis terrace bridge to Washington street. The steps were completed this week and have already proved a great convenience.

—Mayor Quincy was the guest of the Stanley Brothers, yesterday, as he wished to inspect their motor wagon. It is planned to furnish Boston officials with motor wagons, instead of horse-drawn ones, their rounds about the city. The Messrs. Stanley have received several orders for wagons.

—All young people interested in forming a singing club are requested to meet next Wednesday evening in the rooms of the Y. M. C. A., Nonantum block, 7:30 o'clock. Already a large number of names have been received, and it is the intention of this meeting to appoint a director and further complete the organization.

—The lecture of Rev. Albert C. White on "Cuba and the Spanish-American War," given last evening at the Methodist church, was well attended and was one of the most interesting discourses descriptive of the late hostilities that has been heard in this place. Illustrations by stereoscopic views added much to the effects of the lecture, and gave excellent representations of several leading events of the war and the land of Cuba.

—At a meeting of the trustees of the Newton Savings bank, held Tuesday afternoon, Mr. Charles T. Pulsifer of Newtonville was elected president. Mr. Pulsifer has been associated with the bank for ten years. For eight years he was a member of the board of trustees, and for the past two years has occupied the position of vice-president. He is a senior member of the firm of Pulsifer, Cook & Co. paper merchants of Boston. Mr. John Ward was elected vice-president.

—Immanuel church will hold the usual services next Sunday at 10:30 a. m. and 7:30 p. m. The pastor, Rev. G. F. Merrill, will preach in the morning. In the evening the service in the lecture room will be of a memorial character in recognition of the death of Mr. Charles E. McGregor, late private in Company K, 6th Massachusetts Volunteers, who died Oct. 9, of malarial fever contracted in Porto Rico. The public is invited to attend all services.

—Music in Grace church Sunday evening: Processional, "Through the night of doubt and sorrow," Paine
Magnificat, Kimmens
None Dimittis, Kimmens
Anthems, "Incline Thine Ear," Hummel
"Sing Alleluia forth," Buck
Retrospection, "Forward now the watch word," Dykes

Seats free.

—Mrs. Alvin Henry Clifford gave a reception Oct. 13th, from 3 to 5 to the club officers and committees of New Hampshire's Daughters, to meet their honorary president, Miss Kate Sanborn. The house was tastefully decorated, the club colors being especially noticeable in the hall. Mrs. Clifford was assisted by Mrs. James Wheeler, Mrs. William Blakesmore, Mrs. William Follett, Mrs. Frances Stanley of Newton; Mrs. James Morrow and daughter of Boston; Mrs. S. E. Batchelor, Philadelphia; Mrs. John Street, Medford; Mrs. John McClinton, Dorchester; Mrs. Everett Stevens and Miss Stevens of Malden; Miss Brockway, Boston. A song of greeting, with words suited to the occasion, composed and sung by Mrs. James Wheeler, Jr., formed part of the entertainment, followed by a piano solo by Mrs. Martha Dana Shepard, and a recitation by Mrs. Jessie Eldridge Southwick. It was a notable gathering of club women, numbering about 100.

—Members of Waban Lodge, I. O. O. F., held a meeting Monday evening for the purpose of forming a degree staff. A rallying committee was appointed, and will at once begin arrangements for a number of entertainments during the coming winter season.

—The Misses Eleanor and Catherine Hooper of this place were bridesmaids at the Roberts-Patten wedding at Bath, Me. The bride is the daughter of Mr. and Mrs. George M. Patten of Bath, and the groom is one of the leading physicians of the city. The ceremony was performed by Rev. Julian K. Smythe of New York.

—The parish social was held last evening in the Universalist church parlors. A supper was served at 6 o'clock followed by a pleasing entertainment. An old-fashioned spelling match was an enjoyable feature of the occasion. Many of the guests were in costumes of "Ye Olden Times." The season opens with every promise of an enjoyable winter, and many plans are being perfected to add to the pleasures.

—The funeral of Dr. Charles P. Worcester took place Tuesday afternoon, from his late home on Highland avenue. The services which were held at 2.10 o'clock, were attended by a large number of friends and relatives. The floral tributes were numerous and beautiful. The services were of a simple nature, and were conducted by Rev. Dr. Worcester of Waltham, a near relative of the deceased. At their close, the body was removed to Forest Hills cemetery for cremation.

—A general conference of the Universalist churches in the New England states, is to be held in the beautiful edifice of the Universalist society in Roxbury, (near the high school) next Tuesday, Wednesday, and Thursday. Subjects of importance to the Christian church are to be discussed, such as Dr. Moxom, Dr. Blanchard, Dr. Cushman, Dr. Edw. C. Moore, Dean Leonard, Presidents Capen and Lee, Dr. Cone, Prof. Woodbridge, H. B. McCall, J. R. Pullman, Emma Booth-Tucker, Drs. Gunnison, Roblin, Dodge, and others. The meetings will be open to the public.

—Andrew Burt Cook of this village, died the 28th of September, as the result of a nine months illness borne with great patience, though attended with much suffering. Educated in the Newton schools and one of the class of '92 of the N. H. S., he was always one who participated in all the games and sports of which the youth at that age enjoys, and to the very end showed an unusual interest in them, especially base ball, of which he was passionately fond. He was obliged to see all he looked forward to, shied away from him, every ambition and every hope of happiness in this world relinquished, but satisfied at last to look forward to a higher and better life, where he awaits the loved ones left to mourn his untimely end.

—A dramatic entertainment under the auspices of the Hand society will be given Wednesday and Thursday evenings, Nov. 16-17, in the parlors of the Universalist church. "A King's Daughter," is the title of the play, which is given in three acts. Following is the cast of characters:

Mrs. Graham, Hattie M. McLain
Aunt Clarissa, Hattie L. Calvey
Rebecca Spencer, who thinks herself "the girl of the girls," Mabel W. Curtis
Helen Graham, Mrs. Graham's daughter,
Florence Baldwin, Addie P. Partridge
Kitty Greene, Adeline M. Bartlett
Sallie Browning, a "Kodak" fitter,
Grace R. Curtis
Ruth Adams, Maria Thrasher
Mabel Morris, whose genius burns,
Linda N. Curtis
Polly Graham, who would like to be a King's Daughter,
Nan Graham, Mrs. Graham's niece,
Marie Bartlett

—Mr. Charles Otis was married Monday evening, at the First Baptist church of Brookline, to Miss Annabel Bodwell Vining, daughter of Mr. Edward Payson Vining of San Francisco. The Rev. T. S. Barber, the pastor, performed the ceremony, being assisted by the Rev. Nathan Wood, D. D., pastor of the First Baptist church of Boston. The bride was given in white duchesse satin trimmed with chiffon, and leaning upon the arm of her father, was preceded to the chancel by four young ladies singing "Faithful and True," to an organ accompaniment rendered by Mr. Carnes. The maid of honor was Miss Ellen Vining, the twin sister of the bride. The maid wore white silk crepe over yellow and carried yellow roses. The groom and his party were met at the chancel, where the ceremony was performed in an arch of 3000 asters. The best man was Mr. Frank M. Seumans. The ushers were Messrs. Morton Baldwin, Amos Otis, A. F. Sherman, Jr., and Le Roy F. Spore. After the ceremony there was a large reception at the residence of Mr. and Mrs. T. B. Griggs on Washington street, Brookline. The house was decorated with a wealth of plants and cut flowers, and the bride and groom, assisted by their parents, received in the parlor in an alcove of towering

palms. After a tour Mr. and Mrs. Otis will be at home in Newtonville.

Arnold, supervisor of primary schools, Boston, will speak upon Kindergarten and Child Study. Miss Arnold is a recognized authority upon this subject, which lies at the foundation of the best education of to-day.

—Rev. Edmund Dowse, D. D., father of W. H. B. Dowse of this place, celebrated his sixtieth birthday, a notable anniversary of Sherborn, yesterday afternoon, at the Pilgrim Congregational church in that town. For nineteen years he has served as chaplain of the Massachusetts senate, besides being a member of that body in 89 and 70. Among the speakers present were Rev. E. E. Strong, D. D., and Rev. George M. Adams of Auburndale, and Rev. H. J. Patrick, D. D., of Newtonville.

—John Eliot Lodge, A. O. U. W., held a public meeting and smoke talk Wednesday evening. The various lodges of Newton were well represented and a large number of friends of local brothers were present. On the subject of "The Future of the Grand Lodge of Massachusetts" an able and instructive address, D. D. G. U. W. Blanchard made a short pithy speech, which was warmly received. A collation was served in the banquet hall. Mr. S. A. Langley was the host of the evening. A smoke talk followed the supper and speeches were made by Past Master Workmen Kenny, Flood, Bird, Ware and others. The evening was one of the most enjoyable of the season.

—Dr. Moses Quimby died Monday afternoon at his home on Washington street, after a long illness. He was seventy years of age. He was a native of North Sandwich, N. H., where he resided until manhood. Fifty years ago he wedded Miss Hannah Bullard of Nashua, N. H. For more than thirty years Dr. and Mrs. Quimby have been well known residents of this place. A widow and one daughter, Mrs. William Pettigrew, survive him. The funeral took place from his late residence Thursday afternoon at two o'clock. Mrs. Sarah A. Burns of Boston officiated at the services. There was a large number of beautiful floral tributes. The Shubert Quartet of Boston rendered several beautiful selections. The interment was in Newton cemetery.

—The directors of the West Newton Women's Educational Club held a business meeting, Monday afternoon, at the home of Mrs. E. N. L. Walton. —Miss Amelia Aultman of Auburndale avenue is quite ill.

—Mrs. Knight of Newell road is visiting friends in New Hampshire.

—Mrs. James Leonard has returned from her New York trip this week.

—Miss Julia B. Richards of Woodland road is reported ill at her home.

—Mr. C. Raymond Diluc left yesterday for Italy where he will spend the winter.

—Miss M. G. Aldridge is spending two weeks in New York visiting relatives.

—Mr. E. W. Keyes has returned from Pittsfield where he visited Mr. Howard Daniels, formerly of this place. The latter is quite ill.

—The Yale football team will have their headquarters at the Woodland Park Hotel, and have taken rooms for 35 men for the 14th, 15th and 16th. A special car will take them to the football grounds.

—There was a merry company of youngsters at the home of Mr. E. E. Manter, Wednesday afternoon, when his young son observed his birthday anniversary by entertaining a large number of playmates. The young people were out in force, and thoroughly enjoyed the hospitality of their young host.

—The Sun parlor at the Woodland Park Hotel will prove a great attraction, as there is nothing like it nearer than Lakewood. It is to be heated to a summer heat, and new boilers now being added to the heating plant of the hotel will make it possible to heat the whole of the hotel building, so that the Casino will be kept open all winter. Redding, Baird & Co. are putting in some handsome designs of leaded glass in the Sun parlor, and other parts of the hotel.

—Work has been delayed on the widening of Lexington street from the boulevard to Auburn street. The cause of the delay is said to be the refusal of Mr. Ford to move his buildings back the required distance. Mr. Ford in arranging his settlement for damages with the city asked them to grant him permission to erect a wooden business block. The city would not allow this as one of the conditions, and Mr. Ford therefore refused to have any further talk in indemnity. He will not, it is stated, remove his buildings and intends to forbid the city trespassing. When the highway department starts to take away a portion of the building, which stands on the path of the widening, some time next week, it is thought that there will be a little excitement for the inhabitants of this place.

Lassell Notes.

The first year cooking classes began work on Saturday, Oct. 8th. The first lesson dealing with the problems of making and managing the fire in the range, of canning fruit, and of making orange baskets.

Several students, accompanied by Miss Carpenter, attended Sunday service in Boston.

Monday, clear and sunny, was a fine day for the trip to Concord and Lexington, planned the week before; and early in the day a party of seventy girls, with Mr. Dragoon and Professor Winslow as guides, started off for the quiet little town of Concord, which stands for so much in the history and literature of America. During the day they visited all the points of interest in the town, and in the afternoon, Emerson, Hawthorne, Thoreau, the Alcotts, and other celebrities of Concord, and the stirring events connected with our War of Independence, the heroism and the tragedy of those bloody days, will ever be more real to those who have made such a pilgrimage, than to one who has never seen these scenes of American pride and patriotism. Such excursions are worth more than many days spent in merely reading history.

The lessons in swimming, at once a popular and a valuable part of Lassell institution began this week, Miss M. E. Ransom continuing her work as teacher in this department.

HALF A CENTURY.

CASHIER B. F. BACON OF THE NEWTON NATIONAL BANK RECEIVES CONGRATULATIONS.

The Newton National bank was thronged last Saturday afternoon, from four to six, with the friends of Cashier B. F. Bacon, who came to congratulate him on the completion of fifty years of service in that institution. The banking rooms and the directors' parlor were decorated with flowers and autumn leaves, and Mr. Bacon was assisted in receiving by the officers of the bank. Several hundred of the patrons of the bank were present, and after congratulating Mr. Bacon, were shown about the new bank rooms, the elaborately protected vault receiving much attention. A collation was served, and the occasion was made a very pleasant affair.

Mr. Bacon is now seventy years of age, but he is as active and vigorous as younger men and is always at his post of duty. He has watched with great interest the growth of the city, with which he has always been identified, and has always helped to make it a model city. He was one of the early members of the Eliot church, very few of whom are now left, and has taken an active part in its support, since the days when the old church, which formerly stood on the site of the old burying ground on Centre street, was divided, part going to Newton Centre and the others starting the church in Newton. He is now serving his country as a member of the presidential committee, and has always been a regular attendant, and he is also one of the original members of the Newton Congregational Club.

In local affairs he has taken a great interest, and was for 30 years treasurer of the Newton and Watertown Gas Company. Mr. Bacon was born in Newton in 1828, the youngest child of Joseph and Beulah Crafts (Fuller) Bacon. He was educated in the Newton public schools, completing his studies at the Framingham Academy. At the age of 20 he entered business life. Six years later, in 1854, he married Adeline E. Learned, a daughter of Daniel and Lucy Learned of Watertown. Mr. Bacon's two sons, Charles Franklin and Edward Learned, are also connected with the Newton bank. The present president of the bank, Mr. Francis Murdoch, is his nephew.

Mr. Bacon has a very retentive memory, and can recall all the important events in the city, of which he was a witness. In regard to the present bank, it was formed on June 21, 1848.

The meeting was held in the "Little White Church," better known in these days as the Eliot church, which at that time was a small wooden building boasting only three windows. The original directors, Messrs. William Jackson, J. H. Richardson, Joseph Bacon, Levi Thaxter, Andrew Cole, A. C. Curtis, Otis Petee, Sr., M. S. Rice, P. E. Kingman, H. B. Williams and Edward Walcott. The bank was organized with Mr. William Jackson as president and Mr. Daniel Kingsley as cashier. Since then Mr. Bacon has seen four presidents, including Mr. Jackson, and has been in charge of the bank for 44 years. Three of these have passed away, Mr. Jackson and Messrs. Levi Thaxter and Joseph N. Bacon.

His first president, Mr. Jackson, was one of the first directors of the old Boston & Worcester railroad, and Mr. Bacon relates how, when Mr. Jackson first proposed the running of railroad trains to Albany, N. Y., people ridiculed the idea, claiming that the cars would never reach the Berkshire hills.

The site now covered by the present bank building in the old days was occupied by a tavern, which also served in the capacity of a general country store, post-office, etc. The old stage coaches used to stop here and make a change of horses, and after considerable delay would resume their route to Worcester. The property was owned by one John H. Richardson of Watertown, who gave it to the bank for building purposes. The old building was cut in two, moved up Washington street and remodelled into houses.

Naturally, the tavern was the principal building in the town. There were, however, two or three other stores and a few dwelling houses. The principal families, beside the Bacons, were the Jackson and Smallwood families. Of the 90 original stockholders, only one, Mr. Edward Holman, is alive today.

Puny Children

Who would prescribe only tonics and bitters for a weak, puny child? Its muscles and nerves are so thoroughly exhausted that they cannot be whipped into activity. The child needs food; a blood-making, nerve-strengthening and muscle-building food.

Scott's Emulsion

of Cod-Liver Oil is all of this, and you still have a tonic in the hypophosphites of lime and soda to act with the food. For thin and delicate children there is no remedy superior to it in the world. It means growth, strength, plumpness and comfort to them. Be sure you get SCOTT'S Emulsion.

—Mr. Eliza B. Sears of Boston and Miss Marie E. Morse were married Friday evening of last week, at the home of Mrs. J. P. Diaz, 12 Hillsboro terrace. The ceremony was witnessed by about 160 prominent merchants of Boston, New York and Philadelphia, and personal friends of the bride and groom from Boston and the Newtons. Rev. Julian S. Cutler of Orange, Mass., was the officiating clergyman. The bride and groom were unattended. The bride was gown in white satin with green stripes and chenille, and trimmings of violet. Her only jewel was a diamond brooch, the gift of the groom. She carried a bunch of bride roses. The ceremony was performed under the arch of trailing vines in the large parlor, which was gracefully decorated. An informal reception followed the ceremony. Mr. and Mrs. Sears received unassisted, and the guests were presented by Mr. Sears' son, Ralph E. Sears. On their return from the wedding tour Mr. and Mrs. Sears will be at home at 12 Hillsboro terrace, Dec. 1 and 2. Among the prominent guests present were Mrs. Hannah Herschfeld, Mark Scherick, E. F. Roche, Lewis Baer and Charles Kaye of New York; Mrs. J. R. McKinley and Mrs. F. N. Howell of Philadelphia; Mr. and Mrs. Abram Asher, Mr. and Mrs. Charles Leberberger, Mr. and Mrs. Isadore Phillips, Mr. and Mrs. Charles Rosenfeld, Mr. and Mrs. James B. Sears, Mr. and Mrs. H. B. Nickerson.

NEWTON CLUB.

Cards have been issued for the opening entertainment of the season Oct. 19. This will be a concert by the Symphony Orchestra, with Mrs. Caroline T. Shepherd, soloist. It will take the place of the usual opening reception, and at the close of the concert, refreshments will be served.

The advance sale of tickets for the Yale game tomorrow, indicates that the crowd at the big contest, will be larger than last year. The Newton club will be represented by the strongest eleven which has ever worn the cherry and red, and a good game is confidently predicted. The subscription dinner, which will follow the game, is already an assured success, and will bring together most of the leading Yale graduates of Boston and vicinity. Some exceptionally good after dinner speaking is promised.

The bowling alleys were re-opened to club members on Monday evening, and the attendance indicated that the sport will be as popular as ever the coming season.

A match with the strong Chicago A. A. eleven on its eastern trip is one of the possibilities of the N. A. A. football season. Efforts are being made to arrange for a game on Oct. 29.

The league bowling season will begin Nov. 14, and a league game will be played on the club alleys nearly every other week until the close of the season. It is proposed to systemize the practice work of the club team more thoroughly than ever before, and with this end in view a second team is to be organized, which will furnish practice for the first team, and supply a list of substitutes. Monday night of each week after the commencement of the league season, will be reserved as practice night for these two teams. The bowling committee is already at work on a schedule of club tournaments, and it is proposed to have at least one tournament for members in progress during each month of the season.

The whist committee of the club is anxious to recruit material for the big league whist team, and is also doing everything in its power to raise the standard of playing among club members. To secure these results it is proposed to make duplicate whist a feature at the club house this winter, and Monday night of each week will be set apart for whist players.

The much anticipated fixture card for the season of 98-99, on which the best efforts of the entertainment committee have been expended for more than a month past, made its appearance this week, and more than met the expectations of the most exacting club members.

—Mr. Eliza B. Sears of Boston and Miss Marie E. Morse were married Friday evening of last week, at the home of Mrs. J. P. Diaz, 12 Hillsboro terrace. The ceremony was witnessed by about 160 prominent merchants of Boston, New York and Philadelphia, and personal friends of the bride and groom from Boston and the Newtons. Rev. Julian S. Cutler of Orange, Mass., was the officiating clergyman. The bride and groom were unattended. The bride was gown in white satin with green stripes and chenille, and trimmings of violet. Her only jewel was a diamond brooch, the gift of the groom. She carried a bunch of bride roses. The ceremony was performed under the arch of trailing vines in the large parlor, which was gracefully decorated. An informal reception followed the ceremony. Mr. and Mrs. Sears received unassisted, and the guests were presented by Mr. Sears' son, Ralph E. Sears. On their return from the wedding tour Mr. and Mrs. Sears will be at home at 12 Hillsboro terrace, Dec. 1 and 2. Among the prominent guests present were Mrs. Hannah Herschfeld, Mark Scherick, E. F. Roche, Lewis Baer and Charles Kaye of New York; Mrs. J. R. McKinley and Mrs. F. N. Howell of Philadelphia; Mr. and Mrs. Abram Asher, Mr. and Mrs. Charles Leberberger, Mr. and Mrs. Isadore Phillips, Mr. and Mrs. Charles Rosenfeld, Mr. and Mrs. James B. THE MAYOR ENDORSED.

Mayor Cobb's action in retaining Super-
intendent Ross was endorsed by the board
of aldermen by a vote of 15 to 5, a rather
substantial endorsement, and one that re-
flects credit upon the good sense of the
majority of the board.The city solicitor reported that the mayor
had exceeded his authority in making the
arrangement with Mr. Ross, that he should
give two-thirds of his time to the city, and
receive two-thirds of his salary, but even if
this view is correct, there was nothing else
for the mayor to do. The aldermen had
advised for the summer without taking
any action, thus leaving the whole matter
in the hands of the mayor, and the action
he took was endorsed by the sentiment of
the people throughout the city.There was a good deal of theoretical
talk, Monday night, about mill superinten-
dents having charge of two mills, etc., but
it was a condition and not a theory that
confronted the board, and it was fortunate
for the city that Mayor Cobb was not
afraid to take the responsibility.As a matter of fact, the arrangement has
been in effect for some months, and we
very much doubt if any of the five alder-
men who voted against the mayor can give
a single instance where the city work has
been neglected, or the city sustained the
slightest loss, since the arrangement went
into effect. The office and the outside
work has been so well systematized, and
Mr. Ross has such capable assistants, that
everything has gone on in the usual way,
without any loss or friction, as far as the
public are aware.The arrangement has been practically
tested, and it was noticeable that none of
those opposed to it could bring up anything
save irrelevant, and in most cases far-
fetched theoretical objections. The whole
case seems to be happily disposed of, and
the critics of the mayor have failed to
score.THE REPRESENTATIVE CON-
VENTION.The Republican Representative Conven-
tion made two great mistakes, Monday
evening, one in refusing to nominate Mr.
John T. Langford, who is the best fitted
for representative of any of the candidates
mentioned, this year, and the second in re-
fusing to order a roll call, so that the
people who elected these delegates could
know just how they voted. It was prob-
ably felt that this last would make a bad
precedent, but it is something in which the
voters in every ward are interested, and
would help to keep politics honest and
respectable. The people have a right to
know how their delegates vote, and it al-
ways looks as if there were some reasons
that will not bear the light, when the de-
mand for a roll call is refused. Every safe-
guard should be provided to protect the
public, and to keep our Newton politics
from falling into disrepute.It is claimed by some that there was no
evidence of any attempt by any local bosses
to carry out any slate, while others claim
that the ticket was all arranged before-
hand, so that voters can take their choice.In regard to the candidates, they are
both excellent men, who have served in the
city government. Mr. Chadwick is one of
the most stalwart of Republicans, while
Mr. Wing is more inclined to ask questions
and demand good reasons, before taking
any action. If elected they would be the
equals of the representatives from Newton
who have preceded them.But as Mr. Langford has decided to take
out nomination papers, and as his friends
are going to put up a warm fight for him,
believing that he has been unjustly treated
by those in control of Newton politics,
both this year and when he was a candi-
date two years ago, there is to be some
life this year in the campaign in Newton.
As he is also a Republican, party questions
will not enter into the fight, but only the
question of which of the candidates will
best represent Newton, and the issue will
therefore be in doubt. A vote for Mr.
Langford would do a good deal to take New-
ton politics out of the rut into which they
have fallen, and to cause the party leaders
to show more consideration for the wishes
of the people. It is certainly an unusual
opportunity where a man so well qualified
and aggressive as Mr. Langford is, is will-
ing to serve the city as its representative,
and there is no good reason why he should
not have been placed on the regular ticket.Now they are taking measures to secure
greater economy in the administration of
the public school system of Providence.
The expenses have been reduced \$82,000
by the city council, and the school board
has consequently abolished for the coming
year the evening schools, and discharged
the supervisors of penmanship, drawing,sewing, cooking and physical culture.
"The Providence Journal approves this
retrenchment, while not attempting to
decide whether one department or another
should be chosen for abandonment.
"Something had to be given up," says the
Journal, for the educational system had be-
come "too expensive" to be borne. Within
the past 20 years "we have added all sorts
of ornamental frills to the simple utilitarianism of the original system—music,
art, calisthenics and what not. . . . We
have erected costly school buildings, with
gymnasiums and bicycle accommodations
and lunch-rooms. We have raised the
salaries of teachers, professionally edu-
cated at public expense, and placed over
them supervisors and experts to instruct
them in their work. We have even bought
for the school children, at public expense,
all the books and supplies they use." It
says that the tax-payers "can remain in-
different no longer," and this Providence
case will interest people in other cities.
We used to hear a good deal about the ex-
travagant expenditure of the school board
in Newton, but for the past few years but
little comment has been made upon it, per-
haps for the reason that it seemed unfair to
single out only one department of the city,
when there were so many others.The real estate editor of the Boston
Herald is very enthusiastic over our "im-
proved block" system, but it may be doubt-
ed whether many hundred thousands of dol-
lars' worth of untaxed property has been
brought to light and assessed. Even one
hundred thousand dollars' worth of prop-
erty is a large amount, but many of these
amounts is a very large sum. The question
has often been asked, whether this block
system is responsible for the very large
cost of our assessing department, which
according to some figures obtained a few
months ago, is several times that of other
cities of the size and wealth of Newton. If
it is, it will be seen that the block system
has its drawbacks, although even then the
property discovered may be more than
sufficient in the taxes it pays, to defray
this extra cost. The change which New-
ton has undergone, from having its land
taxed by the acre, to having it valued by
the foot, made some such system almost a
necessity.Hon. Wm. B. FOWLE's letter recently
published in the GRAPHIC appears to have
already borne fruit. In that letter he con-
tended that the premium from the sale of
bonds did not belong to the sinking fund,
and his arguments were so conclusive that
the city officials have announced that more
money was paid into the sinking funds than
was required by law and therefore some
\$35,000 was available for this year's ap-
propriation. An attempt has been made
to give the credit for this discovery to Mr.
Albee, the expert who examined the treas-
urer's books last January, but as it was
only discovered after Mr. Fowle's
letter appeared, it is evident enough where
the credit belongs. It is well to remember,
however, that the city is not one cent
richer by this discovery, it is only taking a
certain sum from the sinking fund, laid
aside for the payment of city debts, and
applying it to current expenses.The appropriation bill for next year was
reported to the board of aldermen, Monday
night, and the estimated expenditures for
the coming year foot up over a million dol-
lars. It has been referred to the finance
committee, and if any members of that
committee have mayoralty aspirations,
they should get a very sharp pruning knife
roll up their sleeves and go in to make a
record. There are lots of items that will
bear cutting down, without any public in-
terests suffering injury, including most of
the departments at City Hall. Such slices
should be cut out of the expenditures as to
get next year's tax-rate down to a reason-
able limit. If that is done perhaps it will
not be necessary to increase the pay of the
assessors, on account of the great strain
they are under in hunting for increases in
valuation.It is said that the ordinance committee
are preparing a rule that no official of the
city government shall hold more than one
office. For some reasons this would be an
excellent thing. It is easily conceivable
that one office with a good salary would re-
quire all a man's time, and if another office
with a small salary is given him, he may
need to hire an assistant and thus the
practice might cost the city a large amount
of money.The Cambridge school board has voted
to discontinue the Sloyd system, or "scien-
tific whittling," on the ground that the
experiment made of it last year was a failure,
and that it was foolish for the city to have
so many special studies, when the students
on leaving school can neither speak nor
write the English language correctly.

NEW ENGLAND SOLDIERS.

TELL THEIR WAR EXPERIENCES IN THE
BOSTON SUNDAY JOURNAL.The "Personal Experiences of New England
Soldiers in the War," which are now
running in the Boston Sunday Journal, not
only give their readers an intensely inter-
esting series of articles on the picturesque
and stirring events connected with the ser-
vice of the soldiers from this section, but
provide also a most valuable contribution
to the history of the war from the point of
view which appeals most closely to New
England people. Notable among these
articles are those by Gen. William A. Ban-
croft, Col. E. P. Clark, commander of the
Second Massachusetts Regiment, Maj. H.
B. Fairbanks of the Second, whose article
appears next Sunday, and other officers of
the fighting troops.This is but a single feature of the new
Boston Sunday Journal, which by its lead-
ership in adopting a size of page that is
convenient for the reader, and by its photo-
graphic illustrations, has attracted wide-
spread attention. The New England Home
Magazine, which is given regularly with
the Boston Sunday Journal, is in itself the
most expensive feature ever offered by any
newspaper.

4938 Voters Up-to-date.

Registration for the state election closed
at City Hall Wednesday evening. The
total number of new names added to the
list was only 248, the smallest for a number
of years. Of these the Democrats claim the
majority, but the Republicans state that
notwithstanding the efforts of the Jefferson
Club they have secured their share of the
new voters. The total registration is 4938
against 4947 last year.

NAVAL GUN PRACTICE

HOW IT IS CONDUCTED ON UNCLE
SAM'S SHIPS OF WAR.Stringent Rules Govern the Seven Trials
That Each Vessel Must Make Each Year.
Conditions of Actual Battle Observed as
Nearly as Possible.There are two kinds of target practice
required in our navy—that known as sea
practice and record practice. Stringent
rules have been provided by the depart-
ment prescribing six sea practices and one
record practice annually, and any failure
to hold such practice must be fully ex-
plained, and only in the case of the most
urgent reasons will the omission of target
practice or the failure to properly expend
the allowance of ammunition be considered
justifiable. If vessels are in port when
target practice is due, they are compelled
to get under way, proceed to sea and carry
out their instructions. The object of at-
tack is a triangular sail of three sides at-
tached to an upright pole of about 15 feet
in height stuck in a wooden frame which
serves as a float, and at a distance of a
mile this little affair is scarcely visible to
the eye, and yet our great battleships and
cruisers steaming at eight or ten knots
frequently destroy it at a distance of two
miles.Sea practice with great guns is conduct-
ed either on or off soundings at ranges
varying from 800 to 3,000 yards, the ship
steaming at any rate the commanding offi-
cer may direct. This practice is intended
to simulate as nearly as possible the con-
ditions of actual battle, and the rules of
the navy require that the details of observ-
ing the fall of shots and the accuracy of
fire shall not be allowed to unduly inter-
fere with the spirited and continuous fire.
Guns are loaded and fired just as quickly
as they would be if the ship were engag-
ing an enemy. The rate of speed varies
anywhere from bare steerage way to that
of highest rate under forced draft.The entire crew is at quarters, and bat-
tle hatches are down; the ships stripped
of everything that is not absolutely neces-
sary, and hammocks are slung for low-
ering the supposed injured to the operat-
ing room below. The captain takes his
place in the conning tower, the secondary
batteries are manned, marines stationed
in the military tops, and the ship and her
crew to all intent and purposes are ready
to engage an imaginary enemy.Then the battle opens. Like great swans
the graceful cruisers circle around the
target, letting go first one battery and
then the other as they come up on the op-
posite side. The great ponderous battleships
pour in their mammoth projectiles, and if
the pole has not been knocked to pieces at
the end of 15 minutes it is because the
practice is not up to the navy standard.It costs the government very little to
construct these targets, and any ship can
make one in a few hours, and for this rea-
son a good many can be destroyed in the
course of a few hours' practice without
the government losing more than \$100.
But it is not so with the ammunition. Ev-
ery time a 13 inch gun is fired off at full
service it uses the 1,100 pound projectile,
backed by 500 pounds of powder, is hurled
into the sea. The powder costs \$1 a pound
and the projectile about \$200. Regular
armor piercing projectiles, the kind that
are employed in actual battle, when some-
times heavily belted steel ship is to be pene-
trated, are never used in target practice. They
are too costly, and the same results can be
obtained with the cast iron or iron-armored
piercing type. The target practice, there-
fore, while valuable in the results, is ex-
pensive to the country.Regulations of the navy department re-
quire that at two sea practices each year
the ships shall be cleared for action and
men stationed as in actual battle, with
necessary officers, aids and quartermaster
in conning tower and all other officers at
their stations. Ammunition is supplied
in the manner that would be actually nec-
essary in battle, and, except in cases of
emergency, orders shall be given by the
means that would be employed in battle.As often as once each year the whole or
part of the secondary battery allowance
for one sea practice is expended at night,
searchlights being used to illuminate the
target and disclose its presence so that an
accurate fire may be maintained. There are
few sights more inspiring and brilliant than
a great fleet performing evolutions at night
and using the powerful searchlights in
picking up the little white target as it
bobs about on the undulating waves. The
sky is clear and the moon is full, and great
white paths cut the darkness of the moon
beams and bring out boldly the great
floating fortresses in picturesqueness. Little
target practice is indulged in at night,
however, as it is often difficult to find the
object of attack at a greater distance than
a mile or two.In the days of the old smoothbore gun,
which passed away with the development
of the modern rifled ordnance and steel
side ships, target practice was not so gen-
eral or expensive as that of today. Neither
were the weapons so accurate. Fifteen or
20 men were required to handle one of the
old 8 inch guns, where six can now load,
fire and operate the powerful 13 inch guns
of our battleships.The target practice of today was made
by a tedious process and fired with a
primer trained by heavy spikes and run
out by ropes manned by men. Today the
big guns are practically loaded by elec-
tricity or hydraulics, and the powder is ig-
nited by electricity, the guns trained by
the same motive power and the whole
operation of fighting these formidable
pieces is controlled by one-half by one. The
practical 15 years ago to work a gun whose
range of effectiveness was not over a mile.
Several minutes were required to sponge,
load and fire the old gun. Now for the
quick firing 6 inch at least a dozen shots
can be discharged in a minute.Officers of the American navy are di-
rected to make target practice of all kinds
instructive. Men are instructed as to the
part of the target at which to aim in or-
der to secure the best average of effective
shots, and it has been noted that at great
gun practice the best results are obtained
by aiming not at the water line, but at a
point about 2 1/2 feet above it. These regu-
lations have been strictly carried out, and
they account for the wonderful precision
of fire attained by ships of the American
navy, which now are rightly classed as the
best target hitters afloat.—Boston Herald.

Ocean Liners.

It is stated that the first cost of building
a fleet of Atlantic liners is a trifle com-
pared to the money spent in running them.
In less than three years it will exceed
the cost of construction, such is the
constant expenditure in wages, repairs,
etc.

NEWTON.

American army was as brave a one as ever
took the field against a foe.—Dr. H. C. Spencer has taken apartments
on Hollis street.

—Aban, Trowbridge & Co. have sold the

W. H. Barker house, 14 Maple street, to

Mrs. A. N. Simons of Wellesley.

—Miss Sarah E. Farquhar, daughter of

Col. David W. Farquhar, died yesterday

afternoon, under circumstances which

were peculiarly painful to her family and

friends. For some time Miss Farquhar had

been a sufferer from pulmonary tubercu-
losis, and five months ago was taken to Sa-
ra-nae Lake in the Adirondacks for her health.
A few days ago her condition became criti-
cal, and it was decided to bring her to her
home. On the homeward journey she failed
rapidly, and by special arrangement the
2:15 east bound express over the Boston &
Albany, was stopped at Newton to allow
her to reach her home more quickly. An
ambulance was in waiting, and she was
hurried to her home on Pembroke street.
Two hours later she was dead. Her death
will be a severe blow to her many friends.
She was well known in Newton society,
and was one of the most popular young wo-
men in her set. She was born in Newton
and was 23 years of age. After graduating
from the Newton schools, she spent two
years at Smith College, where she was ex-
ceedingly popular among her classmates.—The most efficacious method for steril-
izing razors and other barber implements is
that which has been introduced this week
by John T. Burns, the Cole's block barber.
It is to prevent the contagion of facial
eruptions. All razors, combs and scissors
are placed in a cabinet and completely en-
veloped in a disinfecting vapor. Persons
upon whom these tools are used are there-
fore immune from any germ-breeding
diseases. The new idea is that of the
Aseptic Supply Company, whose physicians
make regular inspections of these antiseptic
cabinets. At present this is the only
barber shop here in which the plan has
been adopted, and already it has been
operated with much success. Mr. Burns
invites inspection of the new system, and
declares that in his many years of experi-
ence he has never seen its equal. That it
is not effectual is shown by the endorse-
ments of many prominent gentlemen of
the United States in their written testi-
monials. The Aseptic Supply Company offers
\$100 reward to persons who can prove

36 and 38 Bennington Street, Newton,
on Tuesday the 25th day of
October, 1898,At three o'clock in the afternoon,
Each house containing 3 rooms beside bath,
all in good condition and renting heretofore for
\$30 and \$35 per month, making a good 10 per
cent. investment on \$7,800, and at a reduced
rental to \$25 per month each, a perfectly safe
and profitable investment on \$6,800. Assessed
value \$680 is \$5,800. Terms 60 per cent. of the
selling price can remain on mortgage for a
term of years at 7 per cent. interest per annum.
Balance of purchase money to be paid in cash
or by note payable to order of the auctioneer.
Balance of purchase money to be paid in cash

Balance of purchase money to be paid in cash
or by note payable to order of the auctioneer.Following the above sale I shall offer on the
same terms theDOUBLE DWELLING HOUSE,
Numbered 12 and 14,
IDA TERRACE, NEWTONpractically the same kind of property as the
Boston St. estate, but assessed for the same
amount, and having the same amount of land.
This property is rented to very desirable ten-
ants for \$200 dollars per annum, and is in good
condition; also immediately following the fore-
going sale I shall offer on the same terms theDOUBLE DWELLING HOUSE,
Numbered 11 and 13 Ida Terrace,
assessed for \$6,800, occupied on one side only
at present, giving a purchaser the opportunity
to occupy the vacant half and to receive income
enough from the rented half to pay the interest
and taxes on the whole property. In other
words to get his own rent free which is pretty
good for this cold weather.Now remember there is positively no limit as
to the selling price. My instructions are to sell
these places regardless of cost or for the lowest
price. No such opportunity for a purchase of a home
in a first-class locality, and a good investment
at a low price, has ever been offered to the
citizens of Newton within my knowledge.He who attends this sale and bring \$300

—The Woman's Guild held a business meeting in the parlors of the Congregational church, Wednesday afternoon.

—Mr. and Mrs. A. E. Bartlett of Madison avenue were the guests of their son for a short time this week at his home at Hyde Park.

—Atwood's orchestra will furnish the music at the dramatic entertainment, which is to be given Nov. 10 and 11, under the auspices of the Lend-a-Hand Society.

—Rev. Helen Van Anderson gave the seventh in the series of lectures to mothers, Monday afternoon, at her home on Harvard street. The subject was, “Special Care of Girls.”

—Charles Ward Post 62, G. A. R., has asked the city government to provide suitable markers for the graves of all veterans of the war of the rebellion in the Newton cemetery.

—Mr. Frank E. Morse, vocal teacher at the Hale studio, will give the second in the series of fortnightly talks in the studio, on Wednesday, Oct. 26, at 4.30. The public are cordially invited.

—A large section of the newly finished embankment of Ballou's pond collapsed Monday, carrying several hundred yards of earth into the pond, and causing damage to the walks and pathways.

—The first in the series of lectures on “Character and Health Building” was given by Rev. Helen Van Anderson on Friday afternoon, at her home on Harvard street. The subject was, “The True Basis.”

—The funeral of Mrs. Crocker, who died suddenly last Friday, was held Monday afternoon from her late residence, Walnut place. Rev. Charles S. Nickerson officiated at the services. The interment was in the Newton cemetery.

—The fair which is to be held under the auspices of the Masonic lodges of Newton, will open the first week in December. Preparations are being rapidly completed, and this is to be one of the grandest affairs of the kind ever held in the Newtons.

—The members of the Universalist Sunday school will hold a party this evening from 6 to 9, in the church parlors. Games, music and other attractions will be provided, and ice cream and cake will be served. The young people anticipate an enjoyable evening.

—Rev. Abel Millard, rector of St. John's church, has resigned to accept a call to another and larger church. A meeting of the parish will be held Oct. 27th, to take action on the resignation, and to appoint a committee to consider the selection of a successor.

—The regular meeting of the Newtonville Baptist Division was held at the home of Mrs. C. F. Jones, Endicott street, Newton Highlands, Wednesday afternoon. The annual meeting will be at Mrs. May E. Clark's, 49 Cross street, Wednesday, Oct. 28th, at 2.30 p. m. A large attendance is desired.

Mr. Nickerson to speak at the Washington Park church, next Sunday morning, at the regular hour. No man is more competent to speak on Prisoners and Prisons than he.

—The many friends of Mr. Geo. C. Oakes, formerly of this place, will regret to learn of his sudden death at his home here, recently, from heart disease. Mr. Oakes, during his residence here, was actively interested in public affairs, and highly esteemed by his many friends. He had been for thirty years a member of the Masonic fraternity. He leaves a wife and daughter.

—Mrs. Dr. W. W. Forster of Holly Springs, Miss., will address the Christian Endeavor Society of the Methodist church, at 6.30, on Sunday evening next. Dr. Forster is the president of First Institute, located at Holly Springs, and Mrs. Forster will speak of various phases of missionary work among the negroes and poor whites. A cordial invitation is extended to all interested in the subject to attend the address.

—Mr. William Webster Ellsworth will give his famous illustrated lecture “From Lexington to Yorktown,” at Temple Hall, Nov. 8, at 7.30, under the auspices of Lucy Jackson Chapter, D. A. R. The lecture is illustrated with many fine stereoscopic views, and has been very highly commended. It is for the benefit of the school children, and such will be admitted for 25 cents. The price of tickets for those not members of the chapter is 50 cents. These lectures furnish one of the most delightful means of studying history.

—The executive board of the Newton Federation of Women's Clubs held a business meeting Monday forenoon in the New church parlors. Reports were made by the various committees. It was decided to hold a reception in December in Temple Hall. It is expected that Mrs. Lowe, president of the Federation, will be a guest at the reception. A petition was circulated and was signed by most of the ladies present, which will be presented to the mayor and aldermen, requesting that suitable provision be made to prevent such numerous accidents on the Charles river, either in the nature of patrol boats or stations at certain points provided with life preservers or other arrangements which will prevent further loss of life. An entertainment will be given in January under the direction of Mrs. Philip Carter for the benefit of the federation. Mrs. Waterhouse for the household committee, presented a plan for the establishment of a laundry for hand work in Newtonville or vicinity, in

which many women in this district might be engaged.

—Among the late weddings is announced that of Mr. Henry Foster Ross of this place, and Miss Lottie A., daughter of Mr. Daniel Sanford of Ware, Tuesday, Oct. 18, at the home of the bride's father. Mr. and Mrs. Ross will reside on Walnut street, and will be at home after Nov. 15.

—Sunday School Day was observed at the Universalist church last Sunday morning. Among the speakers were Hon. Marcus Coggan, ex-mayor of Malden, and a well known Boston lawyer, and Mr. George Closs of Cambridge. Both of these gentlemen have for many years filled the office of superintendent of Sunday schools.

—The Newtonville Woman's Guild met on Tuesday afternoon in the parlors of the New Church, Highland avenue. A glowing fire on the hearth with the large circle of guests comfortably seated about it added to the genial atmosphere of the hour. Mrs. Daniel Lathrop, (Margaret Sidney), read from her delightful book on Concord, and gave much that was charming about Hawthorne and Alcott. She told of the tower where Hawthorne wrote his weird and fascinating romances, and the view therefrom, for this intense dreamer, the placid slopes and lake views, of waving pines, swaying and tossing. Of Bronson Alcott, Emerson said, referring to his venture at Fruitlands and the transcendentalists, “The fault of Alcott's community is that there is only room for one.” Of Mrs. Alcott, the dear, sweet, patient Abbie May, it was said, that “she loved the doing of a duty action rather than describing it.” Mrs. Lathrop assured her hearers that Hawthorne's works are more widely read now than ever, and that the same might be said of Thoreau. The speaker closed with a most interesting description of the special request of the Children's Society of the American Revolution, of their methods of work, and the results obtained, and filled her hearers with the patriotic story of a young hero of 1898. Mrs. Walter Chaloner will be the next speaker, on Nov. 1st. Subject, “Idle Days in Ideal Ways,” a description of houseboat life on the rivers and lakes of Maine and New Hampshire.

—The regular meeting of the Newtonville Baptist Division was held at the home of Mrs. C. F. Jones, Endicott street, Newton Highlands, Wednesday afternoon. The annual meeting will be at Mrs. May E. Clark's, 49 Cross street, Wednesday, Oct. 28th, at 2.30 p. m. A large attendance is desired.

—Mr. George I. Aldrich, superintendent of Newton schools, will be one of the speakers at the Teachers' Institute at Marlboro, next Tuesday.

—The Newton high school will be one of the speakers at the Institute at Hyde Park, the week following.

—Among the late weddings is announced that of Mr. Henry Foster Ross of this place, and Miss Lottie A., daughter of Mr. Daniel Sanford of Ware, Tuesday, Oct. 18, at the home of the bride's father. Mr. and Mrs. Ross will reside on Walnut street, and will be at home after Nov. 15.

—Sunday School Day was observed at the Universalist church last Sunday morning. Among the speakers were Hon. Marcus Coggan, ex-mayor of Malden, and a well known Boston lawyer, and Mr. George Closs of Cambridge. Both of these gentlemen have for many years filled the office of superintendent of Sunday schools.

—The Newtonville Woman's Guild met on Tuesday afternoon in the parlors of the New Church, Highland avenue. A glowing fire on the hearth with the large circle of guests comfortably seated about it added to the genial atmosphere of the hour. Mrs. Daniel Lathrop, (Margaret Sidney), read from her delightful book on Concord, and gave much that was charming about Hawthorne and Alcott. She told of the tower where Hawthorne wrote his weird and fascinating romances, and the view therefrom, for this intense dreamer, the placid slopes and lake views, of waving pines, swaying and tossing. Of Bronson Alcott, Emerson said, referring to his venture at Fruitlands and the transcendentalists, “The fault of Alcott's community is that there is only room for one.” Of Mrs. Alcott, the dear, sweet, patient Abbie May, it was said, that “she loved the doing of a duty action rather than describing it.” Mrs. Lathrop assured her hearers that Hawthorne's works are more widely read now than ever, and that the same might be said of Thoreau. The speaker closed with a most interesting description of the special request of the Children's Society of the American Revolution, of their methods of work, and the results obtained, and filled her hearers with the patriotic story of a young hero of 1898. Mrs. Walter Chaloner will be the next speaker, on Nov. 1st. Subject, “Idle Days in Ideal Ways,” a description of houseboat life on the rivers and lakes of Maine and New Hampshire.

—The regular meeting of the Newtonville Baptist Division was held at the home of Mrs. C. F. Jones, Endicott street, Newton Highlands, Wednesday afternoon. The annual meeting will be at Mrs. May E. Clark's, 49 Cross street, Wednesday, Oct. 28th, at 2.30 p. m. A large attendance is desired.

—There are letters remaining in the post office for John Crowley, E. Edmunds, I. W. Farmer, 287 Walnut street, Gilbert Lalerce, care Mr. Armstrong, George B. Wheelock, Howard Whitmore, Miss Carrie Bous, 728 Newbury avenue, and Leonard, Mrs. P. H. Sears, Mrs. A. L. Smith.

—The Young Ladies' Charitable Association held a business meeting, Tuesday evening, in the Associated Charity rooms, Central block. It was decided by the society to donate one-half their fund to the Consumptives' Home, Dorchester, and the remainder will be used for the relief of the poor in our own city.

—Newton Royal Arch Chapter held a meeting, Tuesday evening. They received the annual official visitation of District Deputy Charles F. Mason and suite of Waterville. The mark degree was conferred on one candidate. At the close of the business session a collation was served in the banquet hall.

—Warren F. Spaulding, Esq., of Boston, known throughout the country as the able and efficient secretary of the Massachusetts Prison Association, has been secured by Rev. Mr. Nickerson to speak at the Washington Park church, next Sunday morning, at the regular hour. No man is more competent to speak on Prisoners and Prisons than he.

—The many friends of Mr. Geo. C. Oakes, formerly of this place, will regret to learn of his sudden death at his home here, recently, from heart disease. Mr. Oakes, during his residence here, was actively interested in public affairs, and highly esteemed by his many friends. He had been for thirty years a member of the Masonic fraternity. He leaves a wife and daughter.

—Mrs. Dr. W. W. Forster of Holly Springs, Miss., will address the Christian Endeavor Society of the Methodist church, at 6.30, on Sunday evening next. Dr. Forster is the president of First Institute, located at Holly Springs, and Mrs. Forster will speak of various phases of missionary work among the negroes and poor whites. A cordial invitation is extended to all interested in the subject to attend the address.

—Mr. William Webster Ellsworth will give his famous illustrated lecture “From Lexington to Yorktown,” at Temple Hall, Nov. 8, at 7.30, under the auspices of Lucy Jackson Chapter, D. A. R. The lecture is illustrated with many fine stereoscopic views, and has been very highly commended. It is for the benefit of the school children, and such will be admitted for 25 cents. The price of tickets for those not members of the chapter is 50 cents. These lectures furnish one of the most delightful means of studying history.

—The executive board of the Newton Federation of Women's Clubs held a business meeting Monday forenoon in the New church parlors. Reports were made by the various committees. It was decided to hold a reception in December in Temple Hall. It is expected that Mrs. Lowe, president of the Federation, will be a guest at the reception. A petition was circulated and was signed by most of the ladies present, which will be presented to the mayor and aldermen, requesting that suitable provision be made to prevent such numerous accidents on the Charles river, either in the nature of patrol boats or stations at certain points provided with life preservers or other arrangements which will prevent further loss of life. An entertainment will be given in January under the direction of Mrs. Philip Carter for the benefit of the federation. Mrs. Waterhouse for the household committee, presented a plan for the establishment of a laundry for hand work in Newtonville or vicinity, in

which many women in this district might be engaged.

—Mr. Nat. Smith of the U.S.V., returned this week from Porto Rico.

—Gethsemane Commandery will hold a convalesce next Tuesday evening.

—Mrs. Peabody of Cincinnati, O., is the guest of Mrs. William A. Hall, Elm road.

—Mr. Charles Lowell returned this week after a long business trip through the west.

—Mrs. N. T. Allen returned this week after an enjoyable visit to Providence, R.I.

—Mr. E. A. Drown and sister have returned home after a delightful season passed at Nantucket.

—Mr. and Mrs. Albert E. Billings of Cross street are receiving congratulations on the birth of a fine boy.

—The annual collection for Home Missions will be taken at the Congregational church next Sunday morning.

—“Our Church, its Belief and Duty,” was the subject at the Y. P. C. U. meeting, Sunday evening, at the Universalist church. Rev. Charles S. Nickerson was the leader.

—A small delegation of the West Newton Women's Educational Club attended the meeting of the State Federation of Women's Clubs at New Bedford, Wednesday.

—Miss Edith Kimball of Washington park is enjoying a few weeks stay in Bedford, N. Y.

THE EYE OF A GOD.

By W. A. FRASER.

[CONTINUED FROM LAST WEEK.]

tiger they had seen down at Kangoon. "I'll have the bullet out of you in a jiffy," said the civil surgeon to Valentyne, as he rolled up his sleeves and opened his case of shining instruments. "D—d if I can understand it, though," he said, as he probed away, for the jiffy time had gone by and he hadn't even touched the bullet yet. "It must be one of those infernal skewee slugs of theirs that he has pumped into you. It seems to have struck you under the arm as you were flourishing that sword of yours, and then traveled on down along your ribs. God knows where it is now, for I can't find it. You've lost enough blood over it for just now, anyway, but if there seems to be any complication setting in I'll have another try for it."

The surgeon saw it was about time to desist, for Valentyne was looking pretty well used up. Then Hpo Thit was brought up before the deputy commissioner for a committal hearing, as it were, charged with stealing the sacred ruby, and with attempted murder of the superintendent.

But the priests were clamorous for the ruby eye of their Buddha, for the matter of Valentyne dying or not they did not bother their heads—even they would let Hpo Thit go free, so be it they could come by the sacred gem again. The Burmese archbishop, the Thathanabala, had come down from Ava to see about the recovery of the stone.

They begged the deputy commissioner to give Hpo Thit promise of pardon if he would only disclose where he had hidden the Bada.

"I can't do that," he said, "for the wounded snub may die. The doctor has fished for the bullet and can't get it, and it looks bad for the superintendent's life. If he dies, Hpo Thit will have to swing."

But if the Bada might be recovered they would pay to Valentyne's family his full value in good English sovereigns.

The deputy commissioner was as anxious to recover the jewel as they were, as he promised Hpo Thit that if he would tell where it was it would help him much when the time of his sentence came.

"I will tell," said Hpo Thit, "because it will be easy for the thakine to get it, and then the thakine will remember at the time of the sentence."

The priests craned their thin, shaven, buzzardlike heads eagerly forward. Even the deputy commissioner was intensely excited, for if he should recover this sacred Bada it would be well; if not, the papers all through India would have their fling at it and his life would be made miserable answering inquiries from the government.

The court was as silent as the graven image of Buddha itself as they waited for Hpo Thit to speak.

Putting the palms of his hands together in front of his face in the form of supplication, Hpo Thit said: "The red stone which I took from the Kyong, even from the forehead of the Buddha, is in the police thakine's body. I fired it from my gun the last time because I had no bullets and because, if it could work a miracle, it would stop the police, that I might get away."

This statement took away the breath of the court. The silence was unbroken for a full minute. Then the chief Phoongye said: "Hpo Thit is telling lies. He has hid it. We must swear him."

"Yes," said the deputy commissioner, "he must make oath to that," for things were better done judicially.

He ordered the clerk to swear him on the palm leaf Burmese bible. "No, thakine," said the priest, interrupting, "he is not a disciple of Buddha. He is a jungle man, and we must swear him on a branch of the leppan."

But after the oath it was the same—the red stone was in the police thakine's body.

"I think it is the truth," said the deputy commissioner.

"It is true," said the priests, "and the police thakine must give up the Bada."

"Well, we'll see what can be done in the matter," answered the deputy commissioner, and Hpo Thit was remanded to await developments.

"By Jove," said the surgeon, when he heard about it, "that accounts for the infernal thing taking that cork-screw course."

"You'll have to get it out of him some way," said the deputy commissioner, "for it's worth about two lakhs of rupees, and, besides, it won't be healthy for Valentyne to live in Burma with the eye of a Buddhist god in him."

"Look here, Grey," said the surgeon, "I am jiggered if I probe for the cursed thing again. I nearly let Valentyne's life out of him the other day for fear of poisonous consequences, for I thought it was a slug. But if it's a good, clean cut ruby it will probably never hurt him, and I'm not going to take any chances."

The deputy commissioner was in despair. The Phoongyes, headed by their archbishop, haunted his office and his bungalow night and day, clamoring for the ruby, for their sacred Bada, for the eye of their Buddhist god.

But the surgeon was obdurate. "Valentyne is a friend of mine," he said, "and I'm not going to murder him to please any yellow robed Phoongye. I wouldn't do it even if he were an enemy. I'd leave the service first."

Of course the deputy commissioner had to report it to the commissioner, and he to the chief commissioner.

The report read that the sacred Bada, the famous ruby, had been stolen from the forehead of the image of Bud-

dha in the pagoda there by a hill man. Hpo Thit, Hpo Thit had been captured and the ruby traced to the possession of the superintendent of police, Mr. Valentyne, that it appeared from Hpo Thit's evidence that he had fired it from a musket into the superintendent's body, but as to whether Hpo Thit's evidence could be accepted and the superintendent held to be in innocent possession of the stolen goods or not or whether he should be arrested as receiver of the stolen goods he was not prepared to say. That must rest with the higher authorities to decide. He suggested that it might be better to refer it to the judicial commissioner.

Valentyne in the meantime had to be guarded at the hospital, for Mi Mira discovered that the Phoongyes had set a scheme on foot to kidnap him and incidentally carve him up to find the sacred stone.

There were many reasons why they should recover it as soon as possible. Their Buddha had lost all prestige since his maltreatment, and no pilgrims came now to lay their generous offerings at his great square feet. The pagoda had ceased to do a paying business, for Uzana's ruby had been a drawing card. It had been a good investment that for 12 centuries had gone on making money for the priests.

Valentyne applied for and obtained sick leave, handicapped with an order that he must not take the ruby out of the jurisdiction of the Burmese courts.

It was a splendid bit of judicial ruling that, and the deputy commissioner smiled grimly when it passed through his hands.

The surgeon swore like a trooper when he heard about it, for he had ordered Valentyne off to Darjeeling for a change. "You can't stop here," he said, "because if you don't die of fever they'll murder you sure. By Jove! your body will be worth something for dissecting purposes, though, if they don't get the first slash at you."

But Valentyne steadily improved. The wound was healing up nicely, the ruby seemingly giving him no trouble whatever.

As soon as he was able to sit up and move about he discovered a new source of annoyance. Devout Burmans were constantly coming and prostrating themselves at his feet, touching their foreheads to the ground and muttering their prayers.

"What does it all mean?" he asked Mouny Ounay.

"Sir, they are worshipping the Bada which you, by the grace of God and that wicked Hpo Thit, have got."

"This is intolerable," thought Valentyne. "I am a ruby mine and a Burmese god and a receiver of stolen goods all in one."

As he got better the beauty of his new life was further enhanced by the deluge of official correspondence that commenced to pour in upon him.

By order of the chief commissioner he was asked to explain how he meant to make good to the pagoda the value of the ruby he was still retaining on his person. It was cheerfully pointed out that if half his salary was escheated for this purpose it would take at least 40 years to make up the value of the jewel.

A delay of this sort would hardly be fair to the Phoongyes. Besides, in that uncertain climate his salary might cease at any moment. At any rate, under the 55 years' service rule, he could not retain his position in service for that length of time, and his pension would be barely enough to live upon.

The civil surgeon was raked over the coals for not acting upon the deputy commissioner's suggestion and probing the matter to the bottom, as it were—for not making another effort to recover the jewel.

It was in vain that he wrote in answer that the superintendent's life would have been endangered by another operation.

His answer only brought another literary wiggling, in which he was curiously

Devout Burmans were prostrating themselves at his feet.

reminded that the British government expected its officials to do their duty irrespective of personal feeling or considerations of personal safety.

"Hang them for a lot of bloodthirsty swine," exclaimed Corbyn, for that was the surgeon's name, "they mean to have that ruby out of Valentyne, even if it costs him his life."

Then the Phoongyes got up a monstrous petition, signed by all the Buddhists, living and dead, in the whole Burmese empire. It was cleverly worded, having been drawn up by a young Burman barrister, who was the gold medalist of his year in England.

The petition was to be forwarded to the viceroy through the chief commissioner and prayed that the superintendent of police, Valentyne, should be delivered over to them that they might regain the most sacred relic in all the Buddhist empire.

They were willing to pay an indemnity to his family, but the ruby they must have.

For a time it looked rather blue for Valentyne, for the viceroy was a man

Newton Education Association.

The Newton Education Association held the first meeting of the season Monday evening, in the hall of the High school building. Ex-Mayor Bothfield presided. He announced the work for the present year to be eight or nine meetings by the association in different parts of the city for the consideration of some of the newer phases of educational work, as the kindergarten, child study, and sloyd. Each of these local meetings to be in charge of a special committee in the locality. In addition to these there will be three meetings to be held in Newtonville.

The speaker of the evening, Miss Sarah L. Arnold, supervisor of primary schools of Boston, was introduced. The subject was, "Kindergarten and Child Study." Miss Arnold illustrated the advantage of kindergarten work to the primary and higher grade work in schools. The common branches of reading, writing and arithmetic are much improved by the training received in the kindergarten in form and nature studies. One or more years are gained in the grammar school work by the average pupil who has had the kindergarten training. Above the mere knowledge, which the kindergarten pupil acquires, the training gives a large increase of power, which is above mere elementary knowledge. Miss Arnold touched briefly upon child study. She showed that the kindergarten accomplishes for the child much more than the primary schools in power and in courtesy. Numerous illustrations were given showing the children to be more thoughtful and considerate for the training in the kindergarten. At the close of the address Miss Arnold answered numerous questions addressed by members of the audience.

It was announced that the next meeting in the series will probably be held at Newton Centre, Monday evening, Oct. 31, under the direction of Prof. Rush Rhees. A paper on "Sloyd Training," will be presented by Miss Edith Matteson.

A cordial invitation was extended by the chairman for all citizens to attend this meeting.

Lasell Notes.

The first Symphony concert of the season was an occasion of enjoyment to the music-lovers of the school, Lasell as usual, sending her representatives to the number of ten or more to Music Hall on Saturday evening. Miss Kendrick accompanied the party.

The Lasell Missionary Society held its usual monthly meeting on Saturday afternoon in the chapel.

A party of students attended the services in Elliston Church on Sunday evening, Mr. Bragdon conducted them. The fourth of the fall excursions took place on Monday afternoon, some twenty-five or thirty of the girls visiting Mr. Auburn and Cambridge. Mr. Bragdon and Professor Winsor accompanied the party. The loveliness of this famous city of the dead, and the grounds and buildings of the even more renowned old university, the homes and haunts of poets and other literary celebrities—these are surely enough to fill to overflowing, and to make ever memorable any afternoon spent in such sight-seeing.

On Monday evening Dean Alfred A. Wright of Cambridge gave before the school his entertaining and instructive lecture on "How to Study," in which he especially emphasized the value of the seeing eye. To be able to state clearly and well, one must remember, to remember intelligently it is necessary to understand and to know; attention is required if one would understand, and correct seeing and intelligent observation underlie this, so that the student's eye must be trained to see the true value of this practical training received at school.

Mrs. Blanche C. Martin, Lasell's efficient and estimable instructor in Oratory, will lecture Oct. 28, in the Domestic Science department of the Mechanics Fair now in progress in Boston. Her subject, which she will doubtless handle with her usual ability and clearness of insight, is the "Education of Young Women." Time of the lecture 8 o'clock p. m.

High School Notes.

The girls' Athletic Association is already hard at work. The basketball team practices regularly two afternoons a week and under good coaching will surely become a team equal to that of last year. The most responsible positions are filled by last year's players and a large number of substitutes are being trained by Coach A. Bates. It is gratifying to the management that so many freshmen are turning out and are learning the game.

A meeting of the P. B. 30 was held on Monday at the home of Mr. Donald Howes on Park street, Newton, and the following officers were elected: President, Fair drop; Secretary and Treasurer, Mr. Edwin P. Seaver, Jr.

The Alpha Phi Kappa 99 held a social meeting at the home of Miss Jessie Carter, last Friday afternoon.

A very interesting game of football was played between Brookline and Newton at Newton Centre last Friday afternoon. This game was a revelation to the many who had seen the light held well at times and at times played loosely. The backs with the exception of Holmes played good, steady, ground-gaining football. Holmes did not start quick enough and when he did start made no attempt to circle his end. His playing on the defensive was strong. Seaver played the same game he has played all the season. Whenever he got the ball he gained good distance and tried his best for long runs. Skelton did by far the best work he has done this season. His tackling was hard and his line bucking hard and effective. His kicking was good. His drop or kick from the field was a very pretty piece of work and his punting was in all cases successful. He is undoubtedly successful in getting out of his own half. Andrews played a quarter instead of Moore. If Moore stops playing for good the team has lost a valuable man. Stone played an exceedingly strong game. He has distinguished himself during the year by his effective center plays. The rest of the line must and will be stronger. When we meet Brookline later in the season with more practice and a stronger line, we will give them a good hard game.

Halloween parties seem to be the fad this year. Two of the girls' clubs will entertain their young gentlemen friends that evening and initiate them into the mysteries and delights of popping chestnuts, etc.

Many new books have been added to the library of late. This has been growing ever since it was started. Last year the different departments contributed and some of the best volumes were bought. The English department has grown very fast. If the other departments equal this few institutions of our size can boast of such a well-filled library.

Congregational Club.

The Congregational Club held the first meeting of the season, Monday evening, in the Central Congregational church, Newtonville. Supper was served at six followed by a business meeting. The reports of the last meeting were read by the secretary, Mr. Kelley, and the report of the out-look committee was submitted by Rev. H. J. Patrick. D. D. One new member was elected.

Resolutions on the death of the late Hon. James F. C. Hyde, presented by Mr. A. F. Hayward, were adopted by the club as follows: Whereas, it has pleased our heavenly father to remove by death one of the founders of this club, and its first president, Deacon James F. C. Hyde, who after a long and painful illness entered into rest on the second of May last, therefore, resolved; that, in his death the Newton Congregational club is called to mourn the loss of one whose wise counsels as an officer and member of the club have contributed so largely to its success, and whose prayerful spirit and active effort and interest in all good work, made him a pillar of strength in the church for the advancement of Christ's Kingdom in the world. Resolved, that we extend to his sorrowing family our sincere sympathy in their affliction. A few remarks were made by the president who introduced Dr. Davis of Newton. He gave an outline of the growth of the missionary work in foreign fields. It was decided some time ago by the board of missions that systematic visitation to the foreign fields would materially aid the missionaries themselves and the home board. This decision has been verified by the result of the recent visitation to China.

Rev. Judson Smith, D. D., secretary of the American Board of Commissioners for Foreign Missions, was introduced and gave some of the results of his observations about the political and religious situation in China which he made on his recent visit there as a member of the board's deputation.

After a sea voyage of 10,000 miles we found ourselves in the midst of a most striking scene than New York harbor. Another trip of 1,000 miles before reaching our destination through a delightful country and among the kindest of people. We can judge nothing of the Chinese people by the individuals in this country as only the lowest class of workmen come here. In reality they are an intellectual and capable of high grades of education. They are long headed and intelligent with alert and able minds. Withal they are a heathen people and without they are in character only as Christians bring it. They have a great reverence for age and their commercial integrity is noteworthy. These characteristics are a great aid when developed by Christianity. They are a people as like ourselves as can be imagined in every way. They are not the bloodthirsty race they have been represented, but are a peaceable people and most kindly to foreigners.

We met all the missionaries in that field with few exceptions and conferred with them at length. As a class they are spiritual in the highest degree and as we learned their ideas and methods of work we were exalted. The problems with which they have to deal require a degree of statesmanship seldom met with. The funds which are sent to them are handled with all the care that reason could require. They consider it the Lord's money and will sacrifice their own salary if the work would suffer.

The situation of the mission has been most carefully chosen, and the growth of the mission has been most rapid with every promise of an increase almost miraculous within a few years. In the northern mission the four missionaries and every woman are doing the work of two or three persons. The board is beginning to reinforce the missions and would have done so at an earlier date had the funds been sufficient. Many people think the mission schools are a side issue, but this is a mistake. The education lies side of the evangelized work. The leaders will never be competent unless educated. The schools are an integral part of the Christian work.

The mission deserves in the fullest degree the confidence and support of our people. The present crisis in China will do no lasting harm to the work of the Christians. The missionaries state that there is not a single amount of opposition to them which they have experienced in the past. They seem to feel that that which comes to them from the western world is for their advancement and are beginning to welcome the new state of things. In the west of China which is to rise, the great force will be found in the schools and stations. The meeting closed with a few remarks by Rev. C. M. Schaghtle followed by a prayer by Rev. Dr. Byington.

The Entertainment Club.

The progress made during the past two weeks in the rehearsals of "A Fool for Luck" which the Entertainment Club will produce Monday evening, Oct. 31, at the Channing church parlors, has been such as to promise a most satisfactorily rendered performance. The advances made are due in great part to the fact that the director, Mr. Clifford A. Bentley, and the members of the cast, have given much time and effort in their attempt to make the first performance of the 98-99 season a complete success. The story of the play deals with a family whose speculative tendencies have led them to dabble in stocks to such an extent that the condition of their finances is completely governed by the fluctuations of the market. Their anxiety regarding imitations furnishes abundant material for the author to introduce a large amount of comedy element. The situations are extremely funny, and the dialogue laughable and bright throughout. The executive committee has been decidedly fortunate in securing as a curtain raiser the one act farce "At the King's Head," dramatized by Mr. Clifford A. Bentley, and the director of the stage by Miss Grace Joy White, from the story by Frankfort Moore. Miss White, the authoress, is to assume the leading role, and will be assisted by Mr. Clifford A. Bentley. "At the King's Head" was given its initial presentation before the Green Curtain Club of Dedham last year, and its success was unquestioned. The Entertainment Club's presentation, Oct. 31st, will be preceded by a children's matinee in the Channing church parlors, Saturday afternoon, Oct. 28. Season tickets for the six reserved seats are single admission tickets, 50 cents and 35 cents respectively. Matinee tickets, 35 cents. Tickets may be obtained at Hubbard's drug store.

A Dream of the Future.

"When asked how much 'book-learning' they still allowed the common people to have, A. D. 1900, he said that, owing to the insufficient supply of teachers, it was found necessary to teach a sufficient amount of reading to enable the children to use the printed rules for plain and ornamental dish-washing, free-hand scrubbing, elementary sewing, plane and spheric hinging, theory and practice of milking, ancient and modern plowing, differential wood-chopping and other practical branches of study which had supplanted the old-fashioned barbarous curriculum of the common schools."—From Ed. Visions, Iowa Normal Monthly.

"I am so annoyed. I do not want to invite that horrid Mrs. Prim to my reception, yet I cannot slight her."

"Give her invitation to your husband to mail."—Truth.

Pale and Thin

Could Not Help Herself for Three Months—Impure Blood Causes Great Suffering—How Relief Came—Better than Ever Before.

"I have been in poor health owing to impure blood, weak stomach, biliousness and sick headaches, ever since I was a child eight years old. I have suffered everything for the past 14 years. I got so low that I could not help myself for three months, and was pale and thin. My neighbors did not expect me to live through the winter. I asked my doctor if I could take Hood's Sarsaparilla and he said that I could take as much of it as I liked. I very soon found it helped me very much. I continued its use until I had taken six bottles, and at that time I looked better than I ever did since I can remember. I shall never be without Hood's Sarsaparilla as long as I can get it. It helped me more than any other medicine that I have ever taken. I advise anyone who is in poor health to try this great blood purifier, Hood's Sarsaparilla. I owe my life to this medicine." NEWTON'S TROLLEY CAR MAIL SERVICE.

POSTAL AUTHORITIES WILL PROVE A BOON TO SOUTH-SIDE RESIDENTS.

Newton is to adopt, on a small scale, the trolley car method of carrying mails. While the arrangements for the new service are not yet completed, the announcement has been made by the postal authorities this week.

If Postmaster Ellis' plans do not miscarry the system will be in perfect order by Nov. 1st. The decision of the postmaster has been brought about by his desire to add to the efficiency of the department, and also as south-side residents have for some time requested that they be better served in this direction.

At present the Western mails do not arrive at Newton Centre, Newton Highlands and Newton Upper Falls, until nearly an hour after villages on the main line of the Boston & Albany have received theirs. It is now the practice to carry all mails to Boston on the trains from the West, and send them from there to south-side villages on the circuit branch trains. The Upper Falls pouches are now dropped off at Eliot, and taken to the Upper Falls post office in a wagon.

Under the new system this latter scheme will be abolished, as it is the object of the postal authorities to as much as possible reduce expenses. The cost at present for the wagon-hire and salary of driver is about \$600, and the trolley service will be much less than this amount.

The pouches, when the new method is complete, will be placed on the front of the Newton & Boston street railway cars on the regular trips. At present no cars are to be built exclusively for the purpose, but may come in time.

After Nov. 1st Western letters will reach the Centre, Highlands and Upper Falls post offices much earlier than at present, and in time for prompt delivery by the carriers.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

BOOKS AND MAGAZINES.

A HERALD OF THE WEST.

"A Herald of the West," is the title of Mr. J. A. Altschuler's new American historical romance published by D. Appleton and Company. The author's brilliant success in this country and in England as a writer of American historical romances will direct especial attention to his new book, which embodies his most successful work. He opens with some most interesting pictures of social life and political conditions in Washington just before the War of 1812, and late in his career of national insight into the contemporary life of Philadelphia, New York, and Boston. The passages dealing with the war itself include singularly vivid and dramatic accounts of the capture of Washington by the British and the battle of New Orleans, both noteworthy contributions to American literature. Another feature of the book is the account of the life of the author, which is the East and the West of that time, and the characterizations of sentiment in New England. The story moves briskly, and is told with a fine spirit and insight. On the social and political as well as the romantic and military sides this novel will be ranked as an important work of fiction, and a valuable contribution toward a better knowledge of American life in the past.

DAVID HARUM.

The announcement of "David Harum," a story of a life in the West, by the late Edward Noyes Westcott, is attracting much attention on account of the quality of the book and the circumstances attending its publication. It has been often pointed out that the most successful American novels have been local studies, genre pictures of particular types and places, like those of New Orleans by Mr. Cable, of New England by Mr. Winslow, and of the Northwest by Mr. Hamlin Garland, and of the Southwest by Mr. Owen Wister. Now and then it has happened that a new writer has appeared and gained general recognition by the vividness and force of his study, like Mr. Howe with "The Story of a Country Town." In the case of "David Harum" the conditions are identical. The author, and himself, was a life in the West, and observed the quaint and delightful type presented in his book until he was able to offer a picture so vivid, true, and irresistibly humorous, that we recognize at once the addition of a new figure to the permanent genre studies in American fiction. The surroundings of the horse-trading country banker, the reputed Shyluck but real philanthropist, may be taken to be those of a rural district in central New York. The type is so fresh and original that "David Harum" will be appreciated at once by one of our best writers, which is "racy of the soil" and all of spontaneous humor. The book is a novel, and a love story runs throughout which is characterized by constantly interesting and sympathetic treatment, and the humor is taken by the quaint old banker whose personality will impress every reader. The humor of this striking book is in sharp contrast with the circumstances under which it was written. It was finished while Mr. Westcott lay upon his deathbed, but no trace of his sufferings appears in its pages. It is a book which puts the best results of his keen observations and his most careful work. The book is published by D. Appleton and Company.

Some of the additional autumn announcements of D. Appleton and Company are "Cannon and Camera," Sea and Land Battles of the Spanish War, by Captain John C. Campbell, and the Return of the Soldiers, by John C. Hemment, War Artist at the Front, with over fifty illustrations from photographs taken by the author, and "Rio," an illustrated handbook for travelers, investors, and others, by Frederick A. Ober; "Latitude 19 degrees," a romance of the West Indies in 1821, by Mrs. Schuyler Crowninshield; "Paleface and Redskins," and other stories for boys and girls, by F. Anstey, author of "Vice Versa," "Illustrated Pharos," the Egyptian, by Guy Boothby; "Belshazzar's Feast," by Guy Boothby; "The Knight of the Golden Chain," by R. D. Chetwode.

While preparing his forthcoming book, "The Story of the Railroad," Mr. Cy. Warman made a long journey through the West and Southwest for the special purpose of gathering fresh material at first hand. He met many of the pioneers in Western railroad construction, and acquired much unwritten information. It is understood that Mr. Warman, in his book, tells the remarkable story of the war between a railroad and the possession of a canon in Colorado, which will present an unknown page of history to most readers. Mr. Warman's book is to be published soon by D. Appleton and Company.

—The young child of Isaac Arkman of 58 West street is quite ill.

—Mrs. Katherine Freeman has removed from California street to Watertown.

—Mr. Anthony Sullivan of Bridge street has purchased a handsome trotting horse.

—Philip Gibson has placed a handsome new delivery wagon on the road this week.

—Anthony Gildea has returned to his home on Bridge street after an absence of six months.

—Mr. Ernest Greene led the Y. P. S. C. E. singing last Sunday evening at the North Evangelical church.

—The highway department is constructing concrete crossings at Adams street at the junction of Middle street.

—Mr. George F. Barthelme is having the sidewalk adjoining his premises on West street graded and covered with concrete.

—The North Evangelical society held its annual meeting last night for the transaction of considerable important business.

—Miss Annie Mahoney, daughter of Mr. Morgan Mahoney, the Watertown grocer, is reported as slowly recovering from her recent severe illness.

—Mr. Christopher King and family of Cook street sailed yesterday on the S. S. Canada of the Dominion line for Queens-town. They will pass the winter at the home of Mr. King's parents in Ireland.

—A pleasant social was held Tuesday evening at the North Evangelical church carsonage under the auspices of the Kings Daughters. It was attended by a good-sized number and proved quite successful.

—There was a little excitement at the corner of Bridge street and Watertown street about 9 o'clock, last evening, when a guard wire fell from a trolley pole of the B. street railway. A course there was no danger, but passers-by were a little shy until the damage had been repaired.

—Mr. William M. Lisle and Mrs. Lisle continue to attract large numbers to the revival held every evening in St. Elmo hall, Bridge street, under the auspices of the Beulah Baptist Mission. They will be the speakers next Sunday when services will be held morning, afternoon and evening.

WING AND CHADWICK CHOSEN.

REPUBLICAN REPRESENTATIVE CONVENTION NOMINATE THESE GENTLEMEN AS CANDIDATES.

The representative convention, which was held in Grand Army hall Tuesday evening, was a decidedly interesting if not exciting political gathering. Those who expected a hot fight were disappointed, but there was plenty of evidence of quiet and effective preliminary work, and the result of the balloting provides an interesting study for those who care to look into the inside workings of Newton politics.

The convention was called to order by Chairman George P. Staples of the Republican ward and city committee, and at once organized by the choice of Robert H. Gardner for temporary chairman and C. S. Laitweiler as temporary secretary. The committee on credentials, consisting of C. D. Cabot, Judge Blaney and Albert L. Little reported 32 delegates present, after which the temporary organization was made permanent.

Jesse C. Ivy of ward one moved that the convention proceed to nominate. This motion was amended by John T. Prince, who desired to proceed with an informal ballot. After some discussion the amendment was withdrawn. Mr. L. S. Powers suggested that the roll of wards be called in order to proceed with the nominations in an orderly manner.

For ward one Dr. E. P. Scales presented the name of John T. Langford as a leading citizen of undoubted ability, who had been prominent in all movements looking toward the improvement of the city. In recognition of Mr. Langford's services, Mr. Powers referred to Mr. Langford's desire of two years ago as entitling him to special consideration at this time. He also spoke of his interest in municipal improvement and his great services to the city. Alderman Ivy also seconded the nomination, and dwelt at length on Mr. Langford's work in connection with Charles river improvement, the separation of grades, and the widening of Washington street.

For ward two W. S. Slocum presented the name of Mr. N. H. Chadwick as one who has served Newton well at city hall, and would be able to add to his services at the state house. This nomination was seconded by A. R. Weed of ward seven.

For ward three Judge Blaney put forward the name of George A. Wadsworth, who, he stated, would be an unusually valuable representative on the floor of the house in view of his extended public service and his familiarity with members of the legislature and state officials. This nomination was seconded by Alderman Whittlesey.

Mr. E. M. Gay of ward seven nominated Mitchell Wing of that ward, calling attention to his record at city hall and his thorough understanding of all public matters. On the first or informal ballot 90 votes were cast. Of these Wing received 35, Chadwick 28, Langford 9, and Wadsworth 8. A. L. Hayward moved that the informal ballot be made formal. This motion was opposed by John T. Prince, who stated that the majority desired at least a chance to vote. Mr. Hayward withdrew his motion, and Alderman Ivy moved that a roll call of delegates be had. This was not demanded by one-quarter of the delegates, as required by statute on show of hands, and the convention again adjourned.

General Debility and Loss of Flesh

Scott's Emulsion has been the standard remedy for nearly a quarter of a century. Physicians readily admit that they obtain results from it that they cannot get from any other flesh-forming food.

There are many other preparations on the market that pretend to do what

SCOTT'S EMULSION

does, but they fail to perform it. The pure Norwegian Cod-liver Oil made into a delightful cream, skillfully blended with the Hypophosphites of Lime and Soda, which are such valuable tonics, makes this preparation an ideal one and checks the wasting tendency, and the patient almost immediately commences to put on flesh and gain a strength which surprises them.

Soldiers' Home-Coming Welcomed.

It was "soldiers' night" at the Nonantum Club, Wednesday evening, and everything had the air of welcome, of hospitality and of hearty good feeling. The club, to honor the home coming of those heroes of the Spanish war, prepared an elaborate banquet and its efforts proved an instantaneous success.

About the rooms and corridors of the clubhouse were elaborate decorations, consisting of palms, potted plants and flowers. On the walls hung pictures of naval and army heroes and men-of-war, handsomely draped with the national colors and banners of red, white and blue.

At the close of the spread President Mason E. Stearns made an address of welcome, and introduced the toastmaster, Dr. D. Waldo Stearns. Sergt. S. A. Burke of the 9th Mass. Signal Corps was the first speaker. He described the landing of the troops at Porto Rico, and the campaign on the island. He told of the character of the country and its inhabitants.

Mr. Brent Taylor of the 9th Mass. read a very interesting paper on the war as he had seen it from William Bellamy and Willie E. Russell of the Naval Brigade. The reception to the soldiers, which followed, was in charge of Chairman Reuben Forkhall. The decorations were in charge of Mr. Bert Deane and the supper under the direction of Mr. John T. Beale, Mr. John Bowker, Mrs. J. T. Beale and Miss Fannie Beale.

The singing of Mr. Kershaw, who rendered very effectively the ballad of his own composition, "My New England Home," received much applause. Music was furnished by Whitehead's orchestra.

Wether's Millinery Store.

There are many ladies in Newton who are at Wether's, 21 and 23 Temple Place, Boston, and there are others who should be. We would say to one and all that they cannot make a mistake in buying their hats, bonnets, ribbons or feathers of him, as he always has the best, at the lowest prices, and what is of the most importance, everything that is purchased from him is thoroughly up to date, in every particular. His advertisement in another column speaks for itself, but to see the articles enumerated therein, will be sure to make you a purchaser, which will be decidedly to your interest. You should call now, while his styles are complete.

NEWTON CLUB.

The Newton A. A. team has a game scheduled with the Portsmouth A. A. eleven at Portsmouth, on Oct. 29. An effort is being made to secure a game with Brown at Newton Centre for Thanksgiving Day.

The bowling sharps have been sent out in force on the club alleys this week, and a strong team is being developed to represent the club in the league games, which begin next month.

The program for the opening concert of the season, Wednesday evening, Oct. 21, was furnished by members of the Boston Symphony Orchestra, under the leadership of Max Zach, and Mrs. Caroline Shepard, soloist. It was one of the most pleasing that has been offered a Newton audience for some time. Despite the unfavorable weather conditions a large number of the club members were present, and every seat in the hall of the clubhouse was taken. The hall, as well as the other parts of the building, was decorated for the occasion.

Address to the
VOTERS of the CITY of NEWTON.

In announcing my candidacy for Representative to the General Court it becomes my duty to frankly state my position and the reasons why my name will appear upon the official ballot as an Independent Republican citizen, to be voted for on the 8th day of November next.

First—Let me say that I am in full accord with my party in all that will make and keep that party pure in politics.

Second—That I am not a bolter from the Republican Representative Convention.

In the presence of the Ward One caucus I declared my intentions to stand as an independent candidate to protest against what I believed was an unwise practice in conventions and to ask the people whether delegates to a convention were free to use their office to pay personal political debts, and to exercise personal animosities, or whether they were elected to carry out the will of the people as expressed through a majority of the caucuses.

Having stated my position I retired from the caucus that it might take action uninfluenced by my presence and that I might be free to act independently. The caucus, fully conscious of my purpose, unanimously selected me as its candidate for representative, also elected me a member of the ward committee for the year 1899, and passed resolutions endorsing the cause of the caucus and convention reform. The necessity for such reform is manifest.

The old caucuses where friends and neighbors met together to consider and select candidates and delegates to represent them in convention is a thing of the past. Today our caucus is held under a law which replaces the good old practice with a system requiring that some man or men make up and pay for a printed ballot to be voted at the caucus, which may or may not express the will of the caucus, or represent the best interests of the party and the people. This law requires that written or printed ballots only shall be used, and since the number of candidates and delegates to be balloted for at our last caucus was not less than 25 in any ward, it will be readily understood that the average voter cannot and will not select and write 25 names when printed ballots are at hand. The charges and counter-charges made at caucuses of interested and unfair methods employed in compiling ballots shows how unsatisfactory this system to all, except those who are enabled by it to gain control of the party machinery.

The caucus, the first and most important of our political primaries, should be reformed so that the people may once again control the selection of candidates and the election of delegates to represent them. The convention, also, if continued, should be so organized that it will express the choice of the people as set forth by the caucuses and not the personal choice of delegates.

Our conventions today, instead of openly and publicly expressing the choice of the people, are too often used as trading places in politics, reversing the will of the people as expressed through the caucuses.

Every woman should know that there is a great home medical book that tells all about the reproductive physiology of women, and all about the home-treatment of diseases peculiar to the sex. This book contains 1008 pages and over 700 illustrations. It is called Dr. Pierce's Favorite Prescription. This marvelous medicine acts directly on the delicate organs distinctly feminine. It makes them strong, healthy, vigorous, virile and elastic. It fits for widowhood and motherhood. It banishes the usual suffering of the expectant months, and makes baby's advent easy and almost painless. It robs motherhood of its perils. It insures the robust health of the little new-comer and a bountiful supply of nature's nourishment. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers. For a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser, send 21 one-cent stamps, to cover cost of mailing only, to World's Dispensary Medical Association, Buffalo, N. Y. For elegant French cloth binding, 41 stamps.

Miss Edith Cain, of Clinton, Allegheny Co., Pa., writes: "After two years of suffering, I began taking Dr. Pierce's Favorite Prescription and am now entirely cured. I had been troubled with female weakness for some time and also with a troublesome drain on the system, but now I am happy and well."

In cases of constipation and torpid liver, no remedy is equal to Dr. Pierce's Pleasant Pellets. They regulate and invigorate the stomach, liver and bowels. They never fail. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. An honest dealer will not urge a substitute upon you.

THE EYE OF A GOD.

By W. A. FRASER.

[Copyright, 1898, by the Author.]

[CONTINUED FROM LAST WEEK.]

who had great ideas about the rights of the natives. In fact, he went in for it very much as a baboo plays lawn tennis, without much sense in the game, but with his whole soul and ponderous body dead on the ball.

The papers at home took it up, and a nice gentleman one evening at Exeter hall pointed out to the B. P. that evidently it was another case of oppression of the poor native. One of their temples had been desecrated, one of their most sacred idols violated, and a jewel, to which they attributed miraculous powers, stolen, and the jewel was now in the possession of one of the government superintendents of police.

There was a cock and bull story, he said, about it having been shot into his body, but even if it were so they could not set a whole nation of Buddhists by the ears for the sake of one man. In common honesty they must give the jewel up, and if this man couldn't part with it, why, he would have to go with it, that was all.

The viceroy seemed inclined to look at it in this light, too, and it really seemed awkward for Valentyn.

In the meantime a civil suit to recover the value of the ruby had been instituted in the courts in Rangoon against the government in general and Valentyn in particular.

Luckily for Valentyn the secretary of state was a hard-headed man, not much given to nonsense, and he said in equivalent official language that he'd be damned if he'd see an innocent Englishman deliberately cut up to recover any fetiche bubble.

But all the same the superintendent would have to be retired on half pay, for his usefulness was gone. The two could not be combined, the dual position of Burmese god and superintendent of police, for the natives still persisted in reverencing him, though ready as soon as the word was given to cut him up.

Just when he thought his troubles were at an end and he might go home they applied for an injunction to prevent him from moving the ruby out of Burma. They showed to the court on medical authority that there was every possibility that the ruby might work itself out some day, and so be recovered; but if Valentyn were allowed to leave the kingdom the chances of the rightful owners ever becoming possessed of it were very slim indeed.

They undertook to pay Valentyn a salary of 10,000 rupees a year so long as he remained in Rangoon, and all they asked in return was the privilege of coming to worship the Buda, at certain periods, and that a medical officer, appointed by them, should have free access to Valentyn's person with a view to keeping track of the perambulations of the ruby, and that when it made its appearance near the skin anywhere, so that it might be extracted without danger to him, that he would relinquish all claim upon it and allow the surgeon to hasten its appearance.

Valentyn's counsel, seeing which way the wind was blowing, agreed to accept this ruling of the court, only stipulating that Corbyn be appointed surgeon, for the nether stone had suffered most in the grind, and Corbyn was out of the service.

One little formality the court demanded, and that was that the archbishop and three or four of the chief Phoongyes should go on a bond for Valentyn's personal safety.

So the superintendent was lodged in a beautifully furnished bungalow and was treated very much like a distinguished state prisoner.

Life went very pleasantly with him, and it did not seem such a bad affair after all.

Mi Mra was living in Rangoon, too, as it happened, and Hpo Thit, in consideration of his turning queen's evidence against himself re the ruby, was then busily engaged in pushing a conveyance cart about town with a clanking chain running from his waist to either ankle by way of ornament.

The Europeans in Rangoon, with oriental playfulness, bestowed upon Valentyn two or three names expressive of his occupation. He was known down at the "Gym" as the "Burmese god," "Beda," and the "Jewel Merchant."

The fellows were never tired of offering him as security, swearing roundly that he was worth two lakhs of rupees dead or alive.

One or two playful attempts on his life relieved the monotony of his existence, but as these laudable efforts were usually founded both by the Phoongyes and the officials, and as one of his assailants caught a cold steel in his right lung, they ceased altogether after a time, and he was leading a comparatively happy life.

He almost began to wish that the ruby would stay where it was. "We're fixed for life," he said to Corbyn, "if this Buda thing doesn't turn up. I must be more careful of myself. I must stop riding, for the shaking up may dislodge the infernal thing and start it working out."

He had even got used to seeing the natives plump down in front of him and fall to praying.

Strangers always took him for the chief commissioner when they saw this sort of thing going on, and many were the mistakes made in consequence.

Once he received an offer from Barman at a salary which made his paltry 10,000 rupees look like pin money only. The enterprising American guaranteed to smuggle him out of Burma also, and pay all legal claims too.

After he had been in the business about two years he began to feel a pain in his back. He confided his fears to his attendant physician. "It's working

out, I'm sure," he said sorrowfully.

And so it appeared, for a distinct lump was forming just below the shoulder blade.

The Phoongyes were notified, and there was great rejoicing among them. They came and beat tamtams all night long in front of Valentyn's bungalow. This was to drive the Nahts away, so that they would not steal the Buda again.

Valentyn was loaded down with presents and feasted like a bullock for the sacrifice.

"I shall be a rich man," he said to Corbyn, "if the thing holds off for a time."

But the incessant drumming and peevy making about his bungalow was driving him nearly mad for want of sleep.

Then one day Corbyn made a discovery. It was only a boil, the result of mango eating.

The Phoongyes were in despair.

Just about that time Hpo Thit walked into his bungalow one day and, bumping his forehead on the floor, begged Valentyn's forgiveness for wounding him. He had served his time and was going away. If he remained in Burma, they would kill him for stealing the Buda, so he was going to some other country.

And that was the last anybody ever saw of Hpo Thit in Burma.

Three years more of playing Buddha at the rate of 10,000 rupees a year passed, and this time there could be no mistake about it, so Corbyn said. The ruby was coming not far from the place where the boil had been. In fact, it was the irritation of the Buda that had most likely caused the boil.

It was the same old thing over again—tamtams, and pangs, and presents, and much praying, and the working of charms to keep the Nahts away—only stronger than before, for they were sure of it this time.

Corbyn could take his fingers and push it about under the skin, and the grim, butternut colored faces of the Phoongyes relaxed when they realized how close they were to getting the heaven sent relic.

Even the officials were pleased—pleased with Valentyn, pleased with themselves and with the way they had managed the affair. The Phoongyes would have their ruby back again, and Valentyn would have done well out of the deal. In fact, he might be reinstated in the service if this spirit of Buddha were cast out of him.

The chief commissioner graciously extended his patronage to the extracting of the stone.

Apart from all this it had a great surgical interest. All the medical fraternity in Rangoon asked Valentyn's permission to be present. In fact, if he had chosen to charge an admission fee of two rupees a head he might have had his compound filled at that price the day Corbyn summoned the Phoongyes to be present to take delivery of the ruby.

Everything was in readiness. The archbishop had brought a sacred dish that was supposed to have at one time belonged to Buddha Guadama, to receive the Buda in.

Valentyn's back was bared. Corbyn made an incision with his scalpel, pressed gently with the forefinger of his right hand downward, and in a second something lay in his left hand.

He gave it a little rinse in a bowl of warm water he had ready and held it up to the expectant gaze of the many craning heads.

It was a piece of oblong lead—a slug. Hpo Thit had lied, that was all, and had the ruby away with him—at least it was never found.

THE END.

CATS MAKE HIS LIVING.

A California Recluse Who Keeps Them For Rent to Business Men.

There is an odd little man named Echnier, who lives in an odd little house in the heart of the busiest portion of San Francisco, who earns his bread oddly enough. His business is the raising of cats, which he puts into warehouses, stores and other places infested with rats and mice, and his income is derived from payment for the services of his pets.

"Raising cats is my business," he said. "We get along all right, don't we, kitty? Kitty settled down on his knee and purred her answer."

"I see enough of them to like them," he went on, "for I feed between 150 and 200 every morning. This," pointing to a large basket, "I take full of meat, and that can in the corner is filled with milk. I go first to the warehouses on the docks, and then come farther up town to the business houses."

"I do not often sell a cat. I raise them, train them for awhile and then place them in some warehouse or store where the services of a cat are necessary. Then for so much a month I take care of them. Would you like to see where they play? If you come this way I will show you."

He opened a door and took me into a queer little court. Three sides of the enclosure are banked by buildings as old as the house where the cats live. The fourth side is a big brick structure, modern style. An attempt at a garden had been made, but even the lonely green geranium looks sorry and forlorn.

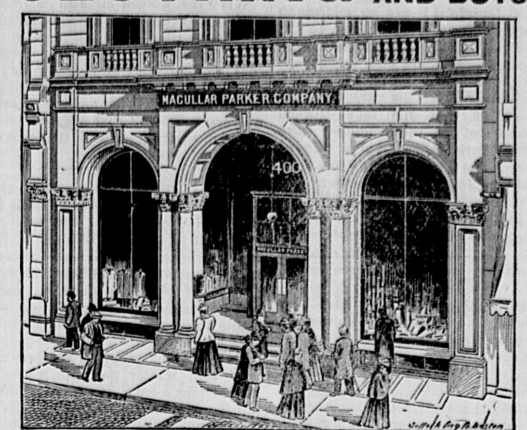

And the cats! If there were many in the house, there are many more out here. Asleep in a box of excelsior is a beauty. He is marked exactly like a tiger. As you pass through narrow, yellow eyes glance at you. If you bend to stroke him, there is a sudden whirl, and the next you see of the tiger he is on the roof of a shed, gazing at you in rather an unpleasant manner.

"Doesn't like to be disturbed," says Mr. Echnier. Down a pair of rickety stairs into the poor little garden, and you hear a great scampering of little feet, and now the rooms are full of disturbed kittens. They have just been fed and like to sleep a bit.

After awhile we go back into the house, and Mr. Echnier tells me how he lost his wife a few years ago, and since then he has lived all alone on the second floor of the shanty. "My only son is employed in the Smithsonian institution, in Washington," he says. "It's a bit lonely here, but my cats are company, you know."—San Francisco Call.

SECRETARY LONG HONORED.

The Republican Club dinner at Boston Wednesday night, left no doubt of the great regard felt by the people for the Hon. John D. Long, secretary of the navy, whose record in office is as much an honor to the country as it is to Massachusetts. It shines by contrast with that of Alger, and there is no doubt but that Secretary Long has done more to make the administration a creditable one than any other member of the cabinet. The applause that greeted every reference to the navy showed that his hearers appreciated this, and Republicans are the more grateful to Secretary Long, because he has given them one thing to which they can point with pride, without any mental reservations. Now if Secretary Long was a candidate for U. S. Senator instead of Mr. Lodge, the whole state would be unanimous for him, as every citizen would feel that he would fairly represent the best sentiment of the state, as Mr. Lodge does not. The chief attraction of the evening was of course the speech of Secretary Long, as that was what the great crowd came to hear, and it was well worth hearing. As a member of the administration, he felt bound to defend it, but in his desire to do this he startled his hearers by his comparison of McKinley with Lincoln. Lincoln did not defy public sentiment by retaining Cameron in his cabinet, after he had proved his unfitness, although Cameron would have been a comparison with Alger. This is only one illustration of the wide difference between the two men. Still, when one comes to read what Secretary Long really said, it can be seen that he made no claim that McKinley was the equal of Lincoln, as the paragraph was so shrewdly worded, that it is worth quoting, as an instance of a very neat way to give a compliment without making any direct assertion. Mr. Long said:

"What man would not almost wish that his right hand had been cut off rather than not have upheld Abraham Lincoln a third of a century ago? Let no man in Massachusetts a third of a century hence hang his head because his hand did not uphold and swell the electoral vote of every Republican candidate for Congress and of my friend, William McKinley, the disciple and the successor of Lincoln, in place, but in faith, of Abraham Lincoln."

BICYCLES AS BAGGAGE.

The L. A. W. is to make the carrying of wheels as baggage by the railroads an issue in this campaign, and Secretary Abbott Bassett has sent out a circular, giving the case from the wheelman's point of view.

As in New York state the railroads are compelled by law to carry wheels as baggage, and as one hundred and thirty-five American railroads carry wheels free, many of them voluntarily, there would seem to be no good reason why Massachusetts railroads should not be compelled to do the same.

Mr. Bassett says that wheelmen do not ask for special privileges, but only for the same treatment that is accorded to the owner of a big Saratoga trunk, for instance. Mr. Bassett sums up the case in a way that will be difficult for his opponents to answer, as follows:

"The railroads tell us that the bicycle is not baggage. They carry them as baggage and check them as such, but they charge for them at the express rate. If they are not baggage why do they allow them in the baggage car?"

"They tell us that if they take wheels as baggage, the baggage cars will be filled with them. It may be, but every wheel will have a passenger in the coaches who will pay a full cash fare. Who ever heard of a merchant who was afraid of getting too much business?"

"They tell us that the wheels are fragile and easily broken. A nineteen pound wheel will carry a two hundred pound man over hill and down dale, over pavements and along the roughest roads. Not very fragile. It is true that a baggage smasher cannot throw it about as he does a trunk, but wouldn't it be a good idea to give him so nothing he must be careful of? Perhaps he will be more careful with our trunks after handling bicycles. The railroads tell us that the carriage of wheels as baggage will put too much work on the baggage-man. The transportation of wheels has increased to an enormous extent in the last five years, and with this increase of baggage has come an increase of revenue to the roads. Does it appear that the baggage-man has shared in the increase? Not at all. The tendency has been to decrease wages and to cut down the number of employees. If the railroad magnates would share the increase with the baggage-man he would not ask for their sympathy."

"The railroads that carry wheels as baggage are content to continue and it is from the officials of these roads that we get the strongest arguments to show that it is profitable for the railroads to adopt this policy."

"The League of American Wheelmen is pledged to carry on this battle for wheelmen's rights until the New England railroads grant us what we are entitled to. The League represents the organized wheelmen of America. When we gain our point all wheelmen will reap the benefit of our efforts. A railroad man told us that if they could make a rule to carry the wheels

of League members free they would be glad to do it, but they can't, and the dirones will, as usual, eat of the honey that the workers produce."

MR. LANGFORD'S POSITION.

Mr. J. T. Langford issues an address to the voters of Newton, this week, that is worthy of their careful consideration. The subjects referred to are of vital importance to the city, and every one who has attended the caucuses has felt the vital necessity of some reform that shall take political nominations out of the condition into which they have fallen, where two or three people can practically decide upon the candidates, for whom the citizens will be allowed to vote, and bring them back to the conditions that prevailed in the old town meeting days. Then the voters controlled the nominations, and the caucuses were something more than a mere formality.

The caucus and election laws have been so amended and changed by politicians, that the people are fast losing all but the mere shadow of power, and it is time that a halt was called in this matter. Any unprejudiced person will admit, if he is in a candid mood, that our election laws are in a muddle at the present time, made so with more or less design on the part of those whose interest it is to control nominations. All the legislation on this matter in past years professed to be in the interests of "the dear people," but the reverse has been too often the case, the politicians were looking out for themselves, and the people as usual were left.

Mr. Langford is well fitted to inaugurate a reform of this kind, and he would do something to bring it about, if he was sent to the legislature. Why would it not be a good time this year for the voters of Newton to take matters into their own hands, and elect a representative who would make Newton's influence felt at the State House. Newton gets no favors, because it has always been so unanimous; it is well known that a nomination here has been equivalent to an election, and as somehow or other the nominations were always looked after, Newton has always been left to one side when state roads, or metropolitan parks, or any other state bounties were being given out. Possibly we may get something in the way of the Charles River Reservation, if we send such a wide awake man as Mr. Langford to look after it, and his election would make that improvement more certain.

He did not get the regular Republican nomination, it is true, but it is rather absurd to claim that there is any great virtue in that, especially to those who know how nominations are made nowadays. The only question at issue is what candidate will do most to advance the interests of Newton, and to further the cause of good government, and if voters only act conscientiously on these two principles, Mr. Langford will be elected.

SENATOR LODGE has given up his British spook, but he feels so lonesome without it that in his speeches outside of Massachusetts he is setting up a Spanish one in its place, and proclaims that a failure to vote for the Republican candidate will be to vote to encourage Spain to resist giving us the full fruits of our victories. Poor old Spain, as if it mattered whether she was "encouraged" or not, so thoroughly beaten is she, and Mr. Lodge makes himself ridiculous by such a plea. In Massachusetts he says very little about the expansionist scheme, and by "the full fruits of our victories" he probably means the Philippines, as he is in favor of grabbing everything in sight, but he will not put out such views in his own state, where the sentiment is against such a policy, until after the election. One of the issues involved is whether Massachusetts is to be misrepresented in the National Senate by Mr. Lodge, or by some one who more nearly represents the sentiments of her people.

APPROPOS of the recent reduction in the price of the New York Times, one of the most reputable papers of the country, Mr. E. S. Martin writes in Harper's Weekly: Most persons in New York who really aspire to keep abreast of the times seem nowadays to feel the need of looking through from four to ten papers daily. Time was when a family that took in a newspaper felt that it got the news. Now every prudent family takes in a paper or two for the news, and a few more as a precaution against being taken in. When you buy one or two newspapers a day the price doesn't matter much, but when you buy five or six, the extra pennies are of more moment. A good many thirty persons dislike as much to pay three cents for a newspaper as for a postage stamp.

CAPT. JAMES G. BLAINE, assistant adjutant general, has been "honorably discharged" for the good of the service. Other honorable discharges, also presumably for the good of the service, are Capt. Frederick M. Alger, who became so famous by his frequent mention in Shafter's despatches from Santiago, and Capt. James H. McMillan, son of Senator McMillan of Michigan. Both were assistant adjutant generals. It is said that these honorable discharges of men, appointed purely through favoritism, will be very frequent now, in order to avoid unpleasant references when the appointments of all these favored sons of their fathers come up for confirmation by the Senate.

THE suggestion to renounce the Congressional districts of the state, so that the ordinary citizen could know what district was meant, without an elaborate map, is an excellent one. Probably the great majority of our readers would be unable to tell in what Congressional district they live, but if it was named the Newton district, from the most important city in it, a good deal of confusion would be saved. As we seem unable to ever secure the nomination for a Newton citizen, calling the district after the name of our city would be some consolation.

THEY say that a vote of the Newton Club would be unanimous for Mr. Samuel L. Powers, our next mayor. He resigned some time ago his position as counsel for the Telephone company, and for the street railway company, on account of the demands of his private practice, so that the corporation argument could not be used against him. The question is, however,

whether he would be able to take the position, when it came to the point, now that the Mayor of Newton has to devote practically all of his time to the duties of the office.

WITH the woolen mills in financial difficulties, and those that have not failed, talking of shutting down for lack of orders, and the Ohio wool growers proclaiming that nothing short of a prohibitory tariff will bring them relief, Mr. Dingley must begin to feel that his tariff bill is not the universal cure-all that was predicted, for the high wool duties were the chief reason for its inception.

SOME of the papers are discussing the great difference it would have made in our history if Speaker Reed had been elected President in place of William McKinley. For one thing, Mr. Reed would never have made a speech and left his hearers in doubt as to just where he stood, on important public questions. There is no Delphic oracle nonsense about Tom Reed.

THE weather prophets are predicting a very cold winter and also a very warm one, and between them the goose bone and the muskrat must be in a quandary as to their preparations. It would seem safe, however, to predict a very wet season, judging from the experience of the past few weeks.

MR. FARRINGTON, the Democratic candidate for Senator, is endeavoring to inject some liveliness into the campaign in Newton, by challenging Senator Harwood to a public debate, the subject to be the Senator's votes in the Senate, on questions affecting corporations. The letter will be found on another page.

MR. DOOLEY of Chicago seems to be a worthy successor of Petroleum V. Nasby, as far as the humor of his observations on the war and its results are concerned, and his remarks on the Peace Jubilee dinner in Chicago must have caused even the Presidential party to laugh.

MR. LANGFORD has filed his nomination papers as a candidate for representative, and from now on to the election his friends should work to secure votes for him. It would be a good thing all round to send an independent candidate from Newton.

—Mr. F. W. Stearns of 269 Park street will pay a liberal reward for the return of a dark brindle Boston terrier puppy, about 3 months old, which has strayed away from his house. Particulars in adv. on first page.

—A course of three instructive lectures on cooking was given Monday, Tuesday and Wednesday afternoon in Eliot lower hall, by Mrs. E. J. Earle. As an advertisement for a popular food product, several demonstrations were made which proved highly successful.

—Mr. Eleazer Kempshall of Durant street will be married next Wednesday, to Mrs. Eunice Graves, at the home of the latter on Summer street, Newton Centre. The guests will be limited to the relatives and the most intimate friends of the contracting parties.

—Mr. and Mrs. Charles Jameson Brown gave a reception at their home on Charlesbank road, Friday evening of last week, in celebration of their 25th wedding anniversary. The guests included some one hundred friends from the Newtons and out of town. In the house were many floral decorations. Among the gifts was a silver cake dish presented by the Hunnewell Whist Club.

—Corporal Joseph Holmes of the 6th Mass., U. S. V., returned yesterday with his regiment, and he is at his home on Adams street. He is in excellent health, barring a slight cold contracted on the steamer coming north. Especially his condition is first class, and he lost but 6 pounds of flesh. Corporal Holmes was formerly employed at City Hall in the engineer's office. He is a graduate of the high school, and has many friends here.

—The Sarah Hull Chapter, D. R., met with Mrs. Edwin B. Rogers, 14 Washington street, Newton, on Thursday, Oct. 27, from 3 until 6 o'clock. The Regent, Mrs. Ferris, cordially welcomed the chapter to its first meeting for the season. After the usual business, a very delightful musical and literary program was offered. Mrs. Ella Wingate Ireland gave an interesting paper on her work and experience at Camp Wilcox. "Fighting Joe," was read by Mrs. Anna Bailey. Several vocal selections were charmingly rendered by Mrs. Harris and Miss Rowe. The chapter united in singing America as the closing number. A social hour followed, during which refreshments were daintily served by the young

ladies of the chapter. Miss Hunt, state regent, was present as a guest.

—Miss Emma Walker has returned from Rangeley Lakes, Me.

—Thanksgiving afternoon and evening the Newton Social Club will hold a dance in Armory hall.

—Private Edward Graves of Co. B, 9th Mass., U. S. V., was here this week on a thirty days furlough.

—Slight repairs at trifling cost will greatly extend the usefulness of your shirts. See Blackwell's adv. on page 8.

—Mr. Chas. A. Haskell was chosen trustee from the Eliot church, at the annual meeting of the North Evangelical society.

—Fourteen of Newton's prominent physicians are among the large number of patrons at Burns', Cole's block, barber shop.

—Mrs. S. W. Simpson of Hunnewell terrace, state superintendent of the Flower Mission, is in Palermo, Me., taking a much needed rest.

—The subject "Foreign Missions" was discussed at the meeting of the Eliot Church Women's Association, Tuesday afternoon, in the chapel.

—The work of macadamizing Centre street from Bellevue to the Boston & Albany bridge was begun this week by the highway department laborers.

—Rev. W. E. Witter of the New England branch of the American Baptist Missionary Union, spoke at last Sunday's evening meeting at the Baptist church.

—Prof. and Mrs. George K. Morris, accompanied by Mrs. Morris' mother, arrived this week from New Jersey and have moved into the Sawin house on Maple avenue.

—A meeting of the Ladies' Social was held Wednesday afternoon in the parlors of the Methodist church. Supper was served at 6.30, followed by an informal entertainment program.

—1st Lieut. William Decker, Co. I, 6th Mass., U. S. V., formerly of this city, but now of Concord, is expected home this week. Mrs. Decker and her son formerly resided on Church street, and have a large number of friends here.

—At their residence on Charlesbank road, Tuesday evening, Patrolman and Mrs. John McNeil gave a wedding reception to a large number of friends. Among those present were many brother officers and acquaintances. Mr. and Mrs. McNeil were assisted by Mr. Peter McNeil of Bridgewater.

—Several complaints have come to the police this week from Chinese laundrymen who complain that they are annoyed evenings by boys. The windows of Hing Lee's laundry on Elmwood street were broken by stones on two occasions. It is likely that some boys will appear in court as a result of the investigation now being made by the police.

—Mr. George W. Bush, proprietor of the Elmwood stables, has installed this week a new Chicago Flexible Clipping machine. It is of the most approved pattern, and is considered far superior to any similar device used for clipping horses. The fact that it requires much less time than the old hand method, makes it extremely desirable. Mr. Bush invites inspection of the new machine.

—Miss Alice M. Butler of 26 Walnut street, Cambridge, was walking on Centre street in front of the new addition to the Stevens building about 8.45 o'clock, last Saturday morning, when a portion of the concrete gave way, throwing her on the ground. She received a cut over the right eye and several bruises. The accident, it is said, is due to the fact that some time last week the sidewalk had been tunneled and the heavy rain had caused the earth to loosen.

—It is difficult to recognize the rejuvenated Newton postoffice, and box holders find it even more difficult to remember the combination by which to open their boxes. The new authorities would provide some reliable postal communication between the Newton villages, and put on enough carriers to deliver the mail promptly, the people would have less cause for complaint. Perhaps the new street car mail service may accomplish better results than the old system.

Shrubs and Trees.

Fall is the best time to set out shrubs and trees, and the Wellesley Nursery Co. of Newton Lower Falls, have a fine assortment of all the desirable kinds. Their stock is all acclimated and sure to do well in this climate, and this is a great advantage to those who wish satisfactory results. Send an order and you will be more than satisfied. See adv.

"AT THE KING'S HEAD"

NEWTONVILLE.

—Ivers & Pond pianos, Farley, Newton.

—Mr. and Mrs. Barrett are receiving congratulations on the birth of a son.

—The next regular meeting of Boynton Lodge will be Tuesday afternoon, Nov. 8.

—Mrs. Pierce, who was the guest of Mr. and Mrs. H. A. Patterson, has returned to her home in Bangor.

—Mr. A. L. Lindsay of Highland avenue is away from town on a ten days' business trip to Baltimore and other places.

—"Signs of Growth in Grace" will be the subject at the social meeting in the Congregational church this evening.

—Odd Ladies of Boynton Lodge will hold a Halloween party next Monday evening, Oct. 31st, in Dennison hall.

—Mr. W. O. Tuttle of Harvard street left this week for Maine where he will enjoy a short hunting and fishing trip.

—The Charity Square held its monthly meeting Wednesday afternoon in the parlors of the Central Congregational church.

—The Hazel kindergarten will open next Monday under the management of Miss Jasmine Van Anderson, at her home on Harvard street.

—A number of Newtonville ladies attended the annual meeting of the Woman's Home Missionary Association in Berkeley Temple, Boston, Wednesday.

—Mr. H. A. Patterson left this week for Dublin, N. H., where he has made a contract to erect a fine residence during the winter season, for a St. Louis party.

—Rev. Wm. Henry Rider of the Independent Christian church in Gloucester, will preach at the Washington Park Universalist church, Sunday morning at 10.45 a. m.

—Dr. Frances Howard Parlow of the Palace Hotel, San Francisco, arrived in Newtonville this week, as the guest of Mrs. William Rumery, 410 Newtonville avenue.

—The ladies of the M. E. church have voted to discontinue their customary fair this fall, and will raise their usual contribution to the church expenses by private subscription.

—Mr. Charles W. Davidson was the leader at the Y. P. S. C. E. meeting at the Central Congregational church, Sunday evening. The subject was "A Christian's Independence."

—The Newtonville Woman's Guild will meet Tuesday afternoon in the New church parlors, Highland avenue. A paper will be read by Mrs. Chaloner, illustrated by water colors by Mr. Chaloner.

—There are letters remaining in the post office for John Garvey, 325 Washington street, Mr. Edwin Charles Spooner, Clarence W. Wright, Mrs. Marietta Goddard, and Mrs. Kate McKinnon.

—Gethsemane Commandery, Knights Templar, held a convocation Tuesday evening. The Red Cross degree was worked on several candidates. A collation was served at the close of the business meeting.

—Dr. Pettet of Japan, who has been identified with Mr. Ishi's famous orphanage at Yokohama, will preach at Central Congregational church next Sunday morning at 10.45 a. m. All are cordially invited.

—The lectures by Mrs. E. J. Earl in Dennison hall, Thursday and Friday afternoons, were well attended. Mrs. Earl is a graduate of the Boston Cooking School, and also of the New Era Cooking School of Worcester.

—The Universalist Sunday school party last Friday evening was voted a success by the young people, and many requests for a repetition were heard. Games, music and other attractions were enjoyed, and ice cream and cake were served during the evening.

—Rev. Helen Van Anderson tendered a reception to the members of the Church of the Higher Life, of which she is pastor, Wednesday evening, at her home on Harvard street. A large number of guests were present, and the musical selections were rendered and refreshments were served.

—Col. Frank B. Stevens of this place was a member of the reception committee at the annual dinner given by the Republican Club of Massachusetts, Wednesday evening, at Music Hall, Boston. Mr. Robert C. Brigham was a member of the dinner committee on the same occasion.

—Ground was broken Tuesday, on the lot, corner of Washington street and Central avenue. It is understood that Hon. W. E. Claflin is to erect a block extending from Claflin block to the corner of Central avenue. The excavation is progressing rapidly and work will begin immediately. Mr. E. P. Barnham has the contract.

—On Magnolia field, last Saturday afternoon, the Grace church choir boys defeated the Bigelow school by a score of 10 to 0. The school boys put up a stronger game, and it seemed as though the match might have resulted in a draw, and not been for the timekeeper's partiality towards the choir.

—Mr. Edward L. Douglas, who has been an observer at the Boston station of the Weather Bureau, has been assigned to the Northfield, Vermont, station. He entered upon his new duties this week. Mr. Douglas has entered the service in June, 1888, at Boston, and was later in charge of stations at Fort Buford, Miles City, and Bismark, and also as an observer at New Orleans.

—Last Sunday was observed throughout the country as "Prison Sunday." Special services were held in the Universalist church. Mr. Nielsen was assisted by Warren F. Spaulding, Esq., who gave an interesting and instructive address on "Prisoners and Prisons." Mr. Spaulding is the efficient secretary of the Massachusetts Prison Association, and is an able speaker.

—The funeral of Mrs. Martha J. Fenno, widow of James W. Fenno, who died last Monday, took place yesterday afternoon at 3 o'clock, from the residence, 83 Walker street. Only relatives and intimate friends were present. The services were conducted by the Rev. Abel Millard of St. John's parish, assisted by the Rev. Dr. Shinn of Newton. There were many floral tributes. The interment was at the Newton cemetery.

—Mrs. Munson of New Bedford was the guest of friends here for a few days this week.

—The ladies of the Congregational church are getting up a novel entertainment to be given the middle of November.

—John Eliot Lodge, A. O. U. W., held a meeting Wednesday evening. One candidate was initiated and several applications were received.

—The monthly meeting of the Newton Veteran Firemen's Association will be held Wednesday evening in the engine house, Watertown street.

—The local branch of the American Legion of Honor will hold a business meeting Tuesday evening. A good attendance is especially requested.

—The degree team of John Eliot Lodge, A. O. U. W., in their nativity uniforms, formed a portion of the grand parade in Boston, Thursday evening.

—A devotional and Fellowship meeting will be held in the Congregational church this evening. The subject will be "To Get, vs To Give—which is Christian?"

—The annual reception of the West Newton Women's Educational Club will be held this afternoon at the home of the president, Mrs. E. N. L. Walton, from 3 to 5.

—In court Monday morning Louis Meline and Antonio Derocei were charged with insulting women on Washington street, Sunday evening. Meline was fined \$15 and Derocei \$10.

—The members of the West Newton Volunteer Aid Association are requested to meet at the home of the president, Mrs. C. H. Stacy, 33 Henshaw street, on Tuesday afternoon, Nov. 1, at 3 o'clock.

—The next regular meeting of the Newton Ladies Home Circle will be held in the Unitarian church parlors on Wednesday, Nov. 2, at 2 o'clock. Business of especial interest. A full attendance desired.

—Frank W. Smith has sold for a private consideration, three lots of vacant land situated on Warwick road, West Newton. D. M. Clute is the purchaser, and will improve. There are about 15,000 square feet.

—Mrs. E. J. Earl, graduate of the Boston Cooking School, will give a chafing dish demonstration at Odd Fellows hall, Monday afternoon, Oct. 31st, at 2.30 o'clock. Free to housekeepers. Handsome souvenir cook book presented each lady attending.

—The Ladies' Aid society met Monday afternoon in the parlors of the Unitarian church. Arrangements are being made for a fair to be held Tuesday and Wednesday evenings, Nov. 29th and 30th. The society will meet every Monday until the date of the fair.

—The Christian Endeavor Society connected with the Baptist church held a harvest social last evening in the church vestry. Each guest was requested to bring a tribute in the form of fruit or vegetable, and a fine display was the result. A pleasing entertainment was enjoyed.

—The Ladies' Home Mission Circle held its monthly meeting Wednesday afternoon at the home of Mrs. S. N. Waters, Webster park. Several interesting papers were presented and pleasing musical selections were rendered. A social hour followed the business meeting and a dainty collation was served.

—One of our Newton boys wins deserved laurels at Amherst College. Mr. Paul Waters was the fortunate winner of the \$2000 scholarship prize. Numerous telegrams and letters of congratulation were sent him by his former teachers and classmates. Mr. Waters was also the recipient of a \$100 scholarship as a reward for his long standing in the Newton High school.

—The first sociable of the season was held Friday evening in the parlors of the Unitarian church. It was in the form of a reception to Rev. and Mrs. Jaynes after their summer vacation. Mr. and Mrs. J. C. Melville assisted the pastor and his wife to receive. There was a large attendance in spite of the severe storm. Music was furnished by the Mandolin Club. Refreshments were served.

—The finance committee of the board of aldermen met, Monday evening, and commenced the consideration of the mayor's estimates for the annual appropriation budget. At this meeting few changes in the mayor's recommendations were made, and it is expected that the budget will be reported to the board practically as made up by the mayor. The committee will probably have its report ready for presentation Nov. 8.

—The residence of Mr. and Mrs. Laurie, Highland street, was the scene of a pretty social gathering Tuesday evening. The occasion was the "at home" of Mr. and Mrs. Warren F. Gregory. The receiving party consisted of Mr. and Mrs. Gregory and Mr. and Mrs. Laurie. The house was handsomely decorated with ferns, potted plants and a profusion of cut flowers. A dainty collation was served and music was another pleasant feature.

—The special day of prayer, appointed by Miss Greenwood, national superintendent of the Evangelist department of the W. C. T. U., was observed Tuesday by the local branch. The meeting opened with an address by Mrs. Earle, county superintendent of the Union on "The Price of the Laborer," she was followed by Mrs. Todd, state superintendent. Her subject was "Christ as a Man of Prayer." Mrs. Earle also sang several selections in a most pleasing manner.

—Mr. William D. Brewer, Jr., a well-known young man of this place, died Monday at Centre Harbor, N. H., where he was stopping for his health. Mr. Brewer was the son of W. D. Brewer, Sr., of Elm street and was born and brought up in this place. Since leaving college he has conducted a law office at 30 Court street, Boston. He was, however, been unable to practice to any great extent on account of poor health. He was 35 years of age and unmarried. The funeral services took place Wednesday afternoon. Interment was at Forest Hills.

—A large part of Auburndale and West Newton was in total darkness after 9, Wednesday evening, and the former village was completely isolated from other parts of Newton and Waltham so far as street railway service was concerned. Just after 9 a huge tree on Lexington street, near Wolcott street, Auburndale, was blown down. The tree in falling tore down a large section of trolley wire belonging to the Newton Street Railroad Company, and snapped the Auburndale feed wire of the Newton and Watertown electric light company. The damage in both instances was considerable, and it was found impossible to repair the breaks that night. The street was completely blocked by the debris of the tree and broken fragments of

electric light and trolley poles, combined with a tangle of wires.

—Rev. Theodore P. Prudden gave a short address at the vesper service at the Congregational chapel Sunday evening.

—Mr. and Mrs. R. Williams of Hartland, Me., are the guests of Mrs. Seth Davis, Watertown street, for a few days.

—John Ayres has been appointed driver of the police patrol. He was formerly employed by Woodbury, the grocer.

—The Unitarian Sunday school are arranged at 7.30. There was a roll call and a special platform entertainment will be presented.

—A series of half hour talks on the Life of Jesus, illustrated by stereopticon views, will be given Sunday evenings, in the chapel of the Baptist church. The first will be given next Sunday evening at 7 p. m.

—A reception was tendered to Rev. and Mrs. Prudden, Thursday evening, in the parlors of the Congregational church. There was a large attendance to greet the pastor and his wife. The parlors were tastefully decorated with potted plants and cut flowers. Music was furnished by Atwood's orchestra. Refreshments were served during the evening.

—The annual Fellowship meeting, 117th anniversary of the Second Congregational church, was held Friday evening. There was a pleasant social gathering in the parlors at 7 o'clock followed by service in the chapel at 7.30. There was a roll call to which responses were made by scripture citations, personal acknowledgements or written communications.

AUBURNDAL.

—For other news see seventh page.

—The case of Clarence A. Dubois, who was arraigned in court last Saturday on two charges of the violation of the liquor law, came up this morning before Judge Kennedy, and was again continued until Nov. 5th, at the request of the government.

NEWTON UPPER FALLS.

—The house on Eliot street, known as the old folk's home, was the object for the amusement of several boys who demolished 28 lights of glass one evening this week.

NEWTON LOWER FALLS.

—There will be a "Harvest Supper" and entertainment in St. Mary's parish house next Tuesday evening, Nov. 1st. Members of the Boston School of Expression will give readings and recitations. There will be games with music and singing. Supper will be served at 6 o'clock. The entertainment will open at 7.30. The supper is under the direction of Miss Sarah A. Jordan, assisted by her Bible class and several ladies of the parish. The proceeds will be devoted to the needs of the church. The supper will be a pleasant feature and the public is invited.

A BATTLE FROM MID-AIR.

THE UNIQUE EXPERIENCE OF SERGT. BOONE TOLD IN THE BOSTON SUNDAY JOURNAL.

The sight of a battle from mid-air, directly above the firing line, and the experience of this being a target for the whole enemy opposed, describes in a measure the position of Sergt. Thos. C. Boone of the Second Massachusetts Regiment during the battle of San Juan. He was the telegrapher on duty in this modern engine of warfare. He tells graphically of the exciting events that attended this work. In next Sunday's Boston Sunday Journal, this article being one of the series of "Personal Experiences of New England Men in the War." It is a feature as this that is taking the new Sunday Journal into thousands of additional homes each week.

The homecoming of the Sixth Massachusetts is made the occasion for the publishing next Sunday of a number of photographs which illustrate the whole career of that regiment from its departure from Boston to its return from Porto Rico to friends and home.

The trip of President McKinley in the West is interestingly described from a personal standpoint by George Grantham Bain, the Journal's special correspondent, with the Presidential party, and illustrated by photographs.

These are but examples of the features which are marking the rapid advance of the new Boston Sunday Journal in the eyes of the people of New England. Those who do not see each Sunday, miss a good thing.

Lodge and Long.

But Senator Lodge, in the opening passages of his superb speech, spoke most effectively the thought which is in the heart of Massachusetts when he said that if the man at the helm of the navy department had not been the statesman and the patriot he was and is, all the elaborate organization under him would have missed its full purpose and fallen short of the highest expectations of the American people.

Very pretty and fitting, to be sure. The senator's present satisfaction recalls that famous visit to President-elect McKinley, when the latter told the ex-gov. Long's health would not permit him to assume the burdens of a cabinet position. Happily Mr. McKinley's "information and observation" were of a different sort (our ex-gov. had already been elected to Canton), and so John D. Long went into the new cabinet as secretary of that navy, and Senator Lodge can now rejoice in the success of the man who was not his choice.

No True Republican Wants Malays.

[From the Boston Record.]

The great reception given to Gov. Long last night, and his very discreet, calm speech, show that he does not have to depend for his popularity on any cheap claptrap about our "duty" to take 100,000 Malays in this country, and also that the Republicans of this state can find something to admire in a man who is as effective in action and as moderate in committing himself as he. The future of this country, for every principle of which New England is interested, is hazarded every two years by the congressional vote in the South, where a similar number of blacks are counted, but not represented in electing congressmen. No true lover of the Republic has at a moment's consideration any scheme to load us down with a Malay population, compared with which our colored people are paragons in every respect of education, intelligence and virtue.

Spoilsman Rampant.

Complaints of assessing federal officeholders for Republican campaign purposes—the latest coming from ex-Gov. Basil of New Hampshire; renewed reports from Washington that the president is to modify the civil service rules and rescue office holders for the spoilsman; and wide activity of office holders in partisan politics—such are the latest manifestations of this administration's love for reform. It has evidently become a "parochial question" of comparatively small consequence—Springfield Republican.

Newton Single Tax Club.

The next regular meeting will be held at 230 Bellevue street, Monday evening, Oct. 31st, at 7.45. Subject, "Natural Taxation."

Y. M. C. A.

The penmanship class begins next Tuesday evening. Instructions by an expert. \$1.50 for twenty lessons.

Rev. Ezra H. Byington, D. D., will speak at the men's meeting 4 p. m., Sunday. All men cordially invited.

The Newton Y. M. C. A. athletic team was defeated by a small margin by the Somerville Y. M. C. A. team at Somerville, last Tuesday evening. The score stood 49.9 to 32.1 points. Mr. E. R. Adams of the Newton team won first place, however, by obtaining 22 points against 17 by Carpenter, Somerville's best man. The next meet will be held in Newton, Nov. 29.

High class lectures and concerts will be held during the season, Oct. 15, lecture by Charles Barnard, "The Ship," illustrated with stereopticon; Dec. 14, lecture by Rev. A. A. Wright, "How wide is an inch?" Dec. 28, "Reminiscences of Twelve Years Before the Mast," by Stanton H. King. Wonders of the Sea exhibited; Jan. 25, lecture by Chief of Police Tarbox, "Duties of the Police," Feb. 5, concert by Prof. J. Jay Watson, America's celebrated violinist, pupil of Ole Bull, assisted by high class talent; Thursday, Feb. 23, concert by the Massachusetts Institute of Technology Glee, Mandolin and Guitar Clubs. \$1 will admit to entire course. Members of the Y. M. C. A. admitted free.

Merchants! Read This!

In these days of modern civilization, intelligent men and women want nothing but the very best goods obtainable.

In silks and threads as well as any other merchandise, a good and reliable article that has been put to the test and has not been found wanting in any particular, goes to the head of its line, and "stays there," in spite of the efforts of its many competitors.

This place is now, and has been for the last 35 years, occupied by Cutter's, a silk which hardly needs an introduction to the public, and which reigns supreme.

It is an absolute necessity that every merchant making a specialty of dry and fancy goods, and wishing to please his trade, should keep on hand a large stock of this Cutter's silk, in the standard colors as well as the new fall shades.

This silk is wholesaled by John C. Meyer & Co., 87 Summer street, Boston, Mass. They also carry a full line of the Meyer threads, celebrated for their smoothness, finish and durability. Give them a call.

FIVE HUNDRED CARATS.

By GEORGE GRIFFITH.

[Copyright, 1898, by the Author.]

It was several months after the brilliant if somewhat mysterious recovery of the £15,000 parcel from the notorious but now vanished Seth Salter that I had the pleasure, and I think I may fairly add the privilege, of making the acquaintance of Inspector Lipinski.

I can say without hesitation that in the course of wanderings which have led me over a considerable portion of the lands and seas of the world I have never met a more interesting man than he was. I say "was," poor fellow, for he is now no longer anything but a memory of bitterness to the I. D. B., but that must be told in another place.

There is no need of further explanation of the all too brief intimacy which followed our introduction than the statement of the fact that the greatest South African detective of his day was after all a man as well as a detective, and hence not only justifiably proud of the many brilliant achievements which illustrated his career, but also by no means loath that some day the story of them should, with all due and proper precautions and reservations, be told to a wider and possibly less prejudiced audience than the motley and migratory population of the camp as it was in his day.

I had not been five minutes in the cozy, tastefully furnished sanctum of his low, broad roofed bungalow in New De Beers road before I saw it was a mu-

"I took a long drive at my wheel."

seum as well as a study. Specimens of all sorts of queer apparatus employed by the I. D. B. for smuggling diamonds were scattered over the tables and mantelpiece.

There were massive, handsomely carved brier and meerschaum pipes, which seemed to hold wonderfully little tobacco for their size; rough sticks of firewood ingeniously hollowed out, which must have been worth a good round sum in their time; hollow handles of traveling trunks; ladies' boot heels of the fashion affected on a memorable occasion by Mrs. Michael Muratti; and novels, hymnbooks, church services and Bibles, with cavities cut out of the center of their leaves which had once held thousands of pounds' worth of illicit stones on their unsuspected passage through the book post.

But none of these interested or indeed puzzled me so much as did a couple of curiously assorted articles which lay under a little glass case on a corner bracket. One was an ordinary piece of heavy lead tubing about three inches long and an inch in diameter, sealed by fusing at both ends, and having a little brass tap fused into one end. The other was a little ragged piece of dirty red sheet india rubber, very thin—in fact, almost transparent—and, roughly speaking, four or five inches square.

I was looking at these things, wondering what on earth could be the connection between them and what manner of strange story might be connected with them, when the inspector came in. "Good evening. Glad to see you," he said in his quiet and almost gentle voice and without a trace of foreign accent as we shook hands. "Well, what do you think of my museum? I dare say you've guessed already that if some of these things could speak they could keep your readers entertained for some little time, eh?"

"Well, there is no reason why their owner shouldn't speak for them," I said, making the obvious reply, "provided always, of course, that it wouldn't be giving away too many secrets of state."

"My dear sir," he said, with a smile which curled up the ends of his little black carefully trimmed mustache ever so slightly. "I should not have made you the promise I did at the club the other night if I had not been prepared to rely absolutely on your discretion—and my own. Now, there's the whisky and soda or brandy. Which do you prefer? You smoke, of course, and I think you'll find these pretty good, and that chair I can recommend. I have unraveled many a knotty problem in it, I can tell you."

"And now," he went on when we were at last comfortably settled, "may I ask which of my relics has most aroused your professional curiosity?"

It was already on the tip of my tongue to ask for the story of the gas pipe and piece of india rubber, but the inspector forestalled me by saying: "But perhaps that is hardly a fair question, as they will all probably seem pretty strange to you. Now, for instance, I saw you looking at two of my curios when I came in. You would hardly expect them to be associated, and very intimately, too, with about the most daring and skillfully planned diamond robbery that ever took place on the fields, or off them, for the matter of that, would you?"

"Hardly," I said, "and yet I think I

have learned enough of the devious ways of the I. D. B. to be prepared for a perfectly logical explanation of the fact."

"As logical as I think I may fairly say romantic," replied the inspector as he set his glass down. "In one sense it was the most ticklish problem that I've ever had to tackle. Of course you've heard some version or other of the disappearance of the great De Beers diamond?"

"I should rather think I had," I said, with a decided thrill of pleasurable anticipation, for I felt sure that now, if ever, I was going to get to the bottom of the great mystery. "Everybody in camp seems to have a different version of it, and of course every one seems to think that if he had only had the management of the case the mystery would have been solved long ago."

"It is invariably the case," said the inspector, with another of his quiet, pleasant smiles, "that every one can do work better than those whose reputation depends upon the doing of it. We are not altogether fools at the department, and yet I have to confess that I myself was in ignorance as to just how that diamond disappeared or where it got to until within 12 hours ago."

"Now, I am going to tell you the facts exactly as they are, but under the condition that you will alter all the names except, if you choose, my own and that you will not publish the story for at least 12 months to come. There are personal and private reasons for this which you will probably understand without my stating them. Of course it will in time leak out into the papers, although there has been and will be no prosecution, but anything in the newspapers will of necessity be garbled and incorrect, and—well, I may as well confess that I am sufficiently vain to wish that my share in the transaction shall not be left altogether to the tender mercies of the imaginative penny-aliner."

I acknowledged the compliment with a bow as graceful as the easiness of the inspector's chair would allow me to make, but I said nothing, as I wanted to get to the story.

"I had better begin at the beginning," the inspector went on as he meditatively snipped the end of a fresh cigar. "As I suppose you already know, the largest and most valuable diamond ever found on these fields was a really magnificent stone, a perfect octahedron, pure white, without a flaw and weighing close on 500 carats. There's a photograph of it there on the mantelpiece. I've got another one by me. I'll give it you before you leave Kimberley."

"Well, this stone was found about six months ago in one of the drives on the 500 foot level of the Kimberley mine. It was taken by the overseer straight to the De Beers' offices and placed on the secretary's desk—you know where he sits, on the right hand side as you go into the boardroom through the green baize door. There were several of the directors present at the time, and, as you may imagine, they were pretty well pleased at the find, for the stone, without any exaggeration, was worth a prince's ransom."

"Of course I needn't tell you that the value per carat of a diamond which is perfect and of a good color increases in a sort of geometrical progression with the size. I dare say that that stone was worth anywhere between £1,000,000 and £2,000,000, according to the depth of the purchaser's purse. It was worth to adorn the proudest crown in the world instead of—but there, you'll think me a very poor story teller if I anticipate."

"Well, the diamond, after being duly admired, was taken up stairs to the diamond room by the secretary himself, accompanied by two of the directors. Of course you have been through the new offices of De Beers, but still perhaps I had better just run over the ground, as the locality is rather important."

"You know that when you get up stairs and turn to the right on the landing from the top of the staircase there is a door with a little grille in it. You knock, a trapdoor is raised, and if you are recognized and your business warrants it you are admitted. Then you go along a little passage, out of which a room opens on the left, and in front of you is another door, leading into the diamond rooms themselves."

"You know, too, that in the main room fronting Stockdale street and Jones street the diamond tables run round the two sides under the windows and are raised off from the rest of the room by a single light wooden rail. There is a table in the middle of the room, and on your right hand as you go in there is a big safe standing against the wall. You will remember, too, that in the corner exactly facing the door stands the glass case containing the diamond scales. I want you particularly to recall the fact that these scales stand diagonally across the corner by the window. The secondary room, as you know, opens out on to the left, but that is not of much consequence."

I signified my remembrance of these details, and the inspector went on:

"The diamond was first put in the scale and weighed in the presence of the secretary and the two directors by one of the higher officials, a licensed diamond broker and a most trusted employee of De Beers, whom you may call Philip Marsden when you come to write the story. The weight, as I told you, in round figures was 500 carats. The stone was then photographed, partly for purposes of identification and partly as a reminder of the biggest stone ever found in Kimberley in its rough state."

"The gem was then handed over to Mr. Marsden's care pending the departure of the diamond post to Vryburg on the following Monday—this was a Tuesday. The secretary saw it locked up in the big safe by Mr. Marsden, who, as usual, was accompanied by another official, a younger man than himself, whom you can call Henry Lomas, a connection of his, and also one of the most trusted members of the staff."

"Every day, and sometimes two or three times a day, either the secretary or one or other of the directors came up and had a look at the big stone, either for their own satisfaction or to show it to some of their more intimate friends. I ought perhaps to have told you before that the whole diamond room staff were practically sworn to secrecy on the subject, because, as you will readily understand, it was not considered desirable for such an exceedingly valuable find to be made public property in a place like this. When Saturday came, it was decided not to send it down to Cape Town, for some reasons connected with the state of the market. When the safe was opened on Monday morning, the stone was gone."

"I needn't attempt to describe the absolute panic which followed. It had been seen two or three times in the safe on the Saturday, and the secretary himself was positive that it was there at closing time, because he saw it just as the safe was being locked for the night. In fact, he actually saw it put in, for it had been taken out to show to a friend of his a few minutes before."

"The safe had not been tampered with, nor could it have been unlocked, because when it is closed for the night it cannot be opened again unless either the secretary or the managing director is present, as they have each a master key, without which the key used during the day is of no use."

"Of course I was sent for immediately, and I admit that I was fairly staggered. If the secretary had not been so positive that the stone was locked up when he saw the safe closed on the Saturday, I should have worked upon the theory—the only possible one, as it seemed—that the stone had been abstracted from the safe during the day, concealed in the room and somehow or other smuggled out, although even that would have been almost impossible in consequence of the strictness of the searching system and the almost certain discovery which must have followed an attempt to get it out of town."

"Both the rooms were searched in every nook and cranny. The whole staff, naturally feeling that every one of them must be suspected, immediately volunteered to submit to any process of search that I might think satisfactory, and I can assure you the search was a very thorough one."

"Nothing was found, and when we had done there wasn't a scintilla of evidence to warrant us in suspecting anybody. It is true that the diamond was last actually seen by the secretary in charge of Mr. Marsden and Mr. Lomas. Mr. Marsden opened the safe, Mr. Lomas put the tray containing the big stone and several other fine ones into its usual compartment, and the safe door was locked. Therefore that fact went for nothing."

"You know, I suppose, that one of the diamond room staff always remains all night in the room. There is at least one night watchman on every landing, and the frontages are patrolled all night by armed men of the special police. Lomas was on duty on the Saturday night. He was searched as usual when he came off duty on Sunday morning. Nothing was found, and I recognized that it was absolutely impossible that he could have brought the diamond out of the room or passed it to any confederate in the street without being discovered. Therefore, though at first sight suspicion might have pointed to him as being the one who was apparently last in the room with the diamond, there was absolutely no reason to connect that fact with its disappearance."

"I must say that that is a great deal plainer and more matter of fact than any of the other stories that I have heard of the mysterious disappearance. I said as the inspector paused to refill his glass and ask me to do likewise."

"Yes," he said dryly, "the truth is more commonplace up to a certain point than the sort of stories that a stranger will find floating about Kimberley, but still I dare say you have found in your own profession that it sometimes has a way of—to put it in sporting language—giving fiction a seven pound handicap and beating it in a canter."

"For my own part," I answered, with an affirmative nod, "my money would go on fact every time. Therefore it would go on now if I were betting. At any rate I may say that none of the fiction that I have so far heard has offered even a reasonable explanation of the disappearance of that diamond, given the conditions which you have just stated, and as far as I can see I admit that I couldn't give the remotest guess at the solution of the mystery."

"That's exactly what I said to myself after I had been worrying day and night for more than a week over it," said the inspector, "and then," he went on, suddenly getting up from his seat and beginning to walk up and down the room with quick, irregular strides, "all of a sudden in the middle of a very much smaller puzzle, just one of the common I. D. B. cases we have almost every week, the whole of the work that I was engaged upon vanished from my mind, leaving it for the moment a perfect blank. Then, like a lightning flash out of a black cloud, there came a momentary ray of light which showed me the clew to the mystery. That was the idea. These," he said, stopping in front of the mantelpiece and putting his finger on the glass case which covered the two relics which had started the story, "these were the materialization of it."

"And yet, my dear inspector," I ventured to interrupt, "you will perhaps pardon me for saying that your ray of light leaves me as much in the dark as ever."

should spring the solution of the mystery upon me. Then he stopped and said abruptly:

"I didn't tell you that the next morning—that is to say, Sunday—Mr. Marsden went out on horseback, shooting, in the veldt, up toward that range of hills which lies over yonder to the northward, between here and Barkly West. I can see by your face that you are already asking yourself what that has got to do with spiriting a million or so's worth of crystallized carbon out of the safe at De Beers'. Well, a little patience and you shall see."

"Early that same Sunday morning I was walking down Stockdale street, in front of the De Beers' offices, smoking a cigar, and of course worrying my brains about the diamond. I took a long draw at my weed and quite involuntarily put my head back and blew it up into the air—there, just like that—and the cloud drifted diagonally across the street dead in the direction of the hills on which Mr. Philip Marsden would just then be hunting buck. At the same instant the revelation which had scattered my thoughts about the other little case that I mentioned just now came back to me. I saw, with my mind's eye of course—well, now, what do you think I saw?"

"If it wouldn't spoil an incomparable detective," I said somewhat irrelevantly, "I should say that you would make an excellent story teller. Never mind what I think. I'm in the plastic condition just now. I am receiving impressions, not making them. Now, what did you see?"

"I saw the great De Beers diamond—say, from £1,000,000 to £1,500,000 worth of concentrated capital—floating from the upper story of the De Beers' consolidated mines, rising over the housetops and drifting down the wind to Mr. Philip Marsden's hunting ground."

To say that I stared in the silence of blank amazement at the inspector, who made this astounding assertion with a dramatic gesture and inflection which naturally cannot be reproduced in print, would be to utter the merest commonplace. He seemed to take my stare for one of incredulity rather than wonder, for he said almost sharply:

"Ah, I see you are beginning to think that I am talking fiction now, but never mind, we will see about that later on. You have followed me, I have no doubt, closely enough to understand that having exhausted all the resources of my experience and such native wit as the fates have given me, and having made the most minute analysis of the circumstances of the case, I had come to the fixed conclusion that the great diamond had not been carried out of the room on the person of a human being nor had it been dropped or thrown from the windows to the street, yet it was equally undeniable that it had got out of the safe and out of the room."

"And therefore it flew out, I suppose. I could not help interrupting, nor, I am afraid, could I quite avoid a suggestion of incredulity in my tone."

"Yes, my dear sir," replied the inspector, with an emphasis which he increased by slapping the four fingers of his right hand on the palm of his left. "Yes, it flew out. It flew some 17 or 18 miles before it returned to the earth in which it was born, if we may accept the theory of the terrestrial origin of diamonds. So far, as the event proved, I was absolutely correct, wild and all as you may naturally think my hypothesis to have been."

"But," he continued, stopping in his walk and making an eloquent gesture of apology, "being only human, I almost instantly deviated from truth into error. In fact, I freely confess to you that there and then I made what I consider to be the greatest and most fatal mistake of my career."

"Absolutely certain as I was that the diamond had been conveyed through the air to the Barkly hills and that Mr. Philip Marsden's shooting expedition had been undertaken with the object of recovering it, I had all the approaches to the town watched till he came back. He came in by the old Transvaal road about an hour after dark. I had him arrested, took him into the house of one of my men who happened to live out that way, searched him, as I might say, from the roots of his hair to the soles of his feet and found—nothing."

"Of course he was indignant, and of course I looked a very considerable fool. In fact, nothing would pacify him but that I should meet him the next morning in the boardroom at De Beers' and in the presence of the secretary and at least three directors apologize to him for my unfounded suspicions and the outrage that they had led me to make."

"I saw him standing in front of me, covering me with a brace of revolvers," upon him. I was of course, as you might say, between the devil and the deep sea. I had to do it, and I did it, but my convictions and my suspicions remained exactly what they were before."

"Then there began a very strange and—although you may think the term curious—a very pathetic waiting game between us. He knew that in spite of his temporary victory I had really solved the mystery and was on the right track. I knew that the great diamond was out yonder somewhere among the hills or on the veldt, and I knew, too,

Oh, How Thankful

Pain Was Maddening and Hope Had Been Abandoned—Wonderful Results of Purifying the Blood.

"A very severe pain came in my left knee, which grew worse and worse, and finally a sore broke out above the knee. It discharged a great deal and the pain from my thigh down was maddening. Large, hard, purple spots appeared on my leg. I suffered in this way for years, and gave up all hope of ever being cured. My wife was reading of a case like mine cured by Hood's Sarsaparilla, and she advised me to try it. I began taking it and when I had used a few bottles I found relief from my suffering. Oh, how thankful I am for this relief! I am stronger than I have ever been in my life. I am in the best of health, have a good appetite and am a new man altogether." J. P. The Only Way to Get Married.

There is a virtue in the ipisissima verba prescribed for ceremonies which some people can never be got to understand, and at Peterborough this dense led to the postponement of a wedding. In the church were duly assembled the guests, the officiating clergyman and the bride and bridegroom. The service commenced, and all went smoothly till the priest asked the question, "Wilt thou have this woman to be thy wedded wife?"

"Yes," said the prospective husband, who evidently did not go in for archaisms.

It was explained to him that "I will" was the regulation reply. Whereupon the bridegroom began to argue about it, insisting that "Yes" was quite sufficient for the purpose, and that as he meant to do his duty by the girl the exact form of assent could not matter.

At last his attitude became so aggressively positive that the parson shut his book and refused to continue the service, and the couple had to leave the church unwed.—London News.

Blushing.

In a learned work on criminology it is stated that out of 98 young men criminals 44 did not blush when examined. Of 122 women criminals 81 per cent did not blush. From this it seems that writers of fiction are all in the wrong, and that, instead of making their heroines betray their emotions by blushing, they should leave that part of the regulation programme to their admirers of the other sex.

It is also noted by the author that women blush about the ears rather than on the cheek. Perhaps some time soon scientists will be able to tell us why, without apparent reason, one or other of our ears suddenly blushes and burns, and if, as the old wives tell us, it is a sign that some one is speaking of us how we can tell who it may be. We all know that it is "right for spite and left for love," but the knowledge is not very useful to us, and nowadays we like to know the why and the wherefore of everything.

Mrs. Gladstone as a Listener.

Mrs. Gladstone cultivated the art of listening to her husband to a perfection that I never saw equaled," says an English writer. "When he spoke, her absolute attention was always at his command—in fact, I do not believe any body ever so absorbed as Mrs. Gladstone looked. I suspect that she had learned how to wear that absolutely listening air while her mind followed its own track. But it was a decided help to him, for it secured at table and elsewhere a general silence when he wished to deliver his opinions without any appearance that he personally was demanding it. Mrs. Gladstone's own little speeches to the women Liberals, too, were always on one topic, what her husband thought or how he was feeling. In short, for the old ideal of wifehood, Mrs. Gladstone was a perfect model."

Distance of Stars.

From measurements of the mean parallax of the stars Beta, Gamma, Epsilon and Zeta, in the Great Bear—five of the seven stars which form the Great Dipper—astronomers now obtain values so small as to indicate that the system formed by these stars is separated from the earth by such a distance that it is no random assertion to say that 200 years must be required for the light to reach us.

The distance of Beta and Zeta is found to be at least 4,000,000 times greater than that which separates the earth from the sun, and from calculations made by M. Hoffer the star Epsilon of this group is calculated to be 40 times brighter than Sirius.

A few years ago Professor Pickering of the Harvard college observatory deduced from spectroscopic observations of the star Eta Ursae Majoris—Mizar, the middle star in the handle of the dipper—that its distance is about 150 light years, an estimate with which these later determinations of the distances of the other dipper stars accord fairly well.

A Thackeray Slip.

Thackeray asked Lowell to point out candidly any error of Queen Anne English in the novel "Henry Esmond." Lowell asked if people used at that time the phrase "different to."

"Hang it all!" cried Thackeray. "No, of course they didn't."

Of the entire number of English peerages only five go back as far as the thirteenth century. Of the 538 temporal peers 350 have been created during the present century, 126 during the past century, and only 62 trace their titles beyond the year 1700.

When the leaders learned that no danger menaced, that the fires were lighted to satisfy the whim of a woman, their wrath fed on their lost confidence, and with the actual call to arms the response was slow and unenthusiastic. It was a repetition of the old story in Webster's spelling book, "Wolf" had been cried too often.—Youth's Companion.

The Siberian Railway and Warfare.

It is my experience that nine out of every ten questions addressed me have reference to the changes which the completion of the great road would bring about in Russia's military capacity and policy.

In summer, I believe, Russia could mobilize an army of 200,000 men within two weeks upon any given point of the frontier of China or Korea.—Stephen Bonsal in Harper's Magazine.

DEEP SEA LIFE.

Purity of the Water Necessary For Fishes at Any Depth.

Results of deep sea dredgings are different in different oceans. A series of experiments made in the Mediterranean sea, which is a part of the Mediterranean, seems to establish the fact that there was an abundance of life in the shallow water, which diminished till it found a limit at 300 fathoms, below which no life seemed to exist. It was afterward shown, when repairing a cable on the coast of Africa, that animals were attached to the cable, that had been lying at a depth of 1,300 fathoms. It is proved by dredgings that there is abundant life in the Atlantic ocean as deep down as 2,500 fathoms, or nearly three miles.

The Mediterranean seems to be an exception to the general rule in the matter of deep sea life. The reason is found in the fact that there is a silty sediment in the deeper portions of this sea, that interferes with animal respiration, the same as an extremely thick dust would in the air. Life is supported in the water the same as on land, by breathing oxygen. In the one case it is absorbed from the air and in the other from the water. Pure water is to the sea animal what pure air is to the land animal. The sea animal could not live in muddy water continuously any more than we could exist continuously in an atmosphere filled with dust. It is thus seen that depth is not the only condition that affects animal life on the bed of the sea. The nature of the soil and deposits are factors as well as the temperature of the water. However, there are certain forms of life to be found in the lowest temperatures. But, as is the case on land, we do not find the same kind of life in the colder and deeper zones of the ocean as in the warmer and more shallow parts.

In the cold waters the animals are dwarfed in size, somewhat as we find them in high mountain regions. It is said that the starfish will grow as large as a pudding plate while the conditions are favorable, but not larger than a silver dollar in the cold current of the Atlantic, which flows southward. In some places this cold current falls 2 to 2½ degrees below the freezing point of fresh water at the bottom of the ocean.—Professor Ellisha Gray in Chicago Times-Herald.

EDUCATION OF SERVANTS.

A Mistress With High Ideas Has a Little Disappointment.

"I am trying to educate my servants up to a higher standard of culture and appreciation," remarked a housekeeper to a visiting friend.

"I wouldn't," was the reply of the visitor, who had had experience of her own in that line. "I'd just make them comfortable and give them good wages. How are you succeeding so far?"

"Splendidly. You would be surprised to know how really and truly refined in their tastes are those girls who work in kitchens. You have seen my second girl, Ida, and know how pretty and gentle she is. I am persuading her to take mandolin lessons and attend a class in mental culture. Then my cook used to be so slangy, but now she speaks the purest English."

"Aren't you afraid they will be looking for a different occupation when they are educated up to your standard?" asked the friend.

"Oh, no. I have taught them to elevate their work and make drudgery divine. I wish you could hear the improvement in their conversation. They—"

She was interrupted by a yell from the basement. It was the voice of the cook.

"Hello, you Ida! Hev you flew the coop?"

"Naw sich good luck. What's aillin' you?"

"Has the freak gone out?"

"No. What's up?"

"The bread's N. G."

"What ails it?"

"It looks as if it had whiskers on it."

"You've knocked it silly with cutlath. Bounce it in the alley wen the cop is out of sight."

The mistress of the house made a gesture of despair.

"Think of being called a 'freak' after all I have done for them!" she said, and her friend, who was a wise woman, forbore to say, "I told you so!"—Taggart's Times.

What Is Business?

What is it to be businesslike? As the American world stands today it means very often to be shrewd and cunning. What is the business man? He is, in many men's minds, the wide awake fellow who has discovered a way of getting much more than he earns. What is business?

As very often understood among us, it is the art of juggling money out of your neighbor's pocket into your own. There is a world in which to earn your bread by honest and continuous labor is not to be businesslike—is not even to be "in business." In that world to take advantage of opportunities to conceal what you may have learned and to trade upon your knowledge is business. Misleading even, if secrecy cannot otherwise be obtained; that is business. In short, in that world to be businesslike is to be unscrupulous.

A lover of fine art may continue to hope that its devotees will not too rapidly become business men in that sense.—"A Field of Art" in Scribner's.

Beacon Fires In China.

In China such beacon fires as spread the alarm of the Spanish armada through England still call to war. Some years ago, the story goes, the emperor sat with a beautiful woman, looking toward the beacon hills. She would like to see those waiting piles lighted, and upon her insistence the thing was done. The greatest excitement prevailed throughout the provinces, and troops came hurrying in from all sides.

When the leaders learned that no danger menaced, that the fires were lighted to satisfy the whim of a woman, their wrath fed on their lost confidence, and with the actual call to arms the response was slow and unenthusiastic. It was a repetition of the old story in Webster's spelling book, "Wolf" had been cried too often.—Youth's Companion.
